Sons of the Conquerors Hugh Pope, 2005-06-02 The Turkic world can now count some 140 million people worldwide Turkic speaking peoples range from ancient populations in Siberia and China through six states in an arc through central Eurasia to fast growing new settler communities in western Europe and America Yet despite an extraordinary past and strong signs of hope for the future they remain some of the least studied peoples in the world Muslims for the most part they offer readiness to work with the West access to the new Caspian Sea oil province and a secular alternative for an Islamic world caught between pressure for change and the reactionary threat of fundamentalism The most powerful and best established Turkic nation Turkey long hemmed in by its role as a front line pillar of NATO has become the most democratic major Muslim country and is now negotiating for full membership of the European Union After a shaky start the five Turkic states of the Caucasus and Central Asia set free by the end of the Cold War Azerbaijan Turkmenistan Uzbekistan Kazakhstan and the Kyrgyz Republic are making an independent minded comeback too In his major new work Wall Street Journal correspondent Hugh Pope provides a vivid picture of the descendants of the nomad armies who once conquered China and the Byzantine Empire He shows the myriad connections that live on between Turks in the Xinjiang province of western China one of that country's few remaining bastions of rebellion through Central Asia Iran Iraq the Netherlands Germany where Turkish can be heard on every other street corner of Berlin and all the way to the Appalachian Mountains of the United States Along the way he reassesses a history in which Islamic lands were ruled by Turkic dynasties before their ascendancy was broken by the rising power of Europe Russia and China among them the Moguls who conquered India the Safavids who laid the foundations of modern Iran and the Ottomans whose five century long empire encompassed Turkey the Balkans and the Middle East One of the world's foremost experts on Turkey and coauthor of the acclaimed Turkey Unveiled a New York Times Notable Book Hugh Pope has crisscrossed this wider Turkic world to encounter and assimilate the many facets of this diverse fascinating and ambitious ethnic group He distills their essential genius shows a new convergence in language and governance and argues that the basis has been laid for a commercial and cultural solidarity unthinkable before the collapse of the Soviet Union Rich with stories and legends stretching back centuries from the military legacy of nomad raiders under Attila the Hun to the era of the Great Game and beyond Sons of the Conquerors is a compellingly readable account of a long neglected subject It brings readers into closer contact with a culture that has shaped history and opens a refreshing new window on the Islamic world Book jacket

Sons of the Conquerors Hugh Pope, 2008-02-01 The Turkic world Muslims for the most part has over 140 million people worldwide Turkic speaking peoples range from ancient populations in Siberia the Safavids who laid the foundations of modern Iran the Ottomans whose five century long empire encompassed Turkey the Balkans the Middle East Illus **Eight Pieces of Empire** Lawrence Scott Sheets, 2012-10-30 An unforgettable memoir Boston Globe that provides a window into the wildly divergent nations that once comprised the Soviet Union from a former

NPR reporter Not with a bang but with a quiet ten minute address on Christmas Day 1991 this is how the Soviet Union met its end But in the wake of that one deceptively calm moment conflict and violence soon followed Some of the emergent new countries began to shed totalitarianism while other sought to revive their own dead empires or were led by ex Soviet leaders who built equally or even more repressive political machines Since the late 1980s Lawrence Scott Sheets lived and reported from the former USSR and saw firsthand the reverberations of the empire s collapse through the rise of Vladimir Putin in the new Russia *Eight Pieces of Empire* draws readers into the people politics and day to day life painting a vivid portrait of a tumultuous time Sheets stories about people living through these tectonic shifts of fortune a trio of female saboteurs in Chechnya the chaos of newly independent Georgia in the early 1990s a defiant resident of the Chernobyl exclusion zone in Ukraine young hustlers eager to strike it rich in the post Soviet economic vacuum reveal the underreported and surprising ways in which the ghosts of empire still haunt these lands and the world *Narratives of Identity* William Taylor,2014-10-16

The relationship between the Syrian Orthodox Church in the Ottoman Empire and the Church of England developed substantially between 1895 and 1914 as contacts between them grew As the character of this emerging relationship changed it contributed to the formation of both churches own narratives of identity The wider context in which this took place was a period of instability in the international order particularly within the Ottoman Empire culminating in the outbreak of the First World War effectively bringing this phase of sustained contact to an end *Narratives of Identity* makes use of Syriac Garshuni and Arabic primary sources from Syrian Orthodox archives in Turkey and Syria alongside Ottoman documents from the Babakanlık Osmanlı Arşivi Istanbul and a range of English archival sources The preconceptions of both Churches are analysed using a philosophical framework provided by the work of Paul Ricoeur especially his concepts of significant memory anamnesis translation and the search for mutual recognition Anamnesis and translation were extensively employed in the formation of narratives of identity that needed to be understood by both Churches The identity claims of the Tractarian section of the Church of England and of the Ottoman Syrian Orthodox Church are examined using this framework The detailed content of the theological dialogue between them is then examined and placed in the context of the rapidly changing demography of eastern Anatolia the Syrian Orthodox heartland The late Ottoman state was characterised by an increased instability for all its non Muslim minorities which contributed to the perceived threats to Ottoman Syrian Orthodoxy both from within and without Finally a new teleological framework is proposed in order to better understand these exchanges taking seriously the amamnestic insights of the narratives of identity of both the Syrian Orthodox Church and the Church of England from 1895 to 1914
