Slavery in American Children's Literature, 1790-2010 Paula T. Connolly, 2013-07-01 Long seen by writers as a vital political force of the nation children s literature has been an important means not only of mythologizing a certain racialized past but also because of its intended audience of promoting a specific racialized future Stories about slavery for children have served as primers for racial socialization This first comprehensive study of slavery in children s literature Slavery in American Children s Literature 1790 2010 also historicizes the ways generations of authors have drawn upon antebellum literature in their own re creations of slavery It examines well known canonical works alongside others that have ostensibly disappeared from contemporary cultural knowledge but have nonetheless both affected and reflected the American social consciousness in the creation of racialized images Beginning with abolitionist and proslavery views in antebellum children s literature Connolly examines how successive generations reshaped the genres of the slave narrative abolitionist texts and plantation novels to reflect the changing contexts of racial politics in America From Reconstruction and the end of the nineteenth century to the early decades of the twentieth century to the civil rights era and into the twenty first century these antebellum genres have continued to find new life in children s literature in among other forms neoplantation novels biographies pseudoabolitionist adventures and neo slave narratives As a literary history of how antebellum racial images have been re created or revised for new generations Slavery in American Children s Literature ultimately offers a record of the racial mythmaking of the United States from the nation s beginning to the present day **Thar She Blows** Stephen Currie, 2001-01-01 Describes the whaling industry and its significance in America during the nineteenth century and discusses crew members working conditions life for family members left ashore and those on board and the end of whaling

Youth and Memory in Europe Félix Krawatzek, Nina Friess, 2022-06-06 This volume contends that young individuals across Europe relate to their country s history in complex and often ambivalent ways It pays attention to how both formal education and broader culture communicate ideas about the past and how young people respond to these ideas The studies collected in this volume show that such ideas about the past are central to the formation of the group identities of nations social movements or religious groups Young people express received historical narratives in new potentially subversive ways As young people tend to be more mobile and ready to interrogate their own roots than later generations they selectively

privilege certain aspects of their identities and their identification with their family or nation while neglecting others This collection aims to correct the popular misperception that young people are indifferent towards history and prove instead that historical narratives are constitutive to their individual identities and their sense of belonging to something broader than themselves

Slavery & Race in American Popular Culture William L. Van Deburg, 1984 Spanning more than three centuries from the colonial era to the present Van Deburg's overview analyzes the works of American historians dramatists novelists poets lyricists and filmmakers and exposes through those artists often disquieting perceptions the cultural underpinnings of American current racial attitudes and divisions Crucial to Van Deburg's analysis is his contrast of black and white attitudes toward the Afro American slave experience There has in fact been a persistent dichotomy between the two races literary historical and theatrical representations of slavery If white culture makers have stressed the unmaning of the slaves and encouraged such stereotypes as the Noble Savage and the comic minstrel to justify the blacks subordination Afro Americans have emphasized a counter self image that celebrates the slaves creativity dignity pride and assertiveness ISBN 0 299 09634 3 pbk 12 50
