**Advances in Experimental Social Psychology** Mark P. Zanna, 1993 This volume offers essays on advances in the field of experimental social psychology Topics discussed include attitudes to high achievers tactical communication and social interaction social comparisons legitimacy appraisals and group memberships and stereotypes Latest Contributions to Cross-cultural Psychology John G. Adair, Kenneth L. Dion, Jean-Claude Lasry, 2020-07-26 This volume contains 23 articles grouped under six themes values and national identity immigration and acculturation personality and social behaviour across cultures organizational and work psychology educational and developmental psychology and conceptual and methodological ideas *Conflict and Hostility in Hotels, Restaurants, and Bars* Conrad Lashley, 2024-06-13 This book critically explores conflict and hostility in a range of hospitality settings and from a broad stakeholder perspective The provision of accommodation food and drink in commercial settings has conflict at its core because the commercial transaction between hosts and guests can result in a clash of expectations between the server and served These service encounters involve stakeholders other than immediate personnel and their clients owners managers local communities and regulatory and licensing authorities also have concerns about the hotels restaurants and bars in their midst The book recognises that these different stakeholders frequently have common interests but are also in conflict as their needs and goals compete with others By reviewing these multi agenda perspectives the contributors offer new insights into topics such as conflict theory within the hospitality industry human trafficking employee conflict dysfunctional leadership tall poppy syndrome and the impacts of over tourism on host communities Written by leading international academics this significant volume will be of interest to students researchers and academics interested in critical hospitality studies sociology and business as well as anthropology and culture studies **Sooner Or Later, They'll Turn on You! - Selected Songs & Poems - 2013-2014** Trevor Patrick, 2014-08-11 The next stop along a poetic journey which began with Shattered Images and continued with The Problem With Revolution the overarching theme of Sooner or Later They ll Turn on You is one of betrayal We betray our family we betray our so called friends we betray those who care about us we betray our community our society and our nation but most of all we betray our own ethics and beliefs Worst of all is that betrayal doesn t always go to the highest bidder Sometimes the greatest betrayals are bought and sold for worthless trinkets and empty promises **Targeting Commitment** Rodney Scott, Ross Boyd, 2022-03-08 New Zealand s deceptively simple but effective program to improve public services New Zealand has long been considered at the forefront of public administration experimenting with new ways of organizing and delivering public services Even so successive New Zealand governments had mixed results from using traditional public management tools to lift the performance of the public service and address persistent problems that required multi agency action In 2012 the government decided to try something different As part of a reform package called Better Public Services the government challenged the public service to organize itself around achieving just ten results that had proven resistant to previous

interventions The plan was deceptively simple set ambitious targets and publicly report on progress every six months hold small groups of public managers collectively responsible use lead indicators and learn from both success and failure This book explores how and why the New Zealand government made progress and how the program was able to create and sustain the commitment of public servants and unleash the creativity of public entrepreneurs The authors combine case studies based on the experience of people involved in the change together with public management research They explain how ambitious targets and public accountability were used as levers to overcome the bureaucratic barriers that impeded public service delivery and how data evidence and innovation were used to change practice New Zealand experimented failed succeeded and learned from the experience over five years This New Zealand experience demonstrates that interagency performance targets are a potentially powerful tool for fostering better public services and thus improving social outcomes

*Tall Poppies* Louise Bagshawe,1998-06-01 Poppy Andrew Lack,2016-11-15 Few weeds have been more successful throughout history than the poppy Hated by farmers for its stubbornness the poppy has been a favorite of artists and poets due to its distinct and brilliant color and it has functioned symbolically as everything from a war memorial to an emblem of the exotic cultures of the East In this book Andrew Lack explores all the aspects of one of our most familiar flowers combining biology history and culture to paint a bright portrait of this fascinating plant Lack looks deep into the past of the poppy s ancient history before it seemed to inhabit only ditches and cornfields and examines the biology that gives it its unique coloring He analyzes the poppy s many members of this beautiful family including the opium poppy which is the source of one of the world s oldest and most ravaging narcotics He describes how the poppy came to be associated with war and remembrance and he looks at how they have been used to commemorate everything from weddings to funerals Beautifully illustrated the book will appeal to gardeners or anyone fascinated by the way plants have so powerfully figured in human culture and traditions

Feather, 2005-12-02 When we say that a person deserves a positive or negative outcome we are making a judgment that is influenced by a number of variables We would certainly take into account whether the person was responsible for the outcome or whether the outcome could be attributed to other sources We would also consider whether the actions that led to the positive or negative outcome were actions that we would value or disapprove of We might also be influenced by the person s own positive or negative characteristics by our knowledge of what kinds of groups or social categories the person belonged to and by whether we like or dislike the person Information about these different variables has to be considered and integrated in some way and our judgment of deservingness follows that psychological process a process that involves the cognitive affective system Values Achievements and Justice is about deservingness and about the variables that affect the judgments we make I use the term deservingness although I could equally have referred to deservedness or desert The terms are all virtually equivalent in meaning although dictionaries may separate them by using fine distinctions I assume that the sorts of variables I have just described will affect our judgments of deservingness and I further assume that a judgment of deservingness is most likely to occur when these variables fit together in a consistent harmonious and balanced way      **Encyclopedia of Heroism Studies** , 2024-10-01 This reference work is an important resource in the growing field of heroism studies It presents concepts research and events key to understanding heroism heroic leadership heroism development heroism science and their relevant applications to businesses organizations clinical psychology human wellness human growth potential public health social justice social activism and the humanities The encyclopedia emphasizes five key realms of theory and application Business and organization focusing on management effectiveness emotional intelligence empowerment ethics transformational leadership product branding motivation employee wellness entrepreneurship and whistleblowers clinical health psychology and public health focusing on stress and trauma maltreatment emotional distress bullying psychopathy depression anxiety family disfunction chronic illness and healthcare workers wellbeing human growth and positive psychology discussing altruism authenticity character strengths compassion elevation emotional agility eudaimonia morality empathy flourishing flow self efficacy joy kindness prospection moral development courage and resilience social justice and activism highlighting anti racism anti bullying civil disobedience civil rights heroes climate change environmental heroes enslavement heroes human rights heroism humanitarian heroes inclusivity LGBTQ heroism metoo movement heroism racism sustainability and women s suffrage heroes and humanities

**Meant to Live** Nancy Hicks, 2019-06-04 *Meant to Live* unpacks how Christians can live in the power and glory of the Gospel, the Good News of Jesus Christ, and celebrate God's glory in themselves, the Church, and beyond. Inspirational communicator Nancy Hicks describes four camps of Christians who wallow in the bad news of our fallenness while disgruntled Christians and non-Christians alike are watching and thinking, "If that's what it means to be a Christian, no thanks." Frankly, these versions of the Gospel aren't good. So those watching are left wondering, "How are we to live?" *Meant to Live* offers a vision of humanity's calling and a way to live a genuine life gloriously into the Good News. Nancy combines personal stories with biblical wisdom and offers a revisit of the Gospel. She offers a fresh view on humanity's glory as seen in the Gospel and an honest diagnosis of the four main camps often found in the Church. Nancy also helps readers identify an honest assessment of self. *Meant to Live* is a practical guide to living in light of the Gospel and is an inspired and energized focus on the core calling in Christians' lives.

*Head and Heart Management* A. Furnham, 2007-11-06 Good managers understand the human condition and human needs. They realise that frequently the heart rules the head and they know what this can mean for an organization. With nearly 100 thought pieces on the world of management and sales, this book explores how the heart can rule the head and is ideal for dipping into on numerous occasions.

[A Concise History of Australia](#) Stuart Macintyre, 2015-10-09 Australia is the last continent to be settled by Europeans, but it also sustains a people and a culture tens of thousands of years old. For much of the past 225 years, the newcomers have sought to replace the old with the new. This book tells how they imposed themselves on the land and describes how they brought technology, institutions, and ideas to make it their own. The fourth edition incorporates the far-reaching effects of an export and investment boom in the early years of the twenty-first century that lifted Australia to unprecedented prosperity. The sale of minerals and energy enabled the economy to withstand the global financial crisis of 2007-08, but there was no agreement on how the wealth was to be managed and its benefits distributed. The book describes a continuing search for solutions to climate change, the unauthorised arrival of refugees, Indigenous disadvantage, and generational change.

*Be Bold!* Susan Mitchell, 2004-10 Using Susan's own experiences and those of the many self-determining people she has met and interviewed over the years, she eloquently explores what happens when people receive due acknowledgment and what happens when they don't. Now more than ever in this post-September 11 world, we have a clear choice: Do we move forwards or backwards? Do we dare to have a bold vision of how we would like the world to be, or a predictable plan for retribution? As voters, we need to ask ourselves: who has the boldest vision for our future? Is it a bold vision of light and moving forward, or is it a vision of darkness and destruction and moving back to where we were before September 11, 2001?

**The Underdog Edge** Amy Showalter, 2011-08-01 A prominent consultant reveals secrets to help you influence and persuade others even when you aren't in a position of power. We all have occasions in which we want

or need to persuade someone of greater clout prestige or authority to see things our way There are books that show how to effect change from a leadership position or how to work with peers within your own organization but what can you do when you need to exert upward influence with decision makers who can help you achieve your goals In this book a popular speaker and successful consultant with expertise in grassroots efforts shows which tactics are most successful when you re the underdog She also shares real world stories of everyday people who have achieved persuasion success in politics and business with someone up the food chain the peer reviewed science behind their success as well as insights from those whose minds they changed

**Fairness and Freedom** David Hackett Fischer, 2012-02-10 Fairness and Freedom compares the history of two open societies New Zealand and the United States with much in common Both have democratic polities mixed enterprise economies individuated societies pluralist cultures and a deep concern for human rights and the rule of law But all of these elements take different forms because constellations of value are far apart The dream of living free is America s Polaris fairness and natural justice are New Zealand s Southern Cross Fischer asks why these similar countries went different ways Both were founded by English speaking colonists but at different times and with disparate purposes They lived in the first and second British Empires which operated in very different ways Indians and Maori were important agents of change but to different ends On the American frontier and in New Zealand s Bush material possibilities and moral choices were not the same Fischer takes the same comparative approach to parallel processes of nation building and immigration women s rights and racial wrongs reform causes and conservative responses war fighting and peace making and global engagement in our own time with similar results On another level this book expands Fischer s past work on liberty and freedom It is the first book to be published on the history of fairness And it also poses new questions in the old tradition of history and moral philosophy Is it possible to be both fair and free In a vast array of evidence Fischer finds that the strengths of these great values are needed to correct their weaknesses As many societies seek to become more open never twice in the same way an understanding of our differences is the only path to peace
