## **The Hiccup Song:**

**The Hiccup Song** Martha Mier, 2005-05-03 This fun little song for the elementary level pianist tells the story of a problem we've all dealt with. The staccato notes and accents will musically describe the hiccup sounds and there are long legato phrases as well, all in C major C Position. **The Hiccup**, 2014-01-07 The hiccups are annoying. They come on quickly and refuse to go away. Just ask Elliot. There he was having a nice picnic with his cousin Lutz when he accidentally ate too fast. Now he's stuck hiccupping around the forest and Elliot's unbearable situation couldn't be any funnier to Lutz. As Elliot wanders around the forest, all the animals try giving him advice on how to get rid of his hiccups. Maybe holding his breath will do the trick. Or drinking lots of water. Or maybe doing a headstand. No luck. Just when Elliot has all but given up, Lutz unexpectedly stumbles upon the cure. But will Lutz learn his lesson about not making fun of his friend's hiccups? Ingrid Sissung's humorous story and vibrant illustrations in **The Hiccup** remind readers of all ages to show sympathy to others in a tough situation because what goes around comes around.

**Rock N Roll Gold Rush** Maury Dean, 2003 This monster Rock n Roll survey focuses on the songs and the vibrant personalities who create them for college audiences and the general public. Dean published the world's first history of Rock in 1966. Here in his ebullient style he buzzes through piles of musical singles from the whole last half century describing what is fun about each major and minor hit, pointing out what elements were exciting or new or significant in the development of musical styles. He relates some tantalizing tidbits about the earlier musical heritage that artists have drawn upon in crafting ever more amazing evolutions of rock music. This snappy, witty, and informative album has universal appeal, doubling as a coffee table trivia treasure and a college level popular music history text. It includes hundreds of photos, chapter questions, and an extensive index. Reader friendly and informationally complete, it covers soft rock, heavy metal, rhythm blues, country rock, and classic oldies, all with tender loving care for the specialist and casual listener alike. Its mini portraits of the artists who move so many hearts and feet, the photos, and the insightful sound bites get to the essence of each song and each musician's contribution to the music of our age. The single song focus makes the book unique. It's a playlist for R n R professors and the general public, written with a collegiate vocabulary, tight organization, and a respect for all. Hearing Elvis for the first time was like busting out of jail. Bob Dylan. That being said, no one is being incited here to bust out of jail or to emulate the quixotic habits of rock stars. There's nothing in here to hide from the kids, the clergy, or grandma. Gold Rush can be used as a university or community college text, but most people will grab it for the sheer pleasure of reading about everyone's favorites. Great gift for Rock enthusiasts. Gold Rush is the first book of its kind to feature a celebration of the great single songs of the rock era and beyond. Gold Rush takes thousands of songs spanning

three centuries and brings them back uniquely as if they came out just yesterday Gold Rush unites the Anglo American and later worldwide spirit of Rock and Roll in a tapestry of interconnected melodies and adventures As Leonard Maltin's Movie Guide helps you select videos at Blockbuster so Gold Rush is a powerful playlist for your music collection with many new and fascinating photos of favorite stars Gold Rush explains the most important stories behind the songs you picked to be played the songs that went gold from the 1897 Alaska Klondike Gold Rush to the 1 songs of today and beyond
