Street,2012 For many Americans hearing the words United States of America brings stirring emotions It is the concept of e pluribus unum out of many one that summarizes the sense of national unity that Americans feel and one that author Martin Street seeks to convey in Taking the Pulse of America This compendium of 110 essays offers a snapshot of American life today Street offers opinions and suggestions for many of the most contentious issues of our time From hot button issues like abortion illegal immigration and waterboarding to the justice system education reform and government affairs Street doesn't mince words Often Street's commentary is just as contentious as his subjects Even so he provides an honest authentic voice to these conversations that have become part of our national lexicon Whether he discusses unions our throwaway society or professional athletes Street gives his straightforward often politically incorrect opinions A call to action for Americans to restore the United States of America to her former glory Taking the Pulse of America is essential reading for every citizen

Cost-Sharing in Health Care B. Abel-Smith,A. Brandt,B. Horisberger,W. P. von Wartburg,2012-12-06 In view of the continuing preoccupation of all industrialized countries with the rising share of national resources devoted to health care it is valuable to compare the financing and breakdown of health care expenditure on an international basis How far should public spending on health care be regarded as a capital investment in the improvement of the health of the population and how far as subsidies to individual consumption This question is of major importance to policy makers including the medical profession politicians employers social security officials as well as to the public at large In order to obtain some insight into the incentive structures enhancing competition among suppliers which have been built into the health care delivery systems in the various countries the Interdisciplinary Research Centre for Public Health at St Gall in close co operation with the Institute of Insurance Economics and the Institute of Public Finance and Fiscal Law both affiliated with the Saint Gall

Graduate School of Economics Business and Public Administration initiated an international seminar held at Wolfsberg Switzerland 20-23 March 1979.
