Greene,2017-05-05 An invaluable resource for readers interested in architecture and design that demonstrates how the construction form and function of key structures in the 19th century influenced American social political economic and intellectual life America has always been a nation of thinkers believers creators and builders Evidence of this is plentiful among the landmarks constructed in the 19th century Buildings and Landmarks of 19th Century America American Society Revealed examines many examples that include homes office buildings recreational spaces military sites religious buildings

and other landmarks in a variety of geographical locations discussing the background architecture and cultural significance of each. Each engaging accessible entry not only provides readers detailed information about how the landmark relates to what was going on in American society at the time of its construction but also sparks the reader's interest to research the subject further. As examples consider that a rural cemetery built in Massachusetts in the early 19th century was the prime influence on public park design and led to the construction of New York's Central Park and many other public parks since. The millionaire industrialist and philanthropist Andrew Carnegie built many of the first free public libraries in the country which led to the development of municipal public library systems. The huge success of 19th century world's fairs like the 1876 Centennial Exhibition and the 1893 World's Columbian Exhibition had lasting effects on society through the many new products that they introduced to the public. Throughout the book landmarks are analyzed to elucidate their influence on many aspects of 19th century society including the treatment of the mentally ill, impact of religious revivals, growth of leisure and vacation time and housing for the poor and the western homesteader among many others. In the *How to Evaluate Buildings and Structures* section readers are prompted to consider questions such as: What specific purposes did the building or structure have? When was it constructed and what were the circumstances? What was the need it addressed? Students will learn about the period while also developing the skills of observation and assessment needed to analyze these landmarks and draw meaningful conclusions from them about their context and significance. The discussion of each landmark serves to help readers with these elements of critical thinking assessment and analysis.

New Mexico Historical Review Lansing Bartlett Bloom, Paul A. F. Walter, 2013 [Sleeping with Literary Lions](#) Peggy Van Hulsteyn, 1997 TRAV Van Hulsteyn a travel editor for *Mademoiselle* entertainingly describes literary homes, haunts, museums and any available bed and breakfasts in or near them. She has organized her work by state though only 35 of the 50 are included with California having the most entries. Sometimes she lists only a site and no accommodations. To be included an author has to be deceased and be one that Van Hulsteyn enjoys reading. Poe appears five times, Twain seven and Van Hulsteyn says she had to look hard to find the 12 women writers she added in. Location entries include whom to contact, hours of operation, entrance fees and so on and what one will find there. The bed and breakfast entries give room rate ranges, number of rooms and bathrooms, wheelchair accessibility and the like. The descriptions are delightful information filled, positively critical and free of any apparent bias.

America's Historic Sites Editors of Salem Press, 2001. Salem Press introduces a unique perspective on American Studies that enlivens study and research by placing students at the sites where important events occurred. Site entries cover historic towns and districts, monuments to events and people and the birthplaces and homes of noteworthy individuals in politics, the military, science, education and the arts.
