Ma, 2022-10-04 A free open access ebook is available upon publication Learn more at www.luminosoa.org Many recent works of contemporary art performance and film turn a spotlight on sleep wresting it from the hidden private spaces to which it is commonly relegated *At the Edges of Sleep* considers sleep in film and moving image art as both a subject matter to explore onscreen and a state to induce in the audience Far from negating action or meaning sleep extends into new territories as it designates ways of existing in the world in relation to people places and the past Defined positively sleep also expands our understanding of reception beyond the binary of concentration and distraction These possibilities converge in the work of Thai filmmaker and artist Apichatpong Weerasethakul who has explored the subject of sleep systematically throughout his career In examining Apichatpong's work Jean Ma brings together an array of interlocutors from Freud to Proust George M li s to Tsai Ming liang Weegee to Warhol to rethink moving images through the lens of sleep Ma exposes an affinity between cinema spectatorship and sleep that dates to the earliest years of filmmaking and sheds light upon the shifting cultural

valences of sleep in the present moment **Understanding Nancy, Understanding Modernism** Cosmin Toma, 2023-01-12

Over the past three decades Jean Luc Nancy has become one of the most celebrated contemporary philosophers His remarkably diverse body of work which deals with such topics as post Heideggerian ontology Christian painting the experience of drunkenness heart transplants contemporary cinema and the problem of freedom is entirely immersed in modernity as he puts it Within this plural framework art which he explicitly defines as a modern construct plays a singular role in that it is the very prism through which he explores the problems of sense and feeling in general particularly as they relate to our experience of modernity The contributors to *Understanding Nancy Understanding Modernism* fully delve into the heretofore under acknowledged and under explored modernism of Nancy s writings on philosophy and the arts through close readings of his key works as well as broader essays on the relationship between his thought and aesthetic modernity In addition to an interview with Nancy himself a final section consists of an extended glossary of Nancy s signature terms which will be a valuable resource for students and experts alike **Death and the Moving Image** Michele Aaron, 2015-02-13

Abbas Kiarostami and Iranian National Cinema Hossein Khosrowjah,2025-02-20 The films of Abbas Kiarostami 1940 2016 are at once ambiguous and singular challenging easy categorisation in national generic and formal terms In this insightful study Hossein Khosrowjah provides an in depth exploration of Kiarostami s body of work considering how his filmmaking confronts questions of cinematic representation identity and the myth of national unity Challenging prevailing auteurist readings of Kiarostami s work Hossein Khosrowjah firmly anchors his filmmaking within the historical context of Iranian national cinema Through a close reading of key films including *Close Up* 1990 *Taste of Cherry* 1997 *The Wind Will Carry Us* 1999 and *10* 2002 he explores Kiarostami s radically anti allegorical representational strategies He goes on to examine the national and global circulation of his films considering the role of censorship within Iran and the intersection of art politics and the complexities of creative freedom He traces the continuing emphasis on partiality and the singularity of representations of subjects time and location across Kiarostami s films arguing that it is through this intentional ambiguity that his cinema reshapes notions of nation and national identity challenges conventions and broadens the scope for cinematic expression
