**Electrical Engineer**, 1897     **Industrial Engineering** George Worthington, 1893     **Strategies for Increasing Diversity in Engineering Majors and Careers** Gray, Monica, Thomas, Ken D., 2017-01-10 Underrepresentation of minorities is present in the field of engineering both in education and practice As in every profession diversity and inclusion needs to be incorporated in order to provide the same opportunities for all people *Strategies for Increasing Diversity in Engineering Majors and Careers* is an essential reference work for the latest research on the need for diversity and inclusion

within the engineering workforce and provides approaches to restructure engineering education to achieve this goal. Featuring expansive coverage on a broad range of topics including minority recruitment, experiential education systems, and study abroad programs, this book is ideally designed for students, professionals, academic advisors, and recruitment officers seeking current research on ways to diversify engineering education and careers.

**Gender Lens Investing** Joseph Quinlan, Jackie VanderBrug, 2016-10-14. Delve into gender lens investing and the reality of the female economy. Women today are an unparalleled force in the global economy as successful entrepreneurs, corporate executives, and family breadwinners. Yet gender-based violence, the absence of women's legal rights, and the persistent wage gap stubbornly remain. This paradox creates an unprecedented and underexplored opportunity for investors. *Gender Lens Investing* co-authored by Jackie VanderBrug, Managing Director, and Joseph Quinlan, Managing Director and Chief Market Strategist of U.S. Trust Bank of America Private Wealth Management, is the first book of its kind to examine in depth the advantages of integrating gender into investment analysis. While other books speak to growing numbers and influence of women, *Gender Lens Investing* moves from economic trends to financial strategy. Learn why gender is material to economic prosperity and investment performance. Explore ways to use a gender lens to assess products, companies, and sectors. Delve into the forces of positive social change supported by a gender perspective on investment choices. Examine profitable and gratifying gender lens investment strategies. Women are one of the world's greatest underutilized assets, and applying a gender lens allows you to identify companies that recognize this or uncover the risks of companies that neglect it. A gender lens adds value across the investment community, but the impact reaches far beyond the bounds of portfolios to the economy and society as a whole. *Gender Lens Investing* provides expert perspective and real-world practical insight for investors looking to drive returns and impact.

**The Untold Story of the Lower Colorado River Authority** John Williams, 2015-11-18. Arguably no other institution has transformed the heart of Texas like the Lower Colorado River Authority. Born in the Great Depression of the 1930s, LCRA built a chain of dams and brought predictability to the cycles of extreme droughts and floods that had long plagued Austin and other communities. It also brought hydroelectric power and with that, modern-day civilization to the hard-scrabble regions of Central and South Texas. With those achievements and the support of powerful political leaders like Lyndon Johnson, LCRA for years was touted as one of the state's major success stories. But LCRA has never been a stranger to controversy, and while it continues to provide much of the energy and water that fuels the economic engine of Austin and beyond, most people know very little about LCRA. In this book, readers will learn about the forces of nature and politics that combined to create LCRA, the colorful personalities who operated, supported, or fought with the agency, its spectacular successes, periodic blunders, and occasional failures, and its evolution into one of the largest public power organizations in Texas.
