**Voice, Text, Hypertext** Raimonda Modiano,Leroy F. Searle,Peter L. Shillingsburg,2016-06-01 Voice Text Hypertext illustrates brilliantly why interest in textual studies has grown so dramatically in recent years For the distinguished authors of these essays a text is more than a document or material object It is a cultural event a matrix of decisions an intricate cultural practice that may focus on religious traditions modern underground literary movements poetic invention or the irreducible complexity of cultural politics Drawing from classical Roman and Indian to modern European traditions the volume makes clear that to study a text is to study a culture It also demonstrates the essential importance of heightened textual awareness for contemporary cultural studies and critical theory and indeed for any discipline that studies human culture      ,      **International Bibliography of Sikh Studies** Rajwant Singh Chilana,2006-01-16 The International

*The Sants* Karine Schomer, W. H. McLeod, 1987-01-01      *Subalternity and Religion* Milind Wakankar, 2010-02-25 This book explores the relationship between mainstream and marginal or subaltern religious practice in the Indian subcontinent and its entanglement with ideas of nationhood democracy and equality With detailed readings of texts from Marathi and Hindi literature and criticism the book brings together studies of Hindu devotionism with issues of religious violence Drawing on the arguments of Partha Chatterjee Martin Heidegger and Jacques Derrida the author demonstrates that Indian democracy and indeed postcolonial democracies in general do not always adhere to Enlightenment ideals of freedom and equality and that religion and secular life are inextricably enmeshed in the history of the modern whether understood from the perspective of Europe or of countries formerly colonized by Europe Therefore subaltern protest in its own attempt to lay claim to history must rely on an idea of religion that is inextricably intertwined with the deeply invidious legacy of nation state and civilization The author suggests that the co existence of acts of social altruism and the experience of doubt born from social strife miracle and violence ought to be a central issue for ethical debate Keeping in view the power and reach of genocidal Hinduism this book is the first to look at how the religion of marginal communities at once affirms and turns away from secularized religion This important contribution to the study of vernacular cosmopolitanism in South Asia will be of great interest to historians and political theorists as well as to scholars of religious studies South Asian studies and philosophy
