Tangu Traditions Kenelm Burridge,1969      *Tangu Traditions* Kenelm Oswald Lancelot Burridge,1959      Tangu Traditions Kenelm Burridge,1969      *The Anthropology of Morality in Melanesia and Beyond* John Barker,2016-04-01 The Anthropology of Morality in Melanesia and Beyond examines how Melanesians experience and deal with moral dilemmas and challenges Taking Kenelm Burridge s seminal work as their starting point the contributors focus upon public situations and types of people that exemplify key ethical contradictions for members of moral communities While returning to some classical concerns such as the roles of big men and sorcerers the book opens new territory with richly textured ethnographic studies and theoretical reviews that explore the interface between the values associated with indigenous village life and the ethical orientations associated with Christianity the state the marketplace and other facets of modernity A major contribution to the emerging field of the anthropology of morality the volume includes some of the most prominent scholars working in the discipline today including Bruce Knauft Joel Robbins F G Bailey Deborah Gewertz and Frederick Errington      **Myth in old testament interpretation** J. W. Rogerson,2018-11-05 No detailed description available for Myth in old testament interpretation      **South Pacific Oral Traditions** Ruth H. Finnegan,Margaret Orbell,1995 Exploring the oral traditions of the South Pacific this work demonstrates that oral media and native cultural forms are vital throughout the South Pacific It appeals to scholars concerned with the relationships between verbal art social change gender power and social organization      Island Queens and Mission Wives Jennifer Thigpen,2014 Kamehameha s kingdom Soldiers and angels for God When worlds collide Gendered diplomacy Hawaiian heroines      *Essays on the Sociology of Perception* Mary Douglas,2013-10-16 First published in 1982 this is one of Mary Douglas favourite books It is based on her meetings with friends in which they attempt to apply the grip group analysis from Natural Symbols The essays have been important texts for preparing grid group exercises ever since She is still trying to improve the argument of Natural Symbols and is always hoping to find better applications to illustrate the power of the two dimensions used for accurate comparison      *Micronesia, Polynesia, and Australasia* Helen M. Williams,1971      **Rationality and Relativism** I.C. Jarvie,2015-07-03 Anthropology revolves round answers to problems about the nature development and unity of mankind problems that are both philosophical and scientific In this book first published in 1984 Professor Jarvie applies Popper s philosophy of science to understanding the history and theory of anthropology Jarvie describes how the ancient view that the aim of science and philosophy was to get at the truth is challenged in anthropology by the doctrine of cultural relativism that is that truth varies with the cultural framework He shows how philosophers as various as Peter Winch W V O Quine W T Jones Nelson Goodman and Richard Rorty were influenced by this doctrine Yet these philosophers also accept the value of rational argument Jarvie believes that there is a contradiction between relativism and any notion of human rationality that centres around argument Forced by the contradiction to choose between rationality and relativism he argues strongly that logical scientific and moral considerations

favour rationality and urge repudiation of relativism The central argument of the book is that relativism is intellectually disastrous and has fostered intellectual attitudes from which anthropology still suffers

**The Scope of Anthropology** Laurent Dousset, Serge Tcherkézoff, 2012-04-01 Some of the most prominent social and cultural anthropologists have come together in this volume to discuss Maurice Godelier's work They explore and revisit some of the highly complex practices and structures social scientists encounter in their fieldwork From the nature culture debate to the fabrication of hereditary political systems from transforming gender relations to the problems of the Christianization of indigenous peoples these chapters demonstrate both the diversity of anthropological topics and the opportunity for constructive dialogue around shared methodological and theoretical models

**Readings in the Theory of Religion** Scott S. Elliott, Matthew Wagoner, 2016-06-16 Readings in the Theory of Religion brings together classic and contemporary texts to promote new ways of thinking about religion The texts reflect the diverse methods used in the study of religion text and textuality ritual the body gender and sexuality religion and race religion and colonialism and methodological and theoretical issues in the study of religion Readings in the Theory of Religion is an indispensable introduction to theoretical and interdisciplinary approaches in religious studies and provides the student with all the tools needed to understand this fascinating and wide ranging field

**Cargo, Cult, and Culture Critique** Holger Jebens, 2004-09-30 Cargo cults have long exerted a remarkable attraction on Westerners and the last decade has seen the publication of much new work on the subject This collection of original essays is based on fieldwork in Melanesia Fiji Australia and Indonesia by scholars who are influential in the contemporary debate on cargo Conceived as a reader for undergraduate and graduate courses the volume offers an up to date view of the subject and the debates it arouses among contemporary anthropologists Some contributors plead for the abolition of cargo because of its troublesome implications but also because in the authors view cargo cults do not exist as identifiable objects of study Others argue that it is precisely this troublesome nature that makes the term a useful analytical tool that should be welcomed rather than rejected By delineating and substantiating key issues and positions in this lively and ongoing debate this volume underscores and refines the contemporary reevaluation of cargo cults Scholars of the Pacific region and others interested in new religious movements should find this volume both enlightening and compelling Contributors Nils Bubandt Vincent Crapanzano Douglas M Dalton Elfriede Hermann Holger Jebens Martha Kaplan Karl Heinz Kohl Stephen C Leavitt Lamont Lindstrom Ton Otto Joel Robbins Jaap Timmer Robert Tonkinson

**Religious Consciousness and Experience** Thomas N. Munson, 2012-12-06 It is one of the ironies of our times that as the practise of religion wanes a theoretical interest in it on the part of many anthropologists psychologists sociologists and philosophers waxes Among these only philosophers bring to their task a long history of theological and religious relations Hence their renewed interest has been hailed as a break down of isolationism heralding perhaps a new era of interdisciplinary peace To celebrate this new ecumenism a Chicago seminary consistently with its purpose sponsored a colloquium to explore the future of philosophical theology If some of its participating professional philosophers initially felt a twinge of embarrassment over their presence at an ostensibly theological meeting they soon were at ease No one was called upon to define the topic or even to suggest its relationship to a philosophy of religion Conveniently everyone could roll up his sleeves and get to work on a job he personally felt needed doing Can we wonder that the lay observer appeared somewhat confused Was the purpose to analyze God talk or to find a place for God in a metaphysical scheme Or if not these something else It soon became evident that the participants in the colloquium ranged from the free swinger to the severely inhibited depending upon the role each assigned to dogma and creed
