

when the earl served the king in the marches of Wales, when he returned from abroad, and when he owed a debt to the Jews. In many of the entries the payments are said to be *gratis* or *bona voluntate*, which indicates that they were gracious or voluntary aids granted by the tenants. For one of the levies the earl had the king's writ, but the payment nevertheless was *gratis*. This right of free tenants to consent to aids does not receive sufficient attention in his discussion of aids. He conveys the impression that royal writs addressed to knights and tenants with regard to the payment of aids to their lords were mandatory in the reigns of John and Henry III (pp. 144, 145). Some of John's writs were in this form, but those of Henry III customarily requested payment. His estimate of the value of aids to a baron is thereby rendered questionable for the period before 1275. Since a baron in this period might ask his tenants for an aid on a variety of occasions, as is shown by the aids of the earl of Arundel and by writs in the patent rolls of Henry III, the assumption that "an aid could not ordinarily be asked more than three times in a generation" (p. 148) seems unwarranted.

A general estimate of the value of the study must take account of the author's purpose, which was to produce "a broad preliminary survey even if many of its conclusions must be tentative" (p. 12). In my opinion he has done more than this. He presents much new material and many new points of view with regard to information previously available. There is hardly any aspect of the subject which is not enriched thereby. Many of his conclusions appear to be sound. Those which are tentative because not all the evidence has been explored should serve to promote Mr. Painter's hope that they may stimulate further research. If such investigations should be made, they might confirm or modify some aspects of his synthesis, but they are not likely to supersede it.

Haverford College

W. E. LUNT

*The Tariff Reform Movement in Great Britain, 1881-1895.* By Benjamin H. Brown. New York: Columbia University Press, 1943. Pp. xi, 170. \$2.50.

The tariff reform movement was a forerunner of two revolutions, the "parliamentary revolution" of 1906 and the revolution in British economic policy in the 1930's. Mr. Brown's short monograph is therefore more significant than most first fruits of graduate study; his subject is of intrinsic importance. The virtues of the book derive from this fact, and the shortcomings from a failure to explain its full implications.

Mr. Brown is thoroughly at home in his material, and handles it with an ease which conceals the difficulties of organization. His plan is topical rather than chronological: an introductory chapter on origins, and then four on the reform movement in relation respectively to labor, the Conservative party, imperialism, and industry and agriculture. This arrangement is logical, but not wholly satisfying. It obscures the fact that the fair-trade movement had two basic compo-
