John Lagerwey, 2010-12-01 Over the last 40 years our vision of Chinese culture and history has been transformed by the discovery of the role of religion in Chinese state making and in local society The Daoist religion in particular long despised as superstitious has recovered its place as the native higher religion But while the Chinese state tried from the fifth century on to construct an orthodoxy based on Confucianism Daoism and Buddhism local society everywhere carved out for itself its own geomantically defined space and organized itself around local festivals in honor of gods of its own choosing gods who were often invented and then represented by illiterate mediums Looking at China from the point of view of elite or popular culture therefore produces very different results John Lagerwey has done extensive fieldwork on local society and its festivals This book represents a first attempt to use this new research to integrate top down and bottom up views of Chinese society culture and history It should be of interest to a wide range of China specialists students of religion and popular culture as well as participants in the ongoing interdisciplinary dialogue between historians and anthropologists John Lagerwey is professor of Daoist history at the cole Pratique des Hautes études and of Chinese studies at the Chinese University of Hong Kong He is author of Taoist Ritual in Chinese Society and History and editor of the 30 volume Traditional Hakka Society Series as well as the recently published four volume set Early Chinese Religion Religion and Society in T'ang and Sung China Patricia Buckley Ebrey, Peter N. Gregory, 1993-08-01 The T'ang 618-907 and Sung 960-1279 dynasties were times of great change in China The economy flourished the population doubled printing led to a great increase in the availability of books Buddhism became a fully sinicized religion penetrating deeply into ordinary life This volume represents a collaborative effort of nine scholars of Chinese religion history and thought to begin addressing the question of how changes in the religions of the Chinese people were implicated in the momentous social and cultural changes of this period Daoism in

Religion and Religious Practices in Rural China Mu Peng, 2019-11-13 This book explores how unlike in the West the daily religious life of most Chinese people spreads without institutional propagation Based upon more than a decade of field research in rural China the book demonstrates the decisive role of rites of passage and yearly festival rituals held in every household in shaping people's religious dispositions It focuses on the family the unit most central to Chinese culture and society and reveals the repertoire embodied in daily life in a world envisioned as comprising both the yin world of ancestors spirits and ghosts and the yang world of the living It discusses especially the concept of bai which refers to both concrete bodily movements that express respect and awe such as bowing kneeling or holding up ritual offerings and to people's religious inclinations and dispositions which indicate that they are aware of a spiritual realm that is separate from yet close to the world of the living Overall the book shows that the daily practices of religion are not a separate sphere but rather belief and ritual integrated into a way of dwelling in a world envisaged as consisting of both the yin and the yang worlds that regularly communicate with each other

The Paradox of Being Poul Andersen,2021-03-01 The question of truth has never been more urgent than today when the distortion of facts and the imposition of pseudo realities in the service of the powerful have become the order of the day In The Paradox of Being Poul Andersen addresses the concept of truth in Chinese Daoist philosophy and ritual His approach is unapologetically universalist and the book may be read as a call for a new way of studying Chinese culture one that does not shy away from approaching the other in terms of an engagement with our own philosophical heritage The basic Chinese word for truth is zhen which means both true and real and it bypasses the separation of the two ideas insisted on in much of the Western philosophical tradition Through wide ranging research into Daoist ritual both in history and as it survives in the present day Andersen shows that the concept of true reality that informs this tradition posits being as a paradox anchored in the inexistent Way
