Death, Emotion and Childhood in Premodern Europe Katie Barclay,Kimberley Reynolds,Ciara Rawnsley,2017-02-06 This book draws on original material and approaches from the developing fields of the history of emotions and childhood studies and brings together scholars from history literature and cultural studies to reappraise how the early modern world reacted to the deaths of children Child death was the great equaliser of the early modern period affecting people of all ages and conditions It is well recognised that the deaths of children struck at the heart of early modern families yet less known is the variety of ways that not only parents but siblings communities and even nations responded to childhood death The contributors to this volume ask what emotional responses to child death tell us about childhood and the place of children in society Placing children and their voices at the heart of this investigation they track how emotional norms values and practices shifted across the fifteenth to nineteenth centuries through different religious legal and national traditions This collection demonstrates that child death was not just a family matter but integral to how communities and societies defined themselves Chapter 5 of this book is available open access under a CC BY 4.0 license at link.springer.com

Global Nationalism: Ideas, Movements And Dynamics In The Twenty-first Century Pablo De Orellana,Nicholas Michelsen,2022-10-04 The twenty first century is witnessing a truly transnational revival of a very old set of ideas Despite romantic attachments to old symbols these late modern nationalism movements are not simply replicas of the previous two waves of nationalism in the 1860s and 1920s Nor is it true that today's nationalism movements want simply to return to the past and effect a nationalist 1930s style retrenchment From Putin's macho revivalism through to Trump's shocking victory and Xi's strongman regionalism nationalists engage with the economic context of our time and address issues born of globalization Crucially in their vision for international relations they seek the destruction of key international norms in a drive to restore a vision of sovereignty predicated on a survivalist understanding of state power Global Nationalism edited and framed by Pablo de Orellana and Nicholas Michelsen brings together the latest research by up and coming early career researchers and scholars Beginning with a succinct history and typology of contemporary nationalism and its predecessors this book offers analysis of several cases of contemporary nationalism examining how specific movements define identity address grievances and propose identity based solutions Key themes and lessons emerge

from the study of a variety of cases from the very ideas animating nationalist thought to their expression in a wide variety of nationalist movements around the world The reflections on the ecosystem of nationalist ideas and movements offered in this volume are a vital starting point in the study of contemporary nationalism as a global twenty first century phenomenon
