Exiled Home Susan Bibler Coutin, 2016-04-15 In Exiled Home Susan Bibler Coutin recounts the experiences of Salvadoran children who migrated with their families to the United States during the 1980 1992 civil war Because of their youth and the violence they left behind as well as their uncertain legal status in the United States many grew up with distant memories of El Salvador and a profound sense of disjuncture in their adopted homeland Through interviews in both countries Coutin examines how they sought to understand and overcome the trauma of war and displacement through such strategies as recording community histories advocating for undocumented immigrants forging new relationships with the Salvadoran state and for those deported from the United States reconstructing their lives in El Salvador In focusing on the case of Salvadoran youth Coutin s nuanced analysis shows how the violence associated with migration can be countered through practices that recuperate historical memory while also reclaiming national membership

Protesting Citizenship: Migrant Activisms Imogen Tyler, 2017-07-05 What does it mean to state No One is Illegal This rallying call is what unifies migrant protests against exclusionary border regimes around the world bringing migrants citizens legal and illegal people onto the streets in ever greater numbers Indeed the last decade has witnessed an explosion of immigrant protests political mobilizations by irregular migrants and pro migrant activists This edited collection aims to contribute to the growing body of scholarship on migrant resistance movements and to consider the implications of these struggles for critical understandings of citizenship and borders It offers a rich series of theoretical and political interventions which together explore the tensions between integrationist and autonomous approaches and between migrant and activist strategies of invisibility and visibility By bringing immigrant protests to the heart of debates about citizenship it also extends discussions about the limits and the

possibilities of citizenship as the material and conceptual horizon of critical social analysis political participation and democracy today This book was published as a special issue of Citizenship Studies *Migrant Communication Enterprises* Maria Sabaté-Dalmau, 2014-08-06 This unique critical sociolinguistic ethnography explores alternative migrant regulated institutions of resistance and subversive communication technology the locutorios or ethnic call shops These migrant owned businesses act as a window into their multimodal and hybrid linguistic and communicative practices and into their own linguistic hierarchies and non mainstream sociolinguistic orders Here socially displaced but technologically empowered transnational migrant populations actively find subversive ways to access information and communication technologies As such they mobilise their own resources to successfully inhabit Catalonia at the margins of powerful institutions The book also focuses on the internal social organisation dynamics as well as on the simultaneous fight against and re production of practices and processes of social difference and social inequality among migrants themselves *Turkish Origin Migrants and Their Descendants* Ayhan Kaya, 2018-07-04 This book analyses Muslim origin immigrant communities in Europe and the problematic nature of their labelling by both their home and host countries The author challenges the ways in which both sending and receiving countries encapsulate these migrants within the religiously defined closed box of Muslim and or Islam Transcending binary oppositions of East and West European and Muslim local and newcomer Kaya presents the multiple identities of Muslim origin immigrants by interrogating the third space paradigm *Turkish Origin Migrants and Their Descendants* analyses the complexity of the hyphenated identities of the Turkish origin community with their intricate religious ethnic cultural ideological and personal elements This insight into the life worlds of transnational individuals and local communities will be of interest to students and scholars of the social sciences migration studies and political science especially those concerned with Islamization of radicalism populism and Islamophobia in a European context Migrants and Race in the US Philip Kretsedemas, 2013-10-23 This book explains how migrants can be viewed as racial others not just because they are nonwhite but because they are racially alien This way of seeing makes it possible to distinguish migrants from a set of racial categories that are presumed to be indigenous to the nation In the US these indigenous racial categories are usually defined in terms of white and black Kretsedemas explores how this kind of racialization puts migrants in a quandary leading them to be simultaneously raced and situated outside of race Although the book focuses on the situation of migrants in the US it builds on theories of migrants and race that extend beyond the US and makes a point of criticizing nation centered explanations of race and racism These arguments point toward the emergence of a new field visibility that has transformed the racial meaning of nativity migration and migrant ethnicity It also situates these changing views of migrants in a broader historical perspective than prior theory explaining how they have been shaped by a changing relationship between race and territory that has been unfolding for several hundred years and which crystallizes in the late colonial era *The Muslim Question in Europe* Peter O'Brien, 2016-02-29 In this book the author argues that the vehement

controversies surrounding European Muslims are better understood as persistent unresolved intra European political tensions rather than as a clash between Islam and the West This title was made Open Access by libraries from around the world through Knowledge Unlatched Multicultural America Carlos E. Cortés,2013-08-15 This comprehensive title is among the first to extensively use newly released 2010 U S Census data to examine multiculturalism today and tomorrow in America This distinction is important considering the following NPR report by Eyder Peralta Based on the first national numbers released by the Census Bureau the AP reports that minorities account for 90 percent of the total U S growth since 2000 due to immigration and higher birth rates for Latinos According to John Logan a Brown University sociologist who has analyzed most of the census figures The futures of most metropolitan areas in the country are contingent on how attractive they are to Hispanic and Asian populations Both non Hispanic whites and blacks are getting older as a group These groups are tending to fade out he added Another demographer William H Frey with the Brookings Institution told The Washington Post that this has been a pivotal decade We re pivoting from a white black dominated American population to one that is multiracial and multicultural Multicultural America A Multimedia Encyclopedia explores this pivotal moment and its ramifications with more than 900 signed entries not just providing a compilation of specific ethnic groups and their histories but also covering the full spectrum of issues flowing from the increasingly multicultural canvas that is America today Pedagogical elements include an introduction a thematic reader s guide a chronology of multicultural milestones a glossary a resource guide to key books journals and Internet sites and an appendix of 2010 U S Census Data Finally the electronic version will be the only reference work on this topic to augment written entries with multimedia for today s students with 100 videos with transcripts from Getty Images and Video Vault the Agence France Press and Sky News as reviewed by the media librarian of the Rutgers University Libraries working in concert with the title s editors The Contested Politics of Mobility Vicki Squire,2010-11-19 Irregular migration has emerged as an issue of intensive political debate and governmental practice over recent years Critically intervening in debates around the governing of irregular migration The Contested Politics of Mobility explores the politics of mobility through what is defined as an analytic of irregularity It brings together authors who address issues of mobility and irregularity from a range of distinct perspectives to focus on the politics of control as well as the politics of migration The volume develops an account of irregularity as a produced ambivalent and contested socio political condition showing how this is activated through wide ranging borderzones that pull between migration and control Covering cases from across contemporary North America and Europe and examining a range of control mechanisms such as biometrics deportation and workplace raiding the volume refuses the term illegal to describe movements of people across borders In so doing it highlights the complexity of relations between different regions and between a politics of migration and a politics control and makes a timely intervention in the intersecting fields of critical citizenship migration and security studies This book will be of interest to students and scholars of politics international

Benjamin Gonzalez O'Brien, 2018-07-25 *Handcuffs and Chain Link* enters the immigration debate by addressing one of its most controversial aspects the criminalization both of extralegal immigration to the United States and of immigrants themselves in popular and political discourse Looking at the factors that led up to criminalization Benjamin Gonzalez O'Brien points to the alternative approach of the Immigration Reform and Control Act of 1986 and how its ultimate demise served to negatively reinforce the fictitious association of extralegal immigrants with criminality Crucial to Gonzalez O'Brien's account thus is the concept of the critical policy failure a piece of legislation that attempts a radically different approach to a major issue but has shortcomings that ultimately further entrench the approach it was designed to supplant The IRCA was just such

a piece of legislation It highlighted the contributions of the undocumented and offered amnesty to some while attempting to stem the flow of extralegal immigration by holding employers accountable for hiring the undocumented The failure of this effort at decriminalization prompted a return to criminalization with a vengeance leading to the stalemate on immigration policy that persists to this day [The Paradox of Citizenship in American Politics](#) Mehnaaz Momen,2017-08-28 This remarkable book does the unusual it embeds its focus in a larger complex operational space The migrant the refugee the citizen all emerge from that larger context The focus is not the usual detailed examination of the subject herself but that larger world of wars grabs contestations and importantly the claimers and resisters Saskia Sassen Professor of Sociology Columbia University USA This thought provoking book begins by looking at the incredible complexities of American identity and ends with the threats to civil liberties with the vast expansion of state power through technology A must read for anyone interested in the future of the promise and realities of citizenship in the modern global landscape Kevin R Johnson Dean UC Davis School of Law USA Momen focuses on the basic paradox that has long marked national identity the divide between liberal egalitarian self conception and persistent practices of exclusion and subordination The result is a thought provoking text that is sure to be of interest to scholars and students of the American experience Aziz Rana Professor of Law Cornell Law School USA This book is an exploration of American citizenship emphasizing the paradoxes that are contained normalized and strengthened by the gaps existing between proposed policies and real life practices in multiple arenas of a citizen s life The book considers the evolution of citizenship through the journey of the American nation and its identity its complexities of racial exclusion its transformations in response to domestic demands and geopolitical challenges its changing values captured in immigration policies and practices and finally its dynamics in terms of the shift in state power vis vis citizens While it aspires to analyze the meaning of citizenship in America from the multiple perspectives of history politics and policy it pays special attention to the critical junctures where rhetoric and reality clash allowing for the production of certain paradoxes that define citizenship rights and shape political discourse **Encyclopedia of Race, Ethnicity, and Society** Richard T.
