

The Guilty Environmentalist

Essays, musings, and political fantasies,
from the Age of Electricity to the collapse of Enron

by Arthur J. O'Donnell

The Guilty Environmentalist

Benji Backer

The Guilty Environmentalist:

The Guilty Environmentalist Arthur O'Donnell, 2003 The Guilty Environmentalist is a collection of essays musings and political fantasies from award winning humorist and energy journalist Arthur O'Donnell Join the Guilty Environmentalist as he trips lightly through this exploration of the history and foibles of the electric utility industry from the very beginnings of the Age of Electricity to the aftermath of California's most recent energy crisis Selected from the best of the Bottom Lines columns carried in the nationally acclaimed California Energy Markets newsletter over the past decade The Guilty Environmentalist provides a unique and frequently hilarious perspective on a crucial industry that most people take for granted until the lights go out

The Skeptical Environmentalist Bjørn Lomborg, 2001 The Skeptical Environmentalist challenges widely held beliefs that the environmental situation is getting worse and worse The author himself a former member of Greenpeace is critical of the way in which many environmental organisations make selective and misleading use of the scientific evidence Using the best available statistical information from internationally recognised research institutes Bjørn Lomborg systematically examines a range of major environmental problems that feature prominently in headline news across the world His arguments are presented in non technical accessible language and are carefully backed up by over 2500 footnotes allowing readers to check sources for themselves Concluding that there are more reasons for optimism than pessimism Bjørn Lomborg stresses the need for clear headed prioritisation of resources to tackle real not imagined problems The Skeptical Environmentalist offers readers a non partisan stocktaking exercise that serves as a useful corrective to the more alarmist accounts favoured by campaign groups and the media

The Environmentalist's Dilemma Arno Kopecky, 2021-10-19 For readers of Ronald Wright Rebecca Solnit and Yuval Noah Harari comes a compelling inquiry into our relationship with humanity's latest and greatest calamity In The Environmentalist's Dilemma award winning journalist Arno Kopecky zeroes in on the core predicament of our times the planet may be dying but humanity's doing better than ever To acknowledge both sides of this paradox is to enter a realm of difficult decisions Should we take down the government or try to change it from the inside Is it okay to compare climate change to Hitler Is hope naive or indispensable How do you tackle collective delusion Should we still have kids And can we take them to Disneyland Inquisitive and relatable Kopecky strikes a rare note of optimistic realism as he guides us through the moral minefields of our polarized world From start to finish The Environmentalist's Dilemma returns to the central question How should we engage with the story of our times

The Conservative Environmentalist Benji Backer, 2024-04-16 A young conservative environmentalist provides an intrepid vision for both solving our climate crisis and prioritizing the American national interest Politicians pseudo experts and other partisans have led us to believe that there are only two approaches to climate change doomerism or denial Benji Backer Founder and Executive Chairman of the American Conservation Coalition argues that both are dead ends In The Conservative Environmentalist he delivers an entirely new strategy to take care of the planet while putting put the economic

interest of the American people first Backer makes the compelling case that conservative principles are the key to climate solutions that actually work In this book you ll visit the country s most diverse ecosystems and consequential manufacturing hubs from Utah coal mines and Texas oil fields to Louisiana wetlands and Rhode Island offshore wind farms witnessing the power of individual entrepreneurship and local problem solving You ll be inspired by groundbreaking efforts to strengthen earth s ecosystems that Green New Dealers and other Big Government advocates would prefer to keep hidden like partnerships between oil and gas companies and environmental nonprofits to preserve thousands of acres of wetlands Drawing on cutting edge science a deep understanding of local community needs and his experience rallying politicians on both sides of the aisle to take action Backer offers hope for everyone who cares about the state of the great outdoors Fascinating clear headed and full of surprises *The Conservative Environmentalist* is the fresh audacious approach needed to ensure a sustainable future and particularly one that works for America *Environmental Guilt and Shame* Sarah E. Fredericks,2021 This study shows that many people in the US feel guilt about their everyday life It explores many ethical questions including whether individuals or collectives are the guilty or shameful parties whether agents should have these feelings whether people should induce guilt or shame in others and how people can respond to such feelings *The Jurisdynamics of Environmental Protection* Jim Chen,2003 On November 1 and 2 2002 the University of Minnesota Law School and the University of Minnesota s Consortium on Law and Values in Health Environment and the Life Sciences sponsored a symposium in honor of Professor Daniel A Farber s contributions to environmental law The resulting symposium *The Pragmatic Ecologist Environmental Protection as a Jurisdynamic Experience* was published in volume 87 of the *Minnesota Law Review* The Environmental Law Institute has now combined the proceedings of *The Pragmatic Ecologist* with additional contributions from many other leading scholars *The Sugar King of California* Sandra E. Bonura,2024 Sandra E Bonura tells the overlooked yet genuine rags to riches story of Claus Spreckels and his role in the developments of the sugarcane industry in the American West and across the Pacific *The Really Inconvenient Truths* Iain Murray,2008-04-01 Lambasting liberal politicians for hypocrisy discusses seven disastrous results of the environmental movement from the use of ethanol leading to global hunger to the polluting effects of contraceptive drugs *Corporate Bodies and Guilty Minds* William S. Laufer,2008-10-31 We live in an era defined by corporate greed and malfeasance one in which unprecedented accounting frauds and failures of compliance run rampant In order to calm investor fears revive perceptions of legitimacy in markets and demonstrate the resolve of state and federal regulators a host of reforms high profile investigations and symbolic prosecutions have been conducted in response But are they enough In this timely work William S Laufer argues that even with recent legal reforms corporate criminal law continues to be ineffective As evidence Laufer considers the failure of courts and legislatures to fashion liability rules that fairly attribute blame for organizations He analyzes the games that corporations play to deflect criminal responsibility And he also demonstrates how the exchange of

cooperation for prosecutorial leniency and amnesty belies true law enforcement But none of these factors according to Laufer trumps the fact that there is no single constituency or interest group that strongly and consistently advocates the importance and priority of corporate criminal liability In the absence of a new standard of corporate liability the power of regulators to keep corporate abuses in check will remain insufficient A necessary corrective to our current climate of graft and greed Corporate Bodies and Guilty Minds will be essential to policymakers and legal minds alike This timely work offers a dispassionate analysis of problems relating to corporate crime Harvard Law Review

The Psychology of Environmental Problems Susan M. Koger, Deborah DuNann Winter, 2011-01-07 This textbook demonstrates how eight major approaches in psychology can be applied to create a more sustainable society facing environmental threats It can be used as text in Ecological Psychology Environmental Science Education and Sustainability Sciences It is also a valuable resource for policymakers legislators and those working on sustainable communities

Ecologies of Guilt in Environmental Rhetorics Tim Jensen, 2019-10-28 Environmental rhetorics have expanded awareness of mass extinction climate change and pervasive pollution yet failed to generate collective action that adequately addresses such pressing matters This book contends that the anemic response to ecological upheaval is due in part to an inability to navigate novel forms of environmental guilt Combining affect theory with rhetorical analysis to examine a range of texts and media Ecologies of Guilt in Environmental Rhetorics positions guilt as a keystone emotion for contemporary environmental communication and explores how it is provoked perpetuated and framed through everyday discourse In revealing the need for emotional literacies that productively engage our complicity in global ecological harm the book looks to a future where guilt and its symbiotic relationships with anger shame and grief is shaped in tune with the ecologies that sustain us

Environmentalism in Popular Culture Noël Sturgeon, 2022-04-12 In this thoughtful and highly readable book No 1 Sturgeon illustrates the myriad and insidious ways in which American popular culture depicts social inequities as natural and how our images of nature interfere with creating solutions to environmental problems that are just and fair for all Why is it she wonders that environmentalist messages in popular culture so often naturalize themes of heroic male violence suburban nuclear family structures and U S dominance in the world And what do these patterns of thought mean for how we envision environmental solutions like green businesses recycling programs and the protection of threatened species Although there are other books that examine questions of culture and environment this is the first book to employ a global feminist environmental justice analysis to focus on how racial inequality gendered patterns of work and heteronormative ideas about the family relate to environmental questions Beginning in the late 1980s and moving to the present day Sturgeon unpacks a variety of cultural tropes including ideas about Mother Nature the purity of the natural and the allegedly close relationships of indigenous people with the natural world She investigates the persistence of the myth of the frontier and its extension to the frontier of space exploration She ponders the popularity and occasional controversy of penguins and penguin family

values and questions assumptions about human warfare as natural The book is intended to provoke debates among college students and graduate students among their professors among environmental activists and among all citizens who are concerned with issues of environmental quality and social equality Embracing Philanthropic Environmentalism Will Sarvis, 2019-06-27 This book addresses urban ecology green technology problems with climate change prediction groundwater contamination invasive species and many other topics and offers a guardedly optimistic interpretation of humanity's place in nature and our unique caretaker role Drawing upon scholarly and media sources the author presents a common sense analysis of environmental science debunking eco apocalyptic thinking along the way Compromised science masquerading as authoritative is revealed as a fundraising and policy influencing crusade by the environmental elite overshadowing unambiguous problems like environmental racism **Bad Environmentalism** Nicole Seymour, 2018-10-30 Traces a tradition of ironic and irreverent environmentalism asking us to rethink the movement's reputation for gloom and doom Activists today strive to educate the public about climate change but sociologists have found that the more we know about alarming issues the less likely we are to act Meanwhile environmentalists have acquired a reputation as gloom and doom killjoys **Bad Environmentalism** identifies contemporary texts that respond to these absurdities and ironies through absurdity and irony as well as camp frivolity irreverence perversity and playfulness Nicole Seymour develops the concept of bad environmentalism cultural thought that employs dissident affects and sensibilities to reflect critically on our current moment and on mainstream environmental activism From the television show *Wildboyz* to the short film series *Green Porno* Seymour shows that this tradition of thought is widespread spanning animation documentary fiction film performance art poetry prose fiction social media and stand up comedy since at least 1975 Seymour argues that these texts reject self righteousness and sentimentality undercutting public negativity toward activism and questioning basic environmentalist assumptions that love and reverence are required for ethical relationships with the nonhuman and that knowledge is key to addressing problems like climate change Funny and original **Bad Environmentalism** champions the practice of alternative green politics From drag performance to Indigenous comedy Seymour expands our understanding of how environmental art and activism can be pleasurable even in a time of undeniable crisis *The World Food Conference*, 1974 **The SAGE Handbook of Environment and Society** Jules Pretty, Andy Ball, Ted Benton, Julia Guivant, David R Lee, David Orr, Max Pfeffer, Professor Hugh Ward, 2007-10-30 A monumental and timely contribution to scholarship on society and environments The handbook makes it easy and compelling for anyone to learn about that scholarship in its full manifestations and as represented by some of the most highly respected researchers and thinkers in the English speaking world It is wide reaching in scope and far reaching in its implications for public and private action a definite must for serious researchers and their libraries Bonnie J McCay Rutgers University This is the desert island book for anyone interested in the relationship between society and the environment The editors have assembled a masterful collection of contributions on every conceivable

dimension of environmental thinking in the social sciences and humanities No library should be without it Robyn Eckersley University of Melbourne The SAGE Handbook of Environment and Society focuses on the interactions between people societies and economies and the state of nature and the environment Editorially integrated but written from multi disciplinary perspectives it is organised in seven sections Environmental thought past and present Valuing the environment Knowledges and knowing Political economy of environmental change Environmental technologies Redesigning natures Institutions and policies for influencing the environment Key themes include locations where the environment society relation is most acute where for example there are few natural resources or where industrialization is unregulated the discussion of these issues at different scales local regional national and global the cost of damage to resources and the relation between principal actors in the environment society nexus Aimed at an international audience of academics research students researchers practitioners and policy makers The SAGE Handbook of Environment and Society presents readers in social science and natural science with a manual of the past present and future of environment society links *The Lazy Environmentalist on a Budget* Josh Dorfman, 2011-03-01 A must read for anyone who wants to live well and still reduce their impact on the planet David de Rothschild author of The Global Warming Survival Handbook and host of Sundance Channel's Eco Trip The Real Cost of Living In The Lazy Environmentalist on a Budget Josh Dorfman takes you inside the latest developments in green living to demonstrate how you can easily and affordably have your designer jeans and your planet too From raising eco conscious kids to greening your daily commute Dorfman provides insights into the next wave of green innovation and the products and services that will lighten your planetary impact and lower your expenses Find bargain basement deals on stylish organic bedding and bamboo furnishings at the largest retailers in the world Score instant rebates on everything from compact fluorescent light bulbs to energy efficient air conditioners And earn reward points for carpooling with friends In a time when many people are feeling financially restricted The Lazy Environmentalist on a Budget is your guide to effortlessly saving the planet while keeping some extra cash in your pocket Fun easy and inexpensive Josh Dorfman shows that going green can help you look and feel fantastic and this time it makes perfect dollars and cents Summer Rayne Oakes model activist and author of Style Naturally The Savvy Shopping Guide to Sustainable Fashion and Beauty

Philosophy, Technology, and the Environment David M. Kaplan, 2017-02-24 Contributions by prominent scholars examining the intersections of environmental philosophy and philosophy of technology Environmental philosophy and philosophy of technology have taken divergent paths despite their common interest in examining human modification of the natural world Yet philosophers from each field have a lot to contribute to the other Environmental issues inevitably involve technologies and technologies inevitably have environmental impacts In this book prominent scholars from both fields illuminate the intersections of environmental philosophy and philosophy of technology offering the beginnings of a rich new hybrid discourse All the contributors share the intuition that technology and the environment overlap in ways that are

relevant in both philosophical and practical terms They consider such issues as the limits of technological interventions in the natural world whether a concern for the environment can be designed into things how consumerism relates us to artifacts and environments and how food and animal agriculture raise questions about both culture and nature They discuss among other topics the pessimism and dystopianism shared by environmentalists environmental philosophers and philosophers of technology the ethics of geoengineering and climate change the biological analogy at the heart of industrial ecology green products and sustainable design and agriculture as a bridge between technology and the environment Contributors Braden Allenby Raymond Anthony Philip Brey J Baird Callicott Brett Clark Wyatt Galusky Ryan Gunderson Benjamin Hale Clare Heyward Don Idhe Mark Sagoff Julian Savulescu Paul B Thompson Ibo van de Poel Zhang Wei Kyle Powys Whyte Modern American Environmentalists George A. Cevalco, Richard P. Harmond, 2009-04-27 Modern American Environmentalists profiles the lives and contributions of nearly 140 major figures during the twentieth century environmental movement Included are iconic environmentalists such as Rachel Carson E O Wilson Gifford Pinchot and Al Gore and important but less expected names including John Steinbeck and Allen Ginsberg The entries recount how each individual became active in environmental conservation detail his or her significant contributions trace the influence of each on future efforts and discuss the person's legacy The individuals selected for the book displayed either an unparalleled commitment to the conservation preservation restoration and enhancement of the natural environment or made a major contribution to the growth of environmentalism during its first century With a foreword by environmental historian Everett I Mendolsohn a time line of key environmental events a bibliography of groundbreaking works and an index organized by specialization this biographical encyclopedia is a handy and complete guide to the major people involved in the modern American environmental movement Mark Harvey **Unique Environmentalism** Gunnar Grendstad, Per Selle, Kristin Stromsnes, Oystein Bortne, 2006-11-28 their collective action The more unique the case the more we need to study it not only to understand the case itself but also to understand the structure and limits of environmentalism in general We hope that we have been able to show the value of this research strategy The way we have organized our study is different from the Rootes study 2003 This study emphasizes the importance of different environmental cultures and of political conjunctures in a single country of which different environmental groups take advantage We are not arguing against the fact that branches of environmentalism have features in common across countries e g animal rights and antinuclear movements However we would not go as far as the Rootes study We argue that looking at political conjunctures even if important does not tell the whole story Researchers need to understand the broader context in which political conjunctures and environmental culture operate

Delve into the emotional tapestry woven by Emotional Journey with in Experience **The Guilty Environmentalist** . This ebook, available for download in a PDF format (*), is more than just words on a page; itis a journey of connection and profound emotion. Immerse yourself in narratives that tug at your heartstrings. Download now to experience the pulse of each page and let your emotions run wild.
