the relatively small number of people and corporations responsible for facilitating the violent status quo whether by setting the range of permissible discussion or benefiting directly as financiers and manufacturers The result is a stunning indictment of our violent world and a powerful critique of the ways through which violence is reproduced on a daily basis whether at the highest levels of the state or in the deepest recesses of the mind **The Hidden Survivor** Connor Mccoy,2018-05-24 Glen Carter had it all a wife a family a thriving medical practice until tragedy struck and the life he once adored was nothing more than a heartbreaking memory With few resources and little knowledge of how to survive without the conveniences of modern life he dissolves into the woods where he finds forgiveness and embraces life off the grid Then once again his life is upended An impending solar storm threatens the earth but governing bodies have opted to keep that information close to the vest But their attempts fail The storm devastates the electrical grids and leaves the world in chaos That is everyone except Glen for now Keywords EMP emp survival Post Apocalyptic EMP Fiction survival books free dystopian EMP Apocalyptic Survival Fiction End of the World Survival Fiction SHTF Fiction Post Apocalyptic Survival Fiction No Zombies End of the World Survival Fiction Prepper Survival Fiction EMP Apocalyptic Survival Fiction prepper fiction post survival fiction *The Hidden Conflict* Pasquale De Marco,2025-07-24 The Afghan conflict is one of the longest and most complex wars in modern history spanning over four decades and involving multiple domestic and international players This book aims to provide a comprehensive overview of the conflict from its origins to its ongoing impact on Afghanistan and the wider region The conflict began in 1979 with the Soviet invasion of Afghanistan which sought to prop up the communist Afghan government against a growing insurgency The Soviet occupation lasted for ten years and resulted in a bloody and protracted war with the Soviet Union ultimately withdrawing in defeat The post Soviet era saw the rise of the Taliban a fundamentalist Islamic group that took control of much of the country in the 1990s The US led invasion of Afghanistan in 2001 overthrew the Taliban but the conflict continued as the Taliban launched an insurgency against the US backed Afghan government The Afghan conflict has had a devastating impact on the country and its people Millions of Afghans have been killed injured or displaced and the country's infrastructure and economy have been severely damaged The conflict has also had a significant regional impact contributing to instability and violence in neighboring countries This book examines the various aspects of the Afghan conflict including the historical background the military operations the role of the Mujahideen resistance the impact on the Afghan people and the international involvement It also explores the post Soviet era the War on Terror and the ongoing challenges of peace and stability in Afghanistan Through a comprehensive analysis of the conflict this book aims to provide a better understanding of its causes consequences and challenges It also highlights the need for a just and lasting peace in Afghanistan and the importance of international cooperation in achieving this goal This book is intended for a general audience including readers interested in international relations history and current affairs It will also be of interest to policymakers researchers and students of the Afghan conflict If you like this book write a review [Nature's Hidden Terror](#)

The War Hotel Arlene Audergon,2004-12-10 Human Nature is the fuel of violent conflict The War Hotel looks at how we get aroused and how we get silenced into violent conflict We are pulled apart in the name of justice and loyalty Past trauma is triggered into a replay Out of love and longing to step beyond the ordinary world we sacrifice ourselves and others Dehumanizing the enemy disinformation torture stirring fear in order to crack down these terror tactics too are based in psychology The manipulation of psychological dynamics to create violent conflict is distressing But if our emotions and behaviour are the fuel then our awareness can impact world events There is something truly hopeful here Awareness makes a difference Examples draw particularly from the author s work in the Balkans Other examples include Nazi Germany Rwanda the Israeli Palestinian conflict Communism and its fall in Europe South Africa the treatment of Native Americans and African Americans in the USA Vietnam and the war on terror
