## **Spreading The Light Meaningful Answers To Spiritual Questions:**

**Spreading the Light** Archie Crawford, 2004 This book is about life and is written in plain everyday language The author boldly faces up to those fundamental questions rankling at the back of one's mind such as Is there really a God Where is He What is the nature of the soul What is truth Is reincarnation true Is there any purpose in the universe Does God cause suffering Do angels exist Who am I Can effect become cause Does space and time really exist etc He probes deep into the structure of your mind and with great clarity shows you how your mind works and how you can use it to find success in everything you do He shows how we attract our present circumstances and how emotionally intense events are not only registered in our psychic memory but also in the memories of the cells of our body and what this means for us He devotes a chapter in which he advocates going within through meditation to find solutions to our problems Religion is examined with candor He explains the many positive benefits of religion examines its dark side and points out that like individuals some religions must resolve and get rid of the baggage of past evil deeds before they and their followers can step into the light The author shows how in spite of itself science through its quantum theories is currently making discoveries which lead to a new view of the universe more in line with that of the essence of the religions and the experiences of the mystics of this world He shows how science and religion are at last beginning to merge For example there is now scientific proof of the value of prayer proof that the mind is non local that is it is not located in the brain and also can cause actions over distance that there is no solid matter in the universe it is all energy in one form or another He further states that a field of energy outside the material universe has been discovered where speeds exceed that of light It has also been found that our human consciousness is directly connected with matter and influences at least its microscopic particles The nature of the universe as being holographic is explored These scientific findings have profound spiritual significance He quotes experts on the future of mankind including Arthur C Clark Nobel physicist Brian Josephson Stephen Hawking etc and many more Reading this book will prepare you for the new age that is fast enveloping the earth The author's message is that in spite of the terrorism and devastation of the earth currently going on there is powerful hope There are powerful spiritual forces at work which will overcome the present chaos and lead us into a life of enlightenment and eventually of love

**A Sacred Space Is Never Empty** Victoria Smolkin, 2018-05-22 When the Bolsheviks set out to build a new world in the wake of the Russian Revolution they expected religion to die off Soviet power used a variety of tools from education to propaganda to terror to turn its vision of a Communist world without religion into reality Yet even with its monopoly on ideology and power the Soviet Communist Party never succeeded in overcoming religion and creating an atheist society A Sacred Space Is Never Empty presents the first history of Soviet atheism from the 1917 revolution to the dissolution of the Soviet Union in 1991 Drawing on a wealth of archival material and in depth interviews with those who were on the front lines of Communist ideological campaigns Victoria Smolkin argues that to understand the Soviet experiment we must make sense of Soviet atheism Smolkin shows how atheism was reimagined as an alternative cosmology with its own set of positive beliefs practices and spiritual commitments Through its engagements with religion the Soviet leadership realized that removing religion from the sacred spaces of Soviet life was not enough Then in the final years of the Soviet experiment Mikhail Gorbachev in a stunning and unexpected reversal abandoned atheism and reintroduced religion into Soviet public life A Sacred Space Is Never Empty explores the meaning of atheism for religious life for Communist ideology and for Soviet politics Musical Observer, 1924 **5**
