Tao of Soldiering Nihar Kuanr,2020-03-30 Soldiering is all about the growth and development of human potential in the military organization The approach to soldiering in China is apparently distinct as compared to Indian or Western military and the shaping of soldiery in China has taken a very unique and somewhat enigmatic course In the context of PLA in the ongoing reform era a clear shift in the approach to HRM is apparent One of the most important objectives of the ongoing reforms and restructuring of PLA is to appreciably augment its potential and efficiency for the effective prosecution of Integrated Joint operations IJO for winning Local Wars under Informationised

Condition LWUIC This book attempt has been made to take a holistic look at soldiering and development of human potential in PLA thus progressing understanding in the broadly interpreted field of HRM in the context of the Chinese military The author argues that PLA has been adopting a very systematic methodical and focussed approach towards identifying the key issues and addressing them in a time bound manner to enhance the quality of its personnel to include the enlisted personnel NCOs officers and higher leadership However success or failure of HR policies depends as much on several tangible factors educational qualification technological prowess economic and social background as on various intangible aspects influence of culture belief system traditional practices political and ideological factors impinging on the morale motivation and value system The book would enable interested readers to comprehend and grasp the nuances of the development of human potential in the military in general and PLA in specific Various HRD themes like organizational culture leadership efficient decision making etc analyzed in the book can find application in general context as well The Essence Of War Ralph D. Sawyer,2009-04-29 From antiquity the history of China has been marked by invading tribes warring states and popular uprisings This heritage of conflict produced a body of martial literature exploring the fundamental principles of warfare and their methods of employment Fully aware of the tragic consequences of battle the authors of these texts emphasized that bloodshed and war should be avoided whenever possible But they argued this is possible only when the principles of leadership and strategy have been mastered and the dynamics of conflict thoroughly analyzed Over the centuries these texts have been studied throughout Asia not only by generals on the battlefield but by leaders of all kinds concerned with the management of human conflict in all its forms The Essence of War presents eight of these classics written from 500 B C E to 700 C E including Sun tzu s Art of War and Sun Pin s Military Methods The book introduces the core principles of Chinese military science grouping selected passages and key quotations into five thematic sections encompassing forty one topical chapters Fundamentals Tao of Warfare Tao of Command Tactical Essentials and Tactical Specifics Translator Ralph D Sawyer provides here a concise introduction to Chinese military thought and influential materials not only of traditional import but also for contemporary study and enduring value in both business and military circles throughout the world **The Tao of Deception** Ralph D.
