The Heath Guide to College Writing Ralph F. Voss, Michael L. Keene, 1995-01-01 **The Heath Guide to College Writing, Brief** Michael L. Keene, Ralph F. Voss, 1995 **Guide to College Writing Assessment** Peggy O'Neill, Cindy Moore, Brian Huot, 2009-04-15 While most English professionals feel comfortable with language and literacy theories assessment theories seem more alien English professionals often don't have a clear understanding of the key concepts in educational measurement such as validity and reliability nor do they understand the statistical formulas associated with psychometrics But understanding assessment theory and applying it by those who are not psychometricians is critical in developing useful ethical assessments in college writing programs and in interpreting and using assessment results A Guide to College Writing Assessment is designed as an introduction and source book for WPAs department chairs teachers and administrators Always cognizant of the critical components of particular teaching contexts O'Neill Moore and Huot have written sophisticated but accessible chapters on the history theory application and background of writing assessment and they offer a dozen appendices of practical samples and models for a range of common assessment needs Because there are numerous resources available to assist faculty in assessing the writing of individual students in particular classrooms A Guide to College Writing Assessment focuses on approaches to the kinds of assessment that typically happen outside of individual classrooms placement evaluation exit examination programmatic assessment and faculty evaluation Most of all the argument of this book is that creating the conditions for meaningful college writing assessment hinges not only on understanding the history and theories informing assessment practice but also on composition programs availing themselves of the full range of available assessment practices *The Heath Guide to Writing the Research Paper* Gerald P. From Fidelity to History Anne-Marie Scholz, 2013-04-01 Scholarly approaches to the relationship between literature and film ranging from the traditional focus upon fidelity to more recent issues of intertextuality all contain a significant blind spot a lack of theoretical and methodological attention to adaptation as an historical and transnational phenomenon This book argues for a historically informed approach to American popular culture that reconfigures the classically defined adaptation phenomenon as a form of transnational reception Focusing on several case studies including the films Sense and Sensibility 1995 and The Portrait of a Lady 1997 and the classics The Third Man 1949 and The Bridge on the River Kwai 1957 the author demonstrates the ways adapted literary works function as social and cultural events in history and how these become important sites of cultural negotiation and struggle

WPA, Writing Program Administration, 1994 **College Writing and Beyond** Anne Beaufort, 2008-02-06 Composition research consistently demonstrates that the social context of writing determines the majority of conventions any writer must observe Still most universities organize the required first year composition course as if there were an intuitive set of general writing skills usable across academic and work world settings In College Writing and Beyond A New Framework for University Writing Instruction Anne Beaufort reports on a longitudinal study comparing one student's experience in FYC in history in engineering and in his post college writing Her data illuminate the struggle of college students to transfer what they learn about general writing from one context to another Her findings suggest ultimately not that we must abolish FYC but that we must go beyond even genre theory in reconceiving it Accordingly Beaufort would argue that the FYC course should abandon its hope to teach a sort of general academic discourse and instead should systematically teach strategies of responding to contextual elements that impinge on the writing situation Her data urge attention to issues of learning transfer and to developmentally sound linkages in writing instruction within and across disciplines Beaufort advocates special attention to discourse community theory for its power to help students perceive and understand the context of writing
