Copley Square: History through Architecture Leslie Humm Cormier, PhD, 2018-06-11 Copley Square is one of Boston's most architecturally significant and instantly recognizable public locations This urban square is home to Trinity Church the Boston Public Library Old South Church and the Hancock Tower among other important landmarks The square defines the city as well as the evolution of American architecture and urban design from colony toward the sophistication of global European squares moving creatively from Beaux Arts style to International Style and Modernism Architectural historian Leslie Humm Cormier PhD explores this contemporary place from its origins as an estuary to its vital significance as a stylistic link between old world style and new world design *Nelson Goodman and Modern Architecture* Kasper Lægring, 2024-07-19 This book orchestrates a convergence of two discourses from the 1960s Nelson Goodman's aesthetic theory on one side and critiques of modern architecture articulated by figures like Peter Blake Charles Jencks and Robert Venturi Denise Scott Brown on the other Grounded in Goodman's aesthetic theory the book explores his conceptual framework within the context of modern architecture At the heart of the investigation lies Goodman's concept of exemplification While his notion of denotation pertains to representational elements often ornaments in architecture exemplification accentuates specific formal properties at the expense of others including color spatial orientation transparency seriality and the like Supplemented by findings from phenomenology the book traces these effects in buildings notably those by Ludwig Mies van der Rohe Walter Gropius Le Corbusier and Frank Lloyd Wright all key figures in the critiques of modern architecture Employing Goodman's framework the book aims to address accusations of emptiness and alienation directed at modern architecture in the postwar era It illustrates that modern architecture symbolizes aesthetically

in a fundamentally different way than architecture from earlier periods This book will be of interest to architects artists researchers and students in architecture architectural history theory cultural theory philosophy and aesthetics

Reconstructing Times Square Alexander J. Reichl,1999 When the big ball drops on New Year s Eve

thousands are there to witness that great glittering sight while millions more watch on national television Times Square may be the cultural hub of America the Crossroads of the World but its lights have not always shone as brightly as they do now Once a glamorous theater district Times Square and 42nd Street had degenerated into a neighborhood known for the winos and sex shops of Midnight Cowboy until New York's business and arts communities stepped in These advocates of urban revitalization exploited cultural and historic preservation arguments to transform a low income entertainment district into a Disney fied tourist mecca Where Ratso Rizzo once kicked cars and hookers plied their trade Mickey Mouse now greets visitors from atop a Disney superstore surrounded by rising office towers theaters and theme restaurants all thanks to huge tax subsidies and government support Alexander Reichl tells the fascinating story of how cultural politics and economic greed transformed the city's physical and social environment with an ongoing multibillion dollar redevelopment program changing the district from a symbol of urban decline to one of urban renaissance He explains the political significance of the historic preservation and arts related approach to urban revitalization showing how it was used to appeal to the upscale values of middle class New Yorkers often hostile to urban renewal He also examines the role of the Walt Disney Company in the project and demonstrates its power to redefine a premier public space In telling the story of Times Square Reichl reveals much about politics and power at the city level and their relationship to the development of urban space He frames his lively narrative with an illuminating account of how historic preservation initiatives at all government levels have displaced large scale federal urban renewal programs as the dominant approach to urban development and he shows the importance of political discourse and cultural politics in mobilizing public support for urban redevelopment Now that it has been reconfigured for the 21st century Times Square provides a rich and multifaceted case for exploring the latest trends in urban renewal Yet Reichl suggests much that has happened here is regrettable the ousting of low income citizens to serve commercial interests the loss of a culturally diverse entertainment district and the failure to address persistent class and race based segregation in a central urban area By getting to the heart of the Great White Way Reconstructing Times Square provides an important look at urban renewal and politics in a changing America **The city trip guide for Vitina**

(Kosovo) ,2025-09-26 **Georgia Tech: Campus Architecture** Robert M. Craig,2021-08-16 The architectural development of Georgia Tech began as a core of Victorian era buildings sited around a campus green and Tech Tower During the subsequent Beaux Arts era designers who were also members of the architecture faculty added traditionally styled buildings with many of them in a pseudo Jacobean collegiate redbrick style Early Modernist Paul Heffernan led an architectural revolution in his academic village of functionalist buildings on campus an aesthetic that inspired additional International Style campus buildings Formalist Brutalist and Post Modern architecture followed and when Georgia Tech was selected as the Olympic Village for the 1996 Summer Olympics new residence halls were added to the campus Between 1994 and 2008 Georgia Tech president G Wayne Clough stewarded over 1 billion in capital improvements at the school notably

engaging midtown Atlanta with the development of Technology Square The landscape design by recent campus planners is especially noteworthy featuring a purposeful designation of open spaces accommodations for pedestrian perambulations and public art What might have developed into a prosaic assemblage of academic and research buildings has instead evolved into a remarkably competent assemblage of aesthetically pleasing architecture Modern Architecture Jonathan Glancey,2023-05-16 A pocket size visual guide to the great buildings and structures of the modern age from around the world Makers of 20th-Century Modern Architecture Donald Leslie Johnson,Donald Langmead,2013-05-13 Makers of 20th Century Modern Architecture is an indispensable reference book for the scholar student architect or layman interested in the architects who initiated developed or advanced modern architecture The book is amply illustrated and features the most prominent and influential people in 20th century modernist architecture including Wright Eisenman Mies van der Rohe and Kahn It describes the milieu in which they practiced their art and directs readers to information on the life and creative activities of these founding architects and their disciples The profiles of individual architects include critical analysis of their major buildings and projects Each profile is completed by a comprehensive bibliography The Architect & Building News ,1928 *Modern Architecture and the Sacred* Ross Anderson,Maximilian Sternberg,2020-11-26 This edited volume Modern Architecture and the Sacred presents a timely reappraisal of the manifold engagements that modern architecture has had with the sacred It comprises fourteen individual chapters arranged in three thematic sections Beginnings and Transformations of the Modern Sacred Buildings for Modern Worship and Semi Sacred Settings in the Cultural Topography of Modernity The first interprets the intellectual and artistic roots of modern ideas of the sacred in the post Enlightenment period and tracks the transformation of these in architecture over time The second studies the ways in which organized religion responded to the challenges of the new modern self understanding and then the third investigates the ways that abstract modern notions of the sacred have been embodied in the ersatz sacred contexts of theatres galleries memorials and museums While centring on Western architecture during the decisive period of the first half of the 20th century a time that takes in the early musings on spirituality by some of the avant garde in defiance of Sachlichkeit and the machine aesthetic the volume also considers the many varied appropriations of sacrality that architects have made up to the present day and also in social and cultural contexts beyond the West
