Squatter Settlements Charles Abrams, 1966 Squatters and the Roots of Mau Mau, 1905-1963 Tabitha

Kanogo, 1987-09-30 This is a study of the genesis evolution adaptation and subordination of the Kikuyu squatter labourers who comprised the majority of resident labourers on settler plantations and estates in the Rift Valley Province of the White Highlands The story of the squatter presence in the White Highlands is essentially the story of the conflicts and contradictions that existed between two agrarian systems the settler plantation economy and the squatter peasant option Initially the latter developed into a viable but much resented sub system which operated within and to some extent in competition with settler agriculture This study is largely concerned with the dynamics of the squatter presence in the White Highlands and with the initiative self assertion and resilience with which they faced their subordinate position as labourers In their response to the machinations of the colonial system the squatters were neither passive nor malleable but on the contrary actively resisted coercion and subordination as they struggled to carve out a living for themselves and their families It is a firm conviction of this study that Kikuyu squatters played a crucial role in the initial build up of the events that led to the outbreak of the Mau Mau war from the introduction **Review of Squatters and Settlers** Jillian Oppenheimer, 1979

Squatter's Republic Tamara Venit Shelton, 2013-11-22 Who should have the right to own land and how much of it A Squatter s Republic follows the rise and fall of the land question in the Gilded Age and the rise and fall of a particularly nineteenth century vision of landed independence More specifically the author considers the land question through the anti monopolist reform movements it inspired in late nineteenth century California The Golden State was a squatter s republic a society of white men who claimed no more land than they could use and who promised to uphold agrarian republican ideals and resist monopoly the nemesis of democracy Their opposition to land monopoly became entwined with public discourse on Mexican land rights industrial labor relations immigration from China and the rise of railroad and other corporate monopolies **Review of Squatters and Settlers** Ray Bass, 1978 Indian Communities in Southeast Asia (First Reprint 2006) K S Sandhu, A Mani, 2006 In Indian Communities in Southeast Asia thirty one scholars provide an analytical

commentary on the contemporary position of ethnic Indians in Southeast Asia The book is the outcome of a ten year project undertaken by the editors at the Institute of Southeast Asian Studies Singapore It is multi disciplinary in focus and multi faceted in approach providing a comprehensive account of the way people originating from the Indian subcontinent have integrated themselves in the various Southeast Asian countries The study provides insights into understanding how Indians an intra ethnically diverse immigrant group have intermingled in Southeast Asia a region that itself is ethnically diverse

Confluences Rosemary A. King, 2004-02-01 Writers focusing on the U S Mexico border are keen observers of cultural interaction and their work offers a key to understanding the region and its most important issues For more than 150 years novelists from both the United States and Mexico have spun stories about the borderlands in which characters react to cultural differences in the region and this has become a dominant theme in border fiction Authors such as Helen Hunt Jackson Carlos Fuentes Cormac McCarthy and Leslie Marmon Silko have not only created important literature in so doing they have also helped define the border Writers who are drawn to the borderlands owe the narrative power of their work to compelling relationships between literary constructions of space and artistic expressions of cultural encounter Rosemary King now offers a new way of understanding the conflicts these writers portray by analyzing their representations of geography and genre *Border Confluences* examines how the theme of cultural difference influences the ways that writers construct narrative space and the ways their characters negotiate those spaces from domestic sphere to national territory public school to utopia King shows how fictional characters various responses to cultural encounters adapting resisting challenging sympathizing depend on the artistic rendering of spaces and places around them and she examines the connection between writers evocation of place and the presence of cultural interaction along the border as expressed in novels written since the mid nineteenth century Drawing on historical romances Hispanic coming of age novels travel narratives and utopian literature King offers plot summaries of such key works as *Ramona* *All the Pretty Horses* and *Almanac of the Dead* as she analyzes representations of both the spaces in which characters function and the places they inhabit relative to the border *Border Confluences* is a provocative study that offers insight into the ways words and space combine

and recombine over time to create representations of the borderlands as a site where places and cultures continue to generate powerful narrative Through it scholars and students in such disciplines as ethnic studies sociology and women s studies will find that novels centered on the border are not merely works of literature but also keys to understanding the region and its most important issues **Urban Squatter Housing in Third World** Ashok Ranjan Basu,1988 Study with special reference to Delhi *National Consultation on Evictions, Squatter Settlements, and Housing Rights* ,2002
