M. Lee,2015-08-15 Watanabe Yuichi a young guard with a passion for reading is ordered to investigate The victim Sugiyama also a guard was feared and despised throughout the prison and inquiries have barely begun when a powerful inmate confesses But Watanbe is unconvinced and as he interrogates both the suspect and Yun Dong ju a talented Korean poet he starts to realize that the fearsome guard was not all he appeared to be As Watanbe unravels Sugiyama s final months he begins to discover what is really going on inside this dark and violent institution which few inmates survive a man who will stop at nothing to dig his way to freedom a governor whose greed knows no bounds a little girl whose kite finds an unlikely friend And Yun Dong ju the poet whose works hold such beauty the can break the hardest of hearts As the war moves towards its devastating close and bombs rain down upon the prison Watanbe realizes that he must find a way to protect Yun Dong ju no matter what it takes As he digs further and further in to his investigation the young guard discovers a devastating truth At once a captivating mystery and an epic lament for lost freedom and humanity The Investigation inspired by a true story is a sweeping and gripping tale by an international literary star      *Grasslands Grown* Molly Patrick Rozum,2021-08 In *Grasslands Grown* Molly P Rozum explores the two related concepts of regional identity and sense of place by examining a single North American ecological region the U S Great Plains and the Canadian Prairie Provinces All or parts of modern day Alberta Montana Saskatchewan North Dakota South Dakota and Manitoba form the center of this transnational region As children the first postconquest generation of northern grasslands residents worked played and traveled with domestic and wild animals which introduced them to ecology and shaped sense of place rhythms As adults members of this generation of settler society worked to adapt to the northern grasslands by practicing both agricultural diversification and environmental conservation Rozum argues that environmental awareness including its ecological and cultural aspects is key to forming a sense of place and a regional identity The two concepts overlap and reinforce each other place is more local ecological and emotional sensual and region is more ideational national and geographic in tone This captivating study examines the growth of place and regional identities as they took shape within generations and over the life cycle      *Results of the Magnetic and Meteorological Observations* Royal Greenwich Observatory.
