Gurian,2021-09-30 This book reframes the study of multicide that is serial and mass murder to use objective measures and aims to expand our understanding of multicide offending through descriptive and inferential statistical analyses of different homicide patterns of the offenders Criminal homicide and multiple murders are rare occurrences that typically account for a very small percentage of all violent crimes in most countries Despite this low occurrence homicide continues to be an area of intense study with a focus on subjective measures and classifications The research and analysis based on a database of over 1 300 cases contributes to the criminological study of violence and draws distinctions between the types of offenders partnered and solo serial and mass male and female etc from a range of different countries and across decades Traditionally studies of homicide focus on male offenders and theories of offending are then applied to females and co offenders The research presented in this book reveals that women and partnered offenders have very different homicide patterns from men Looking at the history of multicide offending this book uses descriptive and inferential statistical analyses to directly compare differences in offending and outcome patterns across multicide offender types This exploration of the multidimensionality of homicide at an international level is useful for scholars and students interested in criminal justice criminology psychology sociology or law      **Laws Relating to Sex, Pregnancy, and Infancy** Carmen M. Resolving the Gamer's Dilemma Garry Young, 2016-11-15 This book explores the gamer's dilemma which lies at the heart of theorising about the morality of certain video game content. The dilemma is as follows: given that gaming content involves virtual characters within a virtual environment, the moral permission of virtual murder would also appear to morally permit virtual paedophilia. Yet most gamers and members of wider society would not want to play, endorse or find in any way morally acceptable the enactment of virtual paedophilia within a video game. Yet by accepting the moral permissibility of virtual murder, they leave themselves vulnerable to having to accept the moral permissibility of virtual paedophilia. This book provides an incredibly thorough and systematic analysis and evaluation of the gamer's dilemma by considering the origins of the intuitions around the dilemma and exploring whether they find support from traditional or contemporary moral theory and psychological research. The book will be of great interest to academics and students of philosophy and psychology as well as members of the wider public interested in video game violence and taboo enactments more generally. **Criminal Law**

David C. Brody, James R. Acker, 2009-08-10 **Targeted: "If I Die, This Program Killed Me!" (Mind Control Technology Book Series) Book 7 of 7** Renee Pittman, 2024-02-16 Book VII in the Mind Control Technology Book Series. Pure undeniable sinister personalities today are at the helm of brilliant advanced psychophysical technologies who are inhumanely destroying lives of men, women and children. They are devoid of compassion, believing it cannot be proven, and this mentality officially sanctioned. Neuroweapons, Nanotechnologies, the Brain Computer Interface, BCI, Artificial Intelligence, AI, join the ongoing scientific goal of Transhumanism and are all the foundation of ongoing human experimentation, generation to generation. Testing has exploded, progressing humanity towards what many consider Digital Slavery. Pittman is left no choice but to continue exposing this program while targeted by beamed assaults and high-tech terrorism in the mist of death threats to Pittman and her family, combined with relentless efforts to tarnish her reputation. The fact is: covert campaigns to publicly discredit activists and destroy credibility and interpersonal relationships are still a common tactic used by COINTELPRO agents. Make no mistake about it: this morbid secret high-tech behavioral modification ongoing mind control experimentation program will kill to preserve the reality of what is monstrously happening today, and when looking at the full picture, can you blame them?
