Tangled Memories:

Tangled Memories Marita Sturken, 1997-02-28 On American cultural memory **Zapruder** Øyvind Vågnes, 2012-08-24 Winner Peter C Rollins Book Award 2012 As the fiftieth anniversary of the Kennedy assassination approaches the traumatic aspects of the tragedy continue to haunt our perceptions of the 1960s One reason for this lies in the home movie of the incident filmed by Abraham Zapruder a bystander who became one of the twentieth century's most important accidental documentarians The first book devoted exclusively to the topic Zapruder traces the journey of the film and its effect on the world's collective imagination Providing insightful perspective as an observer of American culture Norwegian media studies scholar Øyvind Vågnes begins by analyzing three narratives that are projections of Zapruder's images performance group Ant Farm's video *The Eternal Frame* Don DeLillo's novel *Underworld* and an episode from *Seinfeld* Subsequent topics he investigates include Dealey Plaza's Sixth Floor Museum Zoran Naskovski's installation *Death in Dallas* assassin video games and other artifacts of the ways in which the footage has made a lasting impact on popular culture and the historical imagination Vågnes also explores the role of other accidental documentarians such as those who captured scenes of 9/11 Zapruder's footage has never yielded a conclusive account of what happened in Dealey Plaza Zapruder thoroughly examines both this historical enigma and its indelible afterimages in our collective imagination Postmemories of Terror S. Kaiser, 2005-12-10 *Postmemories of Terror* focuses on how young Argentineans remember the traumatic events of the military dictatorship 1976-83 This fascinating work is based on oral histories with sixty-three young people who were too young to be directly victimized or politically active during this period All were born during or after the terror and possessed an entirely mediated knowledge of it Susana Kaiser explores how the post-dictatorship generation was reconstructing this past from three main sources inter-generational dialogue education and the communication media These conversations discuss selected and recurrent themes like societal fears and silences remembering and forgetting historical explanations and accountability Together they contribute to our understanding of how communities deal with the legacy of terror Imprints John N. Low, 2016-02-01 The Pokagon Band of Potawatomi Indians has been a part of Chicago since its founding In very public expressions of indigeneity they have refused to hide in plain sight or assimilate Instead throughout the city's history the Pokagon Potawatomi Indians have openly and aggressively expressed their refusal to be marginalized or forgotten and in doing so they have contributed to the fabric and history of the city *Imprints: The Pokagon Band of Potawatomi Indians and the City of Chicago* examines the ways some Pokagon Potawatomi tribal members have maintained a distinct Native identity their rejection of assimilation into the mainstream and their desire for inclusion in the larger contemporary society without forfeiting their Indianness Mindful that contact is never a one-way street Low also examines the ways in which experiences in Chicago have influenced the Pokagon Potawatomi *Imprints* continues the recent scholarship on the urban Indian experience before as well as after World War II *Right to Mourn* Suhi Choi, 2019-09-26 Through the

lens of Korean War memorials Right to Mourn looks at how long suppressed memories become public and asks how a physical monument can possibly communicate trauma and facilitate mourning

Reclaiming 42: Public Memory and the Reframing of Jackie Robinson's Radical Legacy David Naze, 2019-06-01 Reclaiming 42 centers on one of America's most respected cultural icons Jackie Robinson and the forgotten aspects of his cultural legacy Since his retirement in 1956 and more strongly in the last twenty years America has primarily remembered Robinson's legacy in an oversimplified way as the pioneering first black baseball player to integrate the Major Leagues The mainstream commemorative discourse regarding Robinson's career has been created and directed largely by Major League Baseball MLB which sanitized and oversimplified his legacy into narratives of racial reconciliation that celebrate his integrity character and courage while excluding other aspects of his life such as his controversial political activity his public clashes with other prominent members of the black community and his criticism of MLB MLB's commemoration of Robinson reflects a professional sport that is inclusive racially and culturally tolerant and largely postracial Yet Robinson's identity and therefore his memory has been relegated to the boundaries of a baseball diamond and to the context of a sport and it is within this oversimplified legacy that history has failed him The dominant version of Robinson's legacy ignores his political voice during and after his baseball career and pays little attention to the repercussions that his integration had on many factions within the black community Reclaiming 42 illuminates how public memory of Robinson has undergone changes over the last sixty plus years and moves his story beyond Robinson the baseball player opening a new broader interpretation of an otherwise seemingly convenient narrative to show how Robinson's legacy ultimately should both challenge and inspire public memory

Interrogating Trauma Mick Broderick, Antonio Traverso, 2013-09-27 Throughout the past century traumatic experiences have been re-enacted frequently by evolving media and art forms Now there is a significant body of theory across academic disciplines focused on the representation of cataclysmic European and US historical events However less critical attention has been devoted to the representation of havoc outside the West even though depictions of Third World disasters saturate contemporary media and art around the globe This book considers traumatic histories internationally in a broad range of creative arts and visual media representations Deploying diverse applications of the conventional theories of trauma it examines the theoretical limitations at the same time as considering alternative methodologies Interrogating Trauma is concerned with the examination of the concept of trauma and how it is often unproblematically used to theorise the cultural representation of disaster and atrocity It offers a theorisation of trauma in order to reappraise the relationship between cultural representation and the socio-historical processes which are marked by violence conflict and suffering This book was published as a special issue of Continuum Journal of Media and Cultural Studies

Resounding Pasts Drago Momcilovic, 2020-05-15 The field of memory studies has long been preoccupied with the manner in which events from the past are commemorated forgotten re-fashioned or worked through on both the individual and collective level Yet in an age when various modes of artistic and

cultural commemoration have begun to overlap with and respond to one another the dynamics of cultural remembering and forgetting become bound up in an increasingly elaborate network of representations that operate both within and outside temporal cultural and national borders As publicly circulating texts that straddle the line between cultural artifact and artistic object both musical and literary works both individually and often in conjunction with one another help shape cultural memories and individual experiences of those events Troping their cultural milieux through specific aesthetic and social forms genres and modes of dissemination music and literature become part of a growing global panoply of raw materials upon which we might begin to pose questions regarding the way we remember the consequences of sharing and passing on those memories and the aesthetic and cultural pressures attendant upon the circulation and interpretation of texts that resound the past **Tourists of History** Marita Sturken,2007-11-01 Study of how the memorials created in Oklahoma City and at the World Trade Center site raise questions about the relationship between cultural memory and consumerism

and invoking and interrogating authority in both literary and scholarly writing However film studies has yet to seriously examine how moving images can quote one another convening interaction and creating new knowledge across time Classical Projections offers film quotation as a new concept for understanding how preexisting moving image fragments are reframed and re viewed within subsequent films As a visual corollary to literary quotation film quotations embed film fragments in on screen movie screens Though film quotations have appeared since silent cinema Classical Projections focuses on quotations of classical Hollywood film mainstream American studio production 1915 1950 as quoted in post classical Hollywood roughly 1960 to present This strategic historical frame asks how does post classical cinema visualize its awareness of coming after a classical or golden age How do post classical filmmakers claim or disavow classical history How do historically disenfranchised post classical filmmakers whether by gender sexuality or race grapple with exclusionary and stereotype ridden canons As a constitutive element of post classical authorship film quotations amass and manufacture classical Hollywood in retrospective highly strategic ways By revealing how quotational tellings of film history build and embolden exclusionary myopic canons Classical Projections uncovers opportunities to construct more capacious cultural memory

A History of Evil in Popular Culture Sharon Packer MD, Jody Pennington, 2014-07-15 Evil isn't simply an abstract theological or philosophical talking point. In our society the idea of evil feeds entertainment; manifests in all sorts of media and is a root concept in our collective psyche. This accessible and appealing book examines what evil means to us. Evil has been with us since the Garden of Eden when Eve unleashed evil by biting the apple. Outside of theology evil remains a highly relevant concept in contemporary times. Evil villains in films and literature make these stories entertaining. Our criminal justice system decides the fate of convicted criminals based on the determination of their status as evil or insane. This book examines the many manifestations of evil in modern media making it clear how this idea pervades nearly all aspects of life and helping us to reconsider some of the notions about evil that pop culture perpetuates and promotes. Covering screen media such as film, television and video games; print media that include novels and poetry; visual media like art and comics; music and political polemics, the essays in this book address an eclectic range of topics. The diverse authors include Americans who left the United States during the Vietnam War era; conservative Christian political pundits; rock musicians; classical linguists; Disney fans; scholars of American slavery and experts on Holocaust literature and films. From portrayals of evil in the television shows *The Wire* and *24* to the violent lyrics of the rap duo Insane Clown Posse to the storylines of the *Lord of the Rings* and *Harry Potter* books, readers will find themselves rethinking what evil is and how they came to hold their beliefs.
