Home ,1989 **Acquired Taste** T. Sarah Peterson,1994 Peterson explores a change in French cooking in the mid seventeenth century from the heavily sugared saffroned and spiced cuisine of the medieval period to a new style based on salt and acid tastes In the process she reveals more fully than any previous writer the links between medieval cooking alchemy and astrology Peterson s vivid account traces this newly acquired taste in food to its roots in the wider transformation of seventeenth century culture which included the Scientific Revolution She makes the startling and persuasive argument that the shift in cooking styles was actually part of a conscious effort by humanist scholars to revive Greek and Roman learning and to chase the occult from European life
