Reading The Eve of St. Agnes Jack Stillinger, 1999-10-14 Using the 180 year history of Keats's Eve of St Agnes as a basis for theorizing about the reading process Stillinger's book explores the nature and whereabouts of meaning in complex works A proponent of authorial intent Stillinger argues a theoretical compromise between author and reader applying a theory of interpretive democracy that includes the endlessly multifarious reader's response as well as Keats's guessed at intent Stillinger also considers the process of constructing meaning and posits an answer to why Keats's work is considered canonical and why it is still being read and admired

Getting Saved in America Carolyn Chen, 2008-03-10 What does becoming American have to do with becoming religious Many immigrants become more religious after coming to the United States Taiwanese are no different Like many Asian immigrants to the United States Taiwanese frequently convert to Christianity after immigrating But Americanization is more than simply a process of Christianization Most Taiwanese American Buddhists also say they converted only after arriving in the United States even though Buddhism is a part of Taiwan's dominant religion By examining the experiences of Christian and Buddhist Taiwanese Americans Getting Saved in America tells a story of how people become religious by becoming American and how people become American by becoming religious Carolyn Chen argues that many Taiwanese immigrants deal with the challenges of becoming American by becoming religious Based on in depth interviews with Taiwanese American Christians and Buddhists and extensive ethnographic fieldwork at a Taiwanese

Buddhist temple and a Taiwanese Christian church in Southern California Getting Saved in America is the first book to compare how two religions influence the experiences of one immigrant group By showing how religion transforms many immigrants into Americans it sheds new light on the question of how immigrants become American

Learning to levitate Jude Seaward, 2025-07-13 Consider a pitchfork and a paddling pool they appear to be ordinary items yet on a particular day they were the source of significant distress Although no violent event occurred nor was there a need for medical attention I was left with a profound sense of inadequacy and persistent self doubt This feeling persisted into adulthood manifesting as anxiety and heightened emotional sensitivity It was only when my children grew older that I realized this trauma had been inadvertently passed down to them This realization was heart wrenching The book aims to guide readers in re evaluating their perspectives behaviours and emotions Generational trauma and conditioning have been passed down to us often normalising behaviours that are not inherently healthy Our reactions can originate from our wounded inner child leading us to believe they are acceptable when triggered Numerous situations may escalate because we fail to manage these triggers allowing our subconscious mind to take control Our subconscious brain continuously influences us with early traumas operating unnoticed It is only by uncovering our hidden wounds that we can begin to alter our perceptions and behaviours Consider a situation where you were convinced someone acted with a specific intent prompting a reaction only to later discover you were mistaken This reaction was driven by your subconscious mind While change can be challenging and requires deep introspection adopting accessible strategies can empower you to understand yourself and your wounds whether they stem from personal experiences or generational inheritance I m not here to fix you but to empower you to be your own therapist and delve into your own subconscious brain to heal the trauma you didn t realise you had and to reduce the triggers Let me walk with you this journey of self healing
