Crashback Michael Fabey, 2017-10-24 This chilling account of the warm war over control of the South China Sea one that is threatening to flare into full scale conflict presents a telling picture of the operational challenges the US Navy faces in the western Pacific Wall Street Journal from an award winning journalist with unprecedented access to the highest naval officers in America and China Out in the Pacific Ocean there is a war taking place It is a warm war a shoving match between the United States the uncontested ruler of the seas since WWII and China which now possesses the world's largest navy The Chinese regard the Pacific and especially the South China Sea as their ocean and they're ready to defend it Each day the heat between the two countries increases as the Chinese try to claim the South China Sea for their own and the United States insists on asserting freedom of navigation Throughout Southern Asia countries are responding with outrage and growing fear as China turns coral reefs into manmade islands capable of supporting airstrips and then attempts to enforce twelve mile radius shoot down zones The immediate danger is that the five trillion dollars in international trade that passes through the area will grind to a standstill The ultimate danger is that the US and China will be drawn into all out war Pulitzer Prize nominated journalist Michael Fabey has had unprecedented access to the Navy's most exotic aircraft carriers cruisers destroyers aircraft and submarines as well as those who command them In his well informed readable treatment Library Journal starred review Fabey offers good reporting from both sides of the conflict He gives his Chinese sources a thorough workout the little emperors and true believers alike and he has a sharp eye for what faces the American fleet if push comes to shove Kirkus Reviews Fabey predicts the next great struggle between military superpowers will play out in the Pacific and Crashback more than any other book is an accurate preview of how that conflict might unfold

Daily Report, Foreign Radio Broadcasts United States. Central Intelligence Agency, 1968 *Spy Ship?* C.D. Andersen, 2023-05-09 This is the story of the last cruise of USS Belmont AGTR 4 one of the American spy ships used in the 1960s Half of the crew worked in signal intelligence while the other half ran the ship The crazy things that happened during the last year of this ship's life made me wonder about that word intelligence

, *A History of the Modern Chinese Navy, 1840-2020* Bruce A. Elleman, 2021-05-09 This book provides a comprehensive history of the modern Chinese navy from 1840

to the present Beginning with a survey of naval developments in earlier imperial times the book goes on to show how China has since the mid 19th century four times built or rebuilt its navy after the Opium Wars a navy which was sunk or captured by the Japanese in the war of 1894 1895 during the 1920s and 1930s a navy again sunk or lost to Japan in the war of 1937 1945 in the 1950s a navy built with Soviet help which stagnated following the Sino Soviet split in the early 1960s and finally the present navy which absorbed its predecessor but with the most modern sections dating from the 1990s a navy which continues to grow and prosper The book also shows how the underlying strategic imperative for the Chinese navy has been the defense of China s coasts and major rivers how naval mutiny was a key factor in the overthrow of the Qing and the Nationalist regimes and how successive Chinese governments aware of the potent threat of naval mutiny have restricted the growth independence and capabilities of the navy Overall the book provides at a time when many people in the West view China and its navy as a threat a rich detailed and realistic assessment of the true nature of the Chinese navy and the contemporary factors that affect its development

The Capture of the USS Pueblo James Duermeier, 2019-01-03 For President Lyndon Johnson 1968 was a year of calamity including the hijacking of the USS Pueblo in international waters off North Korea After a fierce attack by the North Korean Navy the lightly armed spy ship was captured and its 83 crewmen taken hostage imprisoned and tortured for nearly a year before being released How and why did the Navy the National Security Agency and the Johnson administration place the Pueblo in such an untenable situation What drove Kim Il sung North Korea s autocrat to gamble on hijacking a ship belonging to the world s most powerful nation Drawing on extensive research including summaries of White House meetings and conversations the author answers these questions and reviews the events and flawed decisions that led to Pueblo s capture

Surprise Attack Larry Hancock, 2016-09-13 Surprise Attack explores sixty plus years of military and terror threats against the United States It examines the intelligence tools and practices that provided warnings of those attacks and evaluates the United States responses both in preparedness and most importantly the effectiveness of our military and national command authority Contrary to common claims the historical record now shows that warnings often very solid warnings have preceded almost all such attacks both domestic and international Intelligence practices developed early in the Cold War along with intelligence collection techniques have consistently produced accurate warnings for our national security decision makers Surprise Attack traces the evolution and application of those practices and explores why such warnings have often failed to either interdict or intercept actual attacks Going beyond warnings Surprise Attack explores the real world performance of the nation s military and civilian command and control history exposing disconnects in the chain of command failures of command and control and fundamental performance issues with national command authority America has faced an ongoing series of threats from the attacks on Hawaii and the Philippines in 1941 through the crises and confrontations of the Cold War global attacks on American personnel and facilities to the contemporary violence of jihadi terrorism With a detailed study of those threats the attacks

related to them and America's response a picture of what works and what doesn't emerges The attacks have been tragic and we see the defensive preparations and response often ineffective Yet lessons can be learned from the experience Surprise Attack represents a comprehensive effort to identify and document those lessons *Allies of Convenience* Sean Benjamin, 2024-10-19 In the Badlands everyone has their own agenda System governments planetary authorities and large corporations want to expand their power wealth and authority They use killing robbing and intimidating as methods of persuasion and governance Slavery has big profits and low overhead The Goldenes Tor Imperial Empire borders the Badlands and play by the same rules while working to annex this wild region The Aurora Empire opposes the Goldenes Tor policy and maintains a small Royal Navy Badlands squadron under the command of Captain Skyler Mallory to dispute their claim Raferty Hawkins captain of the pirate vessel Predator also has an agenda He wants to drive out the hated Goldenes Tor rein in the local governments and big corporations and give local natives control of their own destiny He is quite willing to kill people to achieve these ends With crew members such as Tactical and Baby Doll and the support of Captain Shane Delacruz of Vindictive and the crazy Captain Killian O Hare of Nemesis Hawkins had been fighting the oppressive Badlands forces for years But now the status quo is about to be turned upside down The Orion Confederation is far away with no interest in the Badlands However an Orion squadron has entered the region to destroy Mallory's command as part of a campaign of surprise attacks on the Aurora Empire The Orion squadron and their Goth escort ships make one fatal mistake They destroy a pirate settlement of women and children Now Hawkins and the ships of Pirate Flotilla One ally themselves with Captain Mallory against a common enemy Two forces of unlikely allies maneuver for advantage across a cold dark battlefield The outcome of this campaign will shape the Badlands for decades to come **The Clone Redemption** Steven L. Kent, 2011-10-25 Earth 2516 A D The Unified Authority has spread human colonies across the Milky Way keeping strict order with a powerful military made up almost entirely of clones But now the clones have formed their own empire and they aim to keep it no matter who they must defeat **The EU-Japan Partnership in the Shadow of China** Axel

Berkofsky, Christopher W. Hughes, Paul Midford, Marie Söderberg, 2018-06-27 Both the European Union and Japan have been major beneficiaries and supporters of the liberal international order first led by the United States since the end of World War II During this period they have emerged as global powers however the very order that nurtured their rise is now facing twin threats First through authoritarian China's promotion of alternative models of global governance and second from a crisis of liberalism manifested in the policies of President Donald Trump and Brexit This book explores these challenges faced by both the EU and Japan providing a multidisciplinary approach to studying the relationship between the two It analyses their cooperation in terms of security defence and trade and examines how their shared normative values are ultimately implemented Having recently concluded an Economic Partnership Agreement and with a Strategic Partnership Agreement in the pipeline this book asks whether they can convert their latent and modest cooperation into an alternative form of

leadership and an antidote to the illiberal tide sweeping the developed world As the first book to shed light on the new Economic Partnership Agreement between the EU and Japan this book will be useful to students and scholars of Japanese Studies as well as European Union politics and international political economy more generally **Lost Decade** Robert D. Blackwill, Richard Fontaine, 2024 Across the political spectrum there is wide agreement that Asia should be at the center of US foreign policy But this worldview the Pivot to Asia announced by the Obama Administration in 2011 is a dramatic departure from the entire history of American grand strategy Ten years on we now have some perspective to evaluate it in depth In *The Lost Decade* Robert Blackwill and Richard Fontaine take this long view They conclude that there are few successes to speak of and that we lack a coherent approach to the Indo Pacific region They examine the Pivot through various lenses situating it historically in the context of America's global foreign policy revealing the inside story of how it came about assessing the effort thus far identifying the ramifications in other regions namely Europe and the Middle East and proposing a path forward ***The Mightiest Machine*** John W.
