What Comes After Farce? Hal Foster, 2020-05-05 Surveying the artistic and cultural scene in the era of Trump In a world where truth is cast in doubt and shame has gone missing what are artists and critics on the left to do How to demystify a political order that laughs away its own contradictions How to mock leaders who thrive on the absurd And why in any event offer more outrage to a media economy that feeds on the same Such questions are grist to the mill of Hal Foster who in *What Comes after Farce* delves into recent developments in art criticism and fiction under the current regime of war surveillance extreme inequality and media disruption Concerned first with the cultural politics of emergency since 9 11 including the use and abuse of trauma conspiracy and kitsch he moves on to consider the neoliberal makeover of aesthetic forms and art institutions during the same period A final section surveys signal transformations in art film and writing Among the phenomena explored are machine vision images produced by machines for other machines without a human interface operational images images that do not represent the world so much as intervene in it and the algorithmic scripting of information that pervades our everyday lives If all this sounds dire it is In many respects we look out on a world that has moved not only politically but also technologically beyond our control Yet Foster also sees possibility in the current debacle the possibility to pressure the cracks in this order to turn emergency into change
