Prioritizing people over cars makes streets calmer, cleaner, and safer for all.

Reallocate road space for people

Professionalization
Bicycle lanes, bus
transit lanes, etc.

Complete streets

Redesign streets so that the majority of space is dedicated to pedestrians, cyclists, and public transport.

Sustainable modes become faster, safer, and more convenient than driving.

LOW
capacity needs

Price and manage parking

On-street demand-based pricing
Off-street parking maximums
Commercial parking fees

Price on-street parking and reduce off-street parking supply.

Parking, priced to reflect its true cost, becomes less desirable compared to walking, cycling, or public transport.

Revenues cover program operations and fund sustainable transport improvements.

MODERATE
capacity needs

Designate zones with vehicle restrictions

Low emission zones
Congestion pricing
Limited traffic zones

Restrict access or charge vehicles a fee to enter a designated zone.

Shakespeare's Stage Traffic Janet Clare, 2014-01-09 Contesting the notion of Shakespeare as originator Clare demonstrates how Shakespeare adapted imitated and borrowed from the work of others Children's Active Transportation Richard Larouche, 2018-06-15 Children's Active Transportation is a rigorous and comprehensive examination of the current research and interventions on active transportation for children and youth As the travel behaviors of these groups tend to be highly routinized and their mobility faces unique constraints such as parental restrictions mandatory school attendance and the inability to drive a motor vehicle before late adolescence this book examines the key factors that influence travel behavior among children and youth providing key insights into lessons learned from current interventions Readers will find a resource that clearly demonstrates how critical it is for children to develop strong active transportation habits that carry into adulthood Discusses the correlates that exist between children's active transportation using a social and ecological model Summarizes active transportation interventions that show what works to increase non motorized modes of travel in children Describes the factors that influence the implementation and effectiveness of interventions **Graphing Transportation** Deborah Underwood, 2009 Explains how children can use charts and graphs to organize and study data related to transportation **Climate Change and Global Energy Security** Marilyn A. Brown, Benjamin K. Sovacool, 2011-08-12 An exploration of commercially available technologies that can enhance energy security and address climate change and public policy options crucial to their adoption Tackling climate change and improving energy security are two of the twenty first century's greatest challenges In this book Marilyn Brown and Benjamin Sovacool offer detailed assessments of the most advanced commercially available technologies for strengthening global energy security mitigating the effects of climate change and enhancing resilience through adaptation and geo engineering They also evaluate the barriers to the deployment of these technologies and critically review public policy options crucial to their adoption Arguing that society has all the technologies necessary for the task Brown and Sovacool discuss an array of options available today including high efficiency transportation renewable energy carbon sequestration and demand side management They offer eight case studies from around the world that document successful approaches to reducing emissions of greenhouse gases and improving energy security These include the Danish approach to energy policy and wind power Brazil's ethanol program China's improved cookstove program and the U S Toxics Release Inventory Brown and Sovacool argue that meeting the twin challenges of climate change and energy security will allow us to provide energy maintain economic growth and preserve the natural environment without forcing tradeoffs among them **An Introduction to Sustainable Transportation** Preston L. Schiller, Jeffrey R. Kenworthy, 2010-08-12 Transportation plays a substantial role in the modern world it provides tremendous benefits to society but it also imposes significant economic social and environmental costs Sustainable transport planning requires integrating environmental social and economic factors in order to develop optimal solutions to our many pressing

issues especially carbon emissions and climate change This essential multi authored work reflects a new sustainable transportation planning paradigm It explores the concepts of sustainable development and sustainable transportation describes practical techniques for comprehensive evaluation provides tools for multi modal transport planning and presents innovative mobility management solutions to transportation problems Students of various disciplines planners policymakers and concerned citizens will find many of its provocative ideas and approaches of considerable value as they engage in the processes of understanding and changing transportation towards greater sustainability This text reflects a fundamental change in transportation decision making It focuses on accessibility rather than mobility emphasizes the need to expand the range of options and impacts considered in analysis and provides practical tools to allow planners policy makers and the general public to determine the best solution to the transportation problems facing a community The book starts by placing transportation within the broader sustainability discussion emphasising a comprehensive approach to sustainability planning and introducing the notion of regenerative transportation In sections on policymaking and planning the book examines how decisions are currently and how they should be made explaining the complex and often misunderstood area of public participation The authors explain demand management as applied to transportation and present lessons from other public arenas and areas of application especially in urban suburban areas The text takes readers through each and every mode of transport beginning with human powered modes and ending in motorized modes including marine and air transport The modes are analyzed separately and in comparison with others according to several criteria Capacity utility functionality considerations infrastructure demands resource consumption land use considerations pollution and costs In ways that non technically trained readers as well as planning students professionals can find useful the book includes guidance on how to optimize transportation systems balancing economic social and environmental objectives while creating just robust and diverse rather than one size fits all solutions The modes are grouped and compared within their respective contexts and there is vital discussion and differentiation between passenger and freight goods transport The final section develops a comprehensive summary of the previous chapters and develops arguments for sustainable transportation policymaking and integrated planning providing international examples and case studies and extracting from them general applications for integrated sustainable transportation Featuring extensive international examples and case studies textboxes graphics recommended reading and end of chapter questions the authors draw on considerable teaching and researching experience to present an essential ground breaking and authoritative text on sustainable transport

Times Square Remade Lynne B. Sagalyn, 2023-10-10 The illuminating evolution of the iconic space of Times Square What is it about Times Square that has inspired such attention for well over a century And how is it that despite its many changes of character the place has maintained a unique hold on our collective imagination In this book which comes twenty years after her widely acclaimed Times Square Roulette Lynne Sagalyn masterfully tells the story of profound urban change over decades in the symbolic

space that is New York City's Times Square Drawing on the history sociology and political economy of the place Times Square Remade examines how the public private transformation of 42nd Street at Times Square impacted the entertainment district and adjacent neighborhoods particularly Hell's Kitchen Sagalyn chronicles the earliest halcyon days of 42nd Street and Times Square as the nexus of speculation and competitive theater building as well as its darkest days as vice central and on to the years of aggressive government intervention to cleanse West 42nd Street of pornography and crime Thematically the author analyzes the three main forces that have shaped and reshaped Times Square theater real estate and pornography and explains the politics and economics of what got built and what has been restored or preserved Accompanied by nearly 160 images more than half in color Times Square Remade is a deftly woven narrative of urban transformation that will appeal as much to the general reader and New York City enthusiast as to urbanists city planners architects urban designers and policymakers

Slow Cities Paul Tranter, Rodney Tolley, 2020-06-18 *Slow Cities Conquering Our Speed Addiction* for Health and Sustainability demonstrates counterintuitively that reducing the speed of travel within cities saves time for residents and creates more sustainable liveable prosperous and healthy environments This book examines the ways individuals and societies became dependent on transport modes that required investment in speed Using research from multiple disciplinary perspectives the book demonstrates ways in which human economic and environmental health are improved with a slowing of city transport It identifies effective methods strategies and policies for decreasing the speed of motorised traffic and encouraging a modal shift to walking cycling and public transport This book also offers a holistic assessment of the impact of speed on daily behaviours and life choices and shows how a move to slow down will perhaps surprisingly increase accessibility to the city services and activities that support healthy sustainable lives and cities Includes cases from cities in North and South America Europe Asia Africa and Australasia Uses evidence based research to support arguments about the

benefits of slowing city transport Adopts a broad view of health including the health of individuals neighbourhoods and communities as well as economic health and environmental health Includes text boxes diagrams and photos illustrating the slowing of transport in cities throughout the world and a list of references including both academic sources and valuable websites

City of Well-being Hugh Barton, 2016-11-10 City of Well being provides a radical and holistic introduction to the science and art of town planning It starts from the premise that the purpose of planning is the health well being and sustainable quality of life of people It offers inspiration information and an integrated perspective which challenges all professions and decision makers that affect the urban environment *Green Pages*, 1988 Changing Lanes Joseph F.C. DiMento, Cliff Ellis, 2014-08-29 The story of the evolution of the urban freeway the competing visions that informed it and the emerging alternatives for more sustainable urban transportation Urban freeways often cut through the heart of a city destroying neighborhoods displacing residents and reconfiguring street maps These massive infrastructure projects costing billions of dollars in transportation funds have been shaped for the last half century by the ideas of highway engineers urban planners landscape architects and architects with highway engineers playing the leading role In Changing Lanes Joseph DiMento and Cliff Ellis describe the evolution of the urban freeway in the United States from its rural parkway precursors through the construction of the interstate highway system to emerging alternatives for more sustainable urban transportation DiMento and Ellis describe controversies that arose over urban freeway construction focusing on three cases Syracuse which early on embraced freeways through its center Los Angeles which rejected some routes and then built I 105 the most expensive urban road of its time and Memphis which blocked the construction of I 40 through its core Finally they consider the emerging urban highway removal movement and other innovative efforts by cities to re envision urban transportation

Children's Childhoods Berry Mayall, 2002-11 First published in 2004 Routledge is an imprint of Taylor Francis an informa company *Urban Transport Environment and Equity* Eduardo Alcantara Vasconcellos, 2014-05-01 Traditional transport planning has generated transport systems that propagate an unfair distribution of accessibility and have environmental and safety issues This book highlights the importance of social and political aspects of transport policy and provides a methodology to support this approach It emphasizes the importance of co ordinating urban transport and traffic planning and addresses the major challenge of modifying the building and use of roads The author makes suggestions for innovative and radical new measures towards an equitable and sustainable urban environment Resilient Downtowns Michael Burayidi, 2013-07-18 Resilient Downtowns provides a guide to communities in reviving and redeveloping their core districts into resilient thriving neighborhoods While the National Main Street program s four point approach of organization promotion economic restructuring and design has been standard practice for cities seeking to rejuvenate their downtowns for decades there is disquiet among downtown managers and civic leaders about the versatility of the program Resilient Downtowns provides communities with the en RICHED approach a four step process for downtown development which

focuses on residential development immigration strategies civic functionality heritage tourism and good design practice Examples from fourteen small cities across the US show how this process can revitalize downtowns in any city
