THE BOOK The story of IPA beer starts as most tales of good beer usually do in a British pub The term India Pale Ale is a bit misleading because the beer is not brewed in India but rather originates in Britain previously destined for the Indian marketplace IPA beers originated as October ales named so because they were typically brewed during that month to accompany British sailors on their trips to the East Indies The long journey proved problematic for darker beers although often preferred by the British public these beers would spoil by the end of the journey The creation of the IPA solved the challenges of traveling for months by boat through extreme temperatures IPAs in particular incorporate more hops which contribute to the bitter flowery or citrusy flavors The term hops refers to the flower of a particular vine a quintessential aspect of beer making Historically the production of IPA used hops to help stabilize beer on its journey to the Indies Hops act as a natural preservative so the beer would travel better with more hops during the days before modern refrigeration techniques IPAs eventually gained popularity in Britain and other parts of the world the American Pale Ale is a variation using American hops as brewers served the beer in pubs and consumers began to like and even prefer the flavor

EXCERPT FROM THE BOOK Try contrasting or complementing flavors For example couple a spicy pale ale with a spicy Thai or Indian dish The spice and robustness of the beer works well with the bite of the food On the flipside pick a dry bitter IPA to work with sweet fish like oysters If you are into wine think about lagers as white wine and ales as red wine The heavy hops in the IPA act like acidity in wine so an IPA might be more akin to a Zinfandel or Chianti Most IPAs have medium body so they work well in many dishes but nothing too heavy or too light In general pair lighter beers with lighter food and heavy beers with heavier food Try an IPA with rich vegetables like avocados onion or mushrooms Beef and chicken especially those with a little spice to them also fare well with IPAs At the end of the day if you enjoy a good IPA you will like it with almost any dish Buy a copy to keep reading

many positive effects as well including brightening up the atmosphere and functioning as medicines for our bodies. Depending on how much we know well about liquors they can be both beneficial and poisonous. This session is about the liquors of the world and their cultures. Wines can be largely categorized into drinks for before, during, and after meals. The aperitif wine for before meals is the beverage which marks the beginning of a meal. Aperitif means not only beginning but also welcome for guests playing the role of enhancing appetites. Therefore it is recommended to choose the aperitif wines that can elevate the mood of the party for the invited guests. We now look closer at aperitif wines. Table wine originally is a wine term referring to every wine with less than 14% of alcohol strength but can be used especially for wines enjoyed during meals. As it is intended to be enjoyed with meals, the harmony between the wine and the food is also important. The French word marriage primarily means marriage yet not only limited to the marriage of human beings but also of food. In English speaking cultures it can be expressed as food and wine pairing. Let's explore the world of table wines. Dessert in French means to finish a meal or to clean the table. As desserts are for concluding meals, people eat sweet items to calm their appetites and feel refreshed. So wines with high level of sweetness deserve to be served as dessert wines. Now let's learn more about dessert wines enjoyed after meals. Beer is one of the most popular alcohols because it is cheap, can be manufactured regardless of the season, and has low alcohol strength. Moreover, since the taste and quality is similar no matter where the beer is made, from beers can be easily enjoyed anywhere in the world. It would be the safest choice when one is uncertain what to drink while traveling around. Let's take a closer look at beers, the alcohol for everyone. The traditional liquors of the East such as China, Korea, and Japan are liquors made by saccharizing and fermenting the grains of rice, barley, sorghum, and wheat as yeasts originated from takju using the yeasts. Now we will learn more about takju and cheongju, their fermented liquors from the East. Liquors made by saccharizing, fermenting, and distilling malts are called whiskey. How did scotch whiskey, which was only a kind of normal soju with raw taste and spicy scent, become a liquor of best quality these days? This session is for whiskeys. Cognac is the name of a region located in France, but as the brandy made in that region is so famous, people began calling brandy as cognac. Now let's learn more about brandy, the liquor with a nickname of burnt wine because it is made by distilling wines. Since vodka refers to the crude liquid made through distillers without any ripening process as ordinary hard liquors, its color is transparent and is a colorless, flavorless, and scentless liquor because it is filtered using activated carbon. Thus it is not only drunk neat but also loved as the base for other cocktails and mixed drinks. This time we explore the world of vodkas, the representative liquor of Russia that ranks world's first in consumption. Liqueur refers to the liquor designed to be easily enjoyed by distilling wine and adding ingredients such as fruits and herbs along with sweets such as sugar and honey. The ingredients and the flavor of liqueur accelerate the digestion process, thus perfect to be drunk after meals or before sleeping. Let's learn more about liqueur, the sweet alcohol. Chinese people have loved alcohol since the ancient times, presenting numerous kinds of famous liquors in China. Among them, baijiu, the representative hard liquor of

China is remembered as the beverage which supported the morales during the Long March in the 1930s of the Chinese communist party led by Mao Zedong and Zhou Enlai and has greatly developed with modern China When whiskey brandy and vodka are the first generation of hard liquors there are also hard liquors which were born after the 17th century and have grown with the discovery of the New World such as gin rum and tequila These are considered as one type of hard liquors all together in Korea because their preferences are still low but they are popular liquors with independence when considered globally Let s take a closer look at gin rum and tequila
