Tangantangan Trampil:

Gold Jewellery of the Indonesian Archipelago Anne Richter, Bruce W. Carpenter, 2012 Gold Jewellery of the Indonesian Archipelago features more than 500 stunning never before published examples of tribal ethnic ancient and courtly body ornaments from Indonesia's outer islands Sumatra Borneo Sulawesi the Lesser Sunda Islands and Maluku Written by Anne Richter author of Arts and Crafts of Indonesia and Jewelry of Southeast Asia and Bruce Carpenter acknowledged expert with more than 20 years of experience in the field of Indonesian art history and culture and more than 16 books to his name this volume provides a compelling introduction to the little known visual power and beauty of Indonesian jewellery Illustrated with archival artwork and maps as well as photos of carefully selected rare ornamental adornments this book also traces the historical origins of Indonesia's remarkably diverse culture and peoples Indonesian Houses R. Schefold, Peter J.M. Nas, 2008-01-01 This collection aims to attract attention to the admirable achievements of indigenous builders in Indonesia and to contribute to a broader sense of commitment to the endangered architectural heritage in the region It presents the second part of the results of a research project on vernacular architecture in western Indonesia sponsored by the Royal Netherlands Academy of Sciences The volume is intended to provide an introduction to all relevant vernacular architectural traditions and developments in western Indonesia The 21 contributions all written by researchers with long first hand experience in the area they are dealing with are arranged according to the location of the ethnic groups from west to east from Aceh to Western Java Each contributor was asked to enrich the architectural description with a self chosen particular topic illustrating social ideological and environmental peculiarities of the field situation The book takes account of the rich diversity of the various contexts and artistic elaborations that developed in the region The first collection of essays Indonesian houses Volume 1 Tradition and transformation in vernacular architecture was published as nr 207 of the Verhandeligen van het Koninklijk Instituut voor Taal Land en Volkenkunde Leiden 2003 It focussed on case studies demonstrating how a common architectural heritage has been affected by historical changes giving shape to a multiplicity of local developments and adaptations both in their material aspects and in their functions as objects of social value and meaning *Indonesian Houses*, 2022-06-20 The traditional houses and settlements of the several hundred ethnic groups of Indonesia are extremely varied and all have their own unique history Underlying this rich diversity are fundamental similarities rooted in the ancient heritage that is shared by all the peoples in the Indonesian field of study The multiplicity of ways in which this heritage is given shape in each local situation bears witness to an amazing creativity in adapting to regional circumstances and social changes Inter ethnic comparison of the architectural structures is a way to arrive at a better understanding of both the shared traditions and the diverging developments In many cases the variety of house forms will reflect successful attempts at one group's making distinct its buildings from those of neighbouring groups in an ongoing ethnic process of what could be called mutual contrasting although sometimes by means of pseudo traditions

which have little to do with indigenous customs of the past The contributions to this volume are grouped in four sections The first consists of essays describing approaches to the transformation and variation of houses The second set presents applications of these approaches in case studies of specific Sumatran cultures The third group widens the perspective through the inclusion of a number of cultures from outside Sumatra namely from Flores Sulawesi Kalimantan Palu and Roti The final set deals not so much with houses as with settlements In their pursuit of the cultural dimension of houses the contributions focus on villages and towns exploring their cosmological and symbolic organization

Asian Material Culture Marianne Hulsbosch, Elizabeth Bedford, Martha Chaiklin, 2009 This richly illustrated volume offers the reader unique insight into the materiality of Asian cultures and the ways in which objects and practices can simultaneously embody and exhibit aesthetic and functional characteristics as well as everyday and spiritual aspirations Though each chapter is representative rather than exhaustive in its portrayal of Asian material culture together they clearly demonstrate that objects are entities that resonate with discourses of human relationships personal and group identity formations ethics values trade and above all distinctive futures

Politics of Dress in Asia and the Americas Mina Roces, 2010-01-20 Explores the ways in which dress has been influential in the political agendas and self representations of politicians in a variety of regimes from democratic to authoritarian Arguing that dress is part of politics this book shows how dress has been crucial to the constructions of nationhood and national identities in Asia and the Americas

The Flaming Womb Barbara Watson Andaya, 2006-01-01 The Princess of the Flaming Womb the Javanese legend that introduces this pioneering study symbolizes the many ambiguities attached to femaleness in Southeast Asian societies Yet despite these ambiguities the relatively egalitarian nature of male female relations in Southeast Asia is central to arguments claiming a coherent identity for the region This challenging work by senior scholar Barbara Watson Andaya considers such contradictions while offering a thought provoking view of Southeast Asian history that focuses on women s roles and perceptions Andaya explores the broad themes of the early modern era 1500 1800 the introduction of new religions major economic shifts changing patterns of state control the impact of elite lifestyles and behaviors drawing on an extraordinary range of sources and citing numerous examples from Thai Vietnamese Burmese Philippine and Malay societies

Mapping the Acehnese Past R. Michael Feener, Patrick Daly, Anthony Reed, 2011-01-01 Aceh has become best known in our times for its twin disasters the worst earthquake and tsunami of modern times in December 2004 and a long running separatist conflict that rent Indonesia for most of its independent history Although this book emerged from the process of recovery from those traumas it turns the spotlight on a more positive and neglected claim Aceh has on our attention as the Southeast Asian maritime state that most successfully and creatively maintained its independent place in the world until 1874 Like Burma Siam and Vietnam all better protected by geography Aceh has its own story to tell of a unique culture struggling for survival through the European colonial era Unfortunately the sources for this story are scattered since Aceh s own records have not well survived the

ravages of climate civil war and eventual foreign conquest To recover its cosmopolitan history an unparalleled range of sources and skills had to be brought together Aceh s central role in the creation of Malay literature out of Arabic Persian Indian and Indonesian elements had to be explored with reference to texts surviving in a dozen world libraries Teuku Iskandar Amirul Hadi The rich archeological record neglected through the long years of conflict had again to be brought into play Daniel Perret and the extensive relations of the Aceh sultanate with the Ottoman Empire Ismail G ksoy and Ismail Kad Andrew Peacock Annabel Gallop Portugal Jorge Alves England Annabel Gallop and the Netherlands Sher Banu and Jean Taylor had to be explored chiefly in European archives by experts in these respective fields The result of this combined work in this volume is the most comprehensive picture so far of sources for the history of Aceh *Antologi Puisi Negri Di Atas Awan* Hartini.
