Peplow,2016-02-25 Over the last two decades reading groups have become increasingly popular in the UK and the USA More and more people seem to be interested in sharing their reading experiences and hearing other readers discuss their views on books whether this is online through the mass media or in face to face contexts In light of this explosion in popularity of reading groups this ethnographic study focuses on several reading groups based across a variety of settings public libraries public houses and in readers homes A range of methods are used to investigate the practices of the individual readers and the groups including participant observation interviews and audio recordings of meetings Reading groups are found to be highly ritualized and potentially competitive places in which matters of identity and taste are often at stake The groups studied are conceptualized as communities of practice and the literary interpretations and evaluations offered within each group are shown to be a product of shared norms established by this group **State Manual of the Courses of Study for**

autumn of 1894 as a course on Advanced English Composition in the Lowell Free Classes and that they are now printed is largely due to the fact that they were so well received by those who then heard them In preparing them I consulted whatever books upon composition came to my hand I examined some with profit some with pleasure and some it must be confessed not wholly without amusement or even impatience Doubtless I owe something to many of these books but I am not conscious of

much obligation to any save the Principles of Rhetoric by Professor A S Hill English Composition by Professor Barrett Wendell and English Prose by Professor John Earle I have conscientiously endeavored to make the lectures as practical as possible stating as clearly as I could those things which would have been most helpful to me had I read and heeded them twenty years ago The necessity of holding an audience made fitting some effort to render the talks entertaining but I have never consciously said anything for the mere purpose of being amusing and I have never been of the opinion that a book gains either in dignity or in usefulness by being dull My purpose has throughout been sincerely serious and if the book shall prove helpful I shall have attained the object for which it was written
