Sino Japanese Relations:

Sino-Japanese Relations Ming Wan, 2006 This book examines the transformation of the Sino Japanese relationship since 1989 Sino-japanese Relations: Rivals Or Partners In Regional Cooperation? Niklas Swanstrom, Ryosei Kokubun, 2012-10-30 Sino Japanese relations have been on the mend since Shinzo Abe assumed the Japanese Prime Minister's office in September 2006 His visit to China in October 2006 and the reciprocal visits of Chinese Prime Minister Wen Jiabao in April 2007 and President Hu Jintao in May 2008 facilitated the further thawing of bilateral relations under the framework of mutually beneficial relationship based on common strategic relationship A substantial number of additional events have indicated the continuation of the positive trend in the strengthening of the bilateral relations However several issues continue to obstruct the building of long term confidence between the two Asian giants Despite the overall improved relations there is very little structural thinking about how to move the Sino Japanese relations to the next level and how to institutionalize security dialogues at the regional and international level This book provides an overview of the current situation and also gives suggestions on what is needed to move beyond the haphazard level of cooperation in Northeast Asia especially as the six party talks seem to have broken down It focuses on Chinese and Japanese perceptions of the bilateral situation and the potential of and need for multilateral structures in managing the future Chinese-Japanese Relations in the Twenty First Century Marie Söderberg, 2003-08-29 This important collection analyses the changing context of China's relationship with Japan Its eminent international contributors address core issues including strategic concerns security the issue of Taiwan diplomacy economic relations trade the role of firms and currency The book brings together a wide range of perspectives to offer a rich and varied understanding of one of Asia's most crucial and complex relationships China-Japan Relations in the 21st Century Lam Peng Er, 2017-09-05 This new collection examines the paradox of Sino Japanese relations and the rising diplomatic antagonism between both countries despite deepening economic interdependency Offering a unique perspective on the history of bilateral ties since diplomatic normalization in 1972 it considers the growing interdependency between China and Japan in bilateral trade investment tourism and education as well as the question of nationalism and Sino Japanese rivalry in multilateral settings such as in ASEAN processes the Mekong Basin and the South China Sea Focusing on the power transition in East Asia the lack of a common enemy in the post Cold War era the clash of Chinese and Japanese nationalism and a lack of trust shared values and common identity between China and Japan this collection addresses the origins of a troubled bilateral relationship which could impact on the stability and prosperity of East Asia **Interpreting History in Sino-Japanese Relations** Caroline Rose, 2005-08-04 The first book length study to examine the re writing of school textbooks by the Japanese Education Ministry in an attempt to play down atrocities in China during World War II The famous textbook crisis in 1982 was at the centre of a diplomatic storm extending through the 1980s as Sino Japanese relations were beset by a series of political controversies This fascinating account of the period reveals that

Chinese and Japanese policy makers were more concerned with changes taking place in international and domestic politics than with adopting a correct view of history

Sino-Japanese Relations Ryosei Kokubun, Niklas Swanström, 2009-03-26

Sino Japanese relations are crucial for the entire East Asian region and beyond. With both countries among the five biggest economies in the world and being highly interdependent, the bilateral relationship is of key importance not only for economic cooperation and prosperity in the region but in a larger global perspective. Moreover, Sino Japanese political and military relations are central to the regional security of Northeast Asia. Any deterioration in relations has the potential to generate conflicts with far reaching consequences. Accordingly, conflict prevention and conflict management in Sino Japanese relations are of vital concern to the international community. In the past decade, however, the Sino Japanese relationship has been increasingly marked by political strife and tension. While this has not escalated into military conflict and in spite of changes with the emergence of a new leader, Yasuo Fukuda in Japan and a political reshuffle at the 17th Party Congress of the Chinese Communist Party in 2007, future developments are difficult to predict. Historical grievances and differing interpretations thereof play a large role in sustaining political tensions which are reinforced by mutually negative perceptions at a grassroots level and a noticeable lack of trust. Japan's occupation of parts of China in the first half of the 20th century and, according to Chinese, a failure by Japan to issue an apology remain a key obstacle to any improvement in relations. Tensions over contemporary issues have strong historical linkages and it is clear that problematic political relations have sub-optimized the economic potential between the two countries as well as heightened suspicions of each other's military ambitions. More positively, business communities in both China and Japan have been pro-active in advocating improved cooperation and also a large majority of the ruling elite are eager to improve relations. Given the complex history and current power relations between the two countries, cultivating such will by no means be an easy task. Nevertheless, the authors hope that this book will help further understanding of Sino Japanese relations and so contribute towards the development of mutually advantageous relations, a necessity in today's world order.

Pioneers of Sino-Japanese Relations

M. Itoh, 2012-08-06

This book examines the careers of Liao Chengzhi and Takasaki Tatsunosuke who were not only the architects of Sino Japanese economic relations but also pioneers of contemporary Sino Japanese relations. Their visions and initiatives offer many insights into the current contentious relations among China, Japan, Russia and the United States.

Sino-Japanese Relations Niklas Swanström, 2013

Sino Japanese relations have been on the mend since Shinzo Abe assumed the Japanese Prime Minister's office in September 2006. His visit to China in October 2006 and the reciprocal visits of Chinese Prime Minister Wen Jiabao in April 2007 and President Hu Jintao in May 2008 facilitated the further thawing of bilateral relations under the framework of a mutually beneficial relationship based on common strategic interests. A substantial number of additional events have indicated the continuation of the positive trend in the strengthening of the bilateral relations. However, several issues continue to obstruct the building of long-term confidence between the two Asian

giants Despite the overall improved relations there is very little structural thinking about how to move the Sino Japanese relations to the next level and how to institutionalize security dialogues at the regional and international level This book provides an overview of the current situation and also gives suggestions on what is needed to move beyond the haphazard level of cooperation in Northeast Asia especially as the six party talks seem to have broken down It focuses on Chinese and Japanese perceptions of the bilateral situation and the potential of and need for multilateral structures in managing the future

The United States between China and Japan Caroline Rose, Victor Teo, 2014-07-24 From its insistence that Japan should favour diplomatic normalization with the Republic of China over the People's Republic of China in 1952 through its role via the Security Treaty of keeping the cap in the bottle of Japanese militarism to weighing in on the Diaoyu Senkaku islands dispute between China and Japan the United States has played a pivotal and at times controversial role in the development of China Japan relations since the end of World War II By extension US influence on China Taiwan and Taiwan Japan relations in addition to its impact on the efforts of various actors to construct a Northeast Asian regional community continues to pose important questions about the nature of the US role in East Asia in the 21st century This volume provides a multi faceted overview of the nature of America's interaction in East Asia since the end of the war and highlights the obstacles to improved bilateral and regional integration The contributors offer a range of perspectives from their respective US European and East Asian vantage points and point to the ongoing and prominent involvement of the US in the region for the foreseeable future

Japan-China Relations in the Modern Era Hugo Gorbald, 2017-06 Japan and China have a thousand year history of fighting each other The relationship between the two largest economies in Asia has been distinct by tension during the 20th century due to territorial and political disputes as well as Taiwanese sovereignty the invasion of China by Japan in the second world war and Japan's subsequent refusal to acknowledge the extent of its war crimes territorial disputes surrounding the Diaoyu Senkaku Islands and related fishing rights and energy resources and Japanese American security cooperation Sino Japanese relations are of interest to the entire East Asian region due to the fact that Japan and China are the most influential politically militarily economically and psychologically regionally as well as in a greater global perspective since they are among the top five economies in the world In an economic perspective the relations between the two countries heavily affect the possibility of economic cooperation and prosperity in the region Moreover Sino Japanese relations hold key importance for Northeast Asia regional security and need to be considered when looking at the larger picture of security in Asia From an economic perspective the Sino Japanese relation is one of the most important in the world as both states are not only among the most powerful economies but they are also highly interdependent This book examines the transformation of the Sino Japanese relationship in the Modern Era It provides a cogent analysis of the politics of the bilateral relationship in the modern era explaining the past present and future of Japan China relations during a time of massive political social and economic changes Good Sino Japanese relations could facilitate increased co operation whereas poor relations or a

breakdown in state level relations on the other hand could generate conflicts beyond the bilateral relations between Japan and China In this respect conflict prevention and conflict management in the relations between China and Japan are not only in the interest of the region but also in that of the international community This book will be of interest to academics and postgraduate students in Japanese studies Chinese studies and International Relations
