Square Poets:

Encyclopedia of the New York School Poets Terence Diggory, 2009 An A to Z reference to writers of the New York School including John Ashbery who is often considered America's greatest living poet Examines significant movements in literary history and its development through the years *Nine Contemporary Poets* P.R. King, 2021-12-24 First Published in 1979 This volume includes simple and systematic introduction to the more important post war English poets Including reviews of the poetry of Larkin Tomlinson Gunn Hughes Plath Heaney and more This work will appeal to A level students undergraduates members of adult education classes and general readers enjoying modern literature **What Are Poets For?** Gerald L. Bruns, 2012-06 Conceptions and practices of poetry change not only from time to time and from place to place but also from poet to poet This has never been more the case than in recent years Gerald Bruns's magisterial *What Are Poets For* explores typographical experiments that distribute letters randomly across a printed page sound tracks made of vocal and buccal noises and holographic poems that recompose themselves as one travels through their digital space Bruns surveys one word poems found texts and book length assemblies of disconnected phrases he even includes descriptions of poems that no one could possibly write but which are no less interesting or no less poetic for all of that The purpose of the book is to illuminate this strange poetic landscape spotlighting and describing such oddities as they appear anomalies that most contemporary poetry criticism ignores Naturally this breadth raises numerous philosophical questions that Bruns also addresses for example whether poetry should be responsible semantically ethically politically to anything outside itself whether it can be reduced to categories distinctions and the rule of identity and whether a particular poem can seem odd or strange when everything is an anomaly Perhaps our task is simply to learn like anthropologists how to inhabit such an anarchic world The poets taken up for study are among the most important and innovative in the late twentieth and early twenty first centuries John Ashbery Charles Bernstein Paul Celan Kenneth Goldsmith Lyn Hejinian Susan Howe Karen Mac Cormack Steve McCaffery John Matthias J. H. Prynne and Tom Raworth *What Are Poets For* is nothing less than a lucid detailed study of some of the most intractable writings in contemporary poetry **Words to Walk by** Todd Barr, Rodney John Sullivan, 2005 Unveils Brisbane through the lives and works of the city's best loved authors With 25 scenic walks through Brisbane's literary past and present Blood Brothers Randy Roberts, Johnny Smith, 2016-11-01 An engrossing and important book *Wall Street Journal* that brings to life the fateful friendship between Malcolm X and Muhammad Ali In 1962 boxing writers and fans considered Cassius Clay an obnoxious self promoter and few believed that he would become the heavyweight champion of the world But Malcolm X the most famous minister in the Nation of Islam saw the potential in Clay not just for boxing greatness but as a means of spreading the Nation's message The two became fast friends keeping their interactions secret from the press for fear of jeopardizing Clay's career Clay began living a double life a patriotic good negro in public and a radical reformer behind the scenes Soon however their friendship would sour with disastrous and far

reaching consequences Based on previously untapped sources from Malcolm s personal papers to FBI records *Blood Brothers* is the first book to offer an in depth portrait of this complex bond An extraordinary narrative of love and deep affection as well as deceit betrayal and violence this story is a window into the public and private lives of two of our greatest national icons and the tumultuous period in American history that they helped to shape *Architectures of Poetry*, 2021-09-06

Modernist Poetry and the Limitations of Materialist Theory Charles Altieri, 2021-06-15 In *Modernist Poetry and the Limitations of Materialist Theory* Charles Altieri skillfully dissects the benefits and limitations of Materialist theory for works of art He argues that while Materialist theory can intensify our awareness of how art can foreground sensual dimensions of experience it does not yet serve as an adequate description of much of what we experience as mental activity especially in the domain of art which depends on active imaginations and constructive energies for which no Materialist theory is yet adequate He carefully shows how constructive imaginations operate in a range of modernist poetry that is especially attentive to the mind's powers because it provides alternatives to Impressionist sensibilities which thrive on Materialist modes of attention These modernists turned to versions of Hegel's idea of the inner sensuousness stressing how a work's very construction can provide different levels of sensuousness inseparable from the work of self-consciousness
