Masculinities in British Adventure Fiction, 1880-1915 Joseph A. Kestner, 2016-05-06 Making use of recent masculinity theories Joseph A Kestner sheds new light on Victorian and Edwardian adventure fiction Beginning with works published in the 1880s when writers like H Rider Haggard took inspiration from the First Boer War and the Zulu War Kestner engages tales involving initiation and rites of passage experiences with the non Western Other colonial contexts and sexual encounters Canonical authors such as R L Stevenson Rudyard Kipling Joseph Conrad and Olive Schreiner are examined alongside popular writers like A E W Mason W H Hudson and John Buchan providing an expansive picture of the crisis of masculinity that pervades adventure texts during the period Haig and Kitchener in Twentieth-Century Britain Stephen Heathorn, 2016-04-22 Lord Kitchener and Lord Haig are two monumental figures of the First World War Their reputations both in their lifetimes and after their deaths have been attacked and defended scrutinized and contested They have been depicted in film print and public memorials in Britain and the wider world and new biographies of both men appear to this day The material representations of Haig and Kitchener were shaped used and manipulated for official and popular ends by a variety of groups at different times during the twentieth century. The purpose of this study is not to discover the real individual nor to attack or defend their reputations rather it is an exploration of how both men have been depicted since their deaths and to consider what this tells us about the nature and meaning of First World War commemoration While Haig's representation was more contested before the Second World War than was Kitchener's with several constituencies trying to fashion and use Haig's memory the Government the British Legion ex servicemen themselves and bereaved families it was probably less contested but overwhelmingly more negative than Kitchener's after the Second World War The book sheds light on the notion of heroic masculinity questioning in particular the degree to which the image of the common soldier replaced that of the high commander in the popular imagination and explores how the military heritage in the twentieth century came into collision with the culture of modernity It also contributes to ongoing debates in British historiography and to the larger debates over the social construction of memory the problematic relation between what is considered heritage and history and the need for historians to be sensitive and attentive to the interconnections between heritage and history and their contexts Spies and Holy Wars Reeva Spector Simon, 2010-11-15 Illuminating a powerful intersection between popular culture and global politics Spies and Holy Wars draws on a sampling of more than eight hundred British and American thrillers that are propelled by the theme of jihad an Islamic holy war or crusade against the West Published over the past century the books in this expansive study encompass spy novels and crime fiction illustrating new connections between these genres and Western imperialism Demonstrating the social implications of the popularity of such books Reeva Spector Simon covers how the Middle Eastern villain evolved from being the malleable victim

before World War II to the international techno savvy figure in today's crime novels She explores the impact of James Bond pulp fiction and comic books and also analyzes the ways in which world events shaped the genre particularly in recent years Worldwide terrorism and economic domination prevail as the most common sources of narrative tension in these works while military tech novels restored the prestige of the American hero in the wake of post Vietnam skepticism Moving beyond stereotypes Simon examines the relationships between publishing trends political trends and popular culture at large giving voice to the previously unexamined truths that emerge from these provocative page turners *Prelude to the Easter Rising* Reinhard R. Doerries, 2014-02-04 Prelude to the Easter Rising casts light upon the clandestine activities of Sir Roger Casement in Imperial Germany from 1914 to 1916 German military intelligence and the Imperial Foreign Office had far reaching plans to use the Irish in the war against Britain Radical Irish American leaders were behind Casement's mission to Berlin It took some time for the highly sensitive and idealistic Casement to realize that neither the German General Staff nor the Imperial Chancellor was able or willing to lend full military support to the Irish When Casement began to see that the rising would be a bloody massacre he left for Ireland to halt the fatal development and if necessary sacrifice his own honour and life The carefully edited documents contained in this volume mostly from the German Foreign Office archives in Bonn present a full record of Casement's activities prior to Easter 1916 Over 80 years later these papers have lost none of their John le Carré and the Cold War Toby Manning, 2018-01-25 John le Carr and the Cold War explores emotional intimacy the historical contexts and political implications of le Carr s major Cold War novels The first in depth study of le Carr this century this book analyses his work in light of key topics in 20th century history including containment of Communism decolonization the Berlin Wall the Cuban missile crisis the Cambridge spy ring the Vietnam War the 70s oil crisis and Thatcherism Examining The Spy Who Came in from the Cold 1963 Tinker Tailor Soldier Spy 1974 Smiley's People 1979 and other novels this book offers an illuminating picture of Cold War Britain while situating le Carr s work alongside that of George Orwell Graham Greene and Ian Fleming Providing a valuable contribution to contemporary understandings of both British spy fiction and post war fiction Toby Manning challenges the critical consensus to reveal a considerably less radical writer than is conventionally presented Nothing Sacred David Alvarez, Revd Robert A., SJ Graham, 2013-11-05 Nazi Germany considered the Catholic Church to be a serious threat to its domestic security and its international ambitions In Germany informants provided intelligence but in Rome German attempts to penetrate the Papacy were less successful except for the codebreaking work
