Squire Waterton:

Squire Waterton Gilbert Phelps, 1976 *Gossip of the Century* Mrs. Wm. Pitt Byrne, 1899 *Charles Waterton* Brian W. Edgington, 1996 Charles Waterton 1782-1865 a true English eccentric ironically self styled the most commonplace of men He talked to insects fought with snakes rode an alligator and lived like a monk He was made famous in his own lifetime by publication of his wide ranging travels and natural history observations always fun often perceptive and unfailingly individual One of his more notable contributions to science was the introduction into Europe of curare now an invaluable drug in surgical operations He turned his family estate into an extensive nature reserve long before such things were heard of and threw open his gates to the local populace as long as they understood that birds and animals had security of tenure Waterton wrote three volumes of *Essays on Natural History* and the best selling *Wanderings in South America* which has never been out of print since the first publication in 1825 He was a fearsome satirist and pamphleteer attacking prominent figures of his day both with his powerful pen and with his taxidermy skills His simple charm made a mockery of all those enemies who tried to capitalise on his human failings Unlike previous biographies this book is an unabashed celebration of his eccentricity a fond salute to a fine old English gentleman In the centenary year of the Canadian national park which is named after him the life of Charles Waterton should encourage the preservation of what remains of his kind of world and remind us of what the world has lost to insensitivity and greed *Social Hours with Celebrities*, 2 Mrs. Wm. Pitt Byrne, 1898 *Charles Waterton* Richard Hobson, 1867 **Great British Eccentrics** S. D. Tucker, 2015-09-15 An entertaining guide to the most eccentric characters from British history **Who Killed the Queen?** Holly Jewell Dressel, 2008 *Who Killed the Queen* is the first sustained investigation ever attempted into the mass closures of hospitals and hospital beds in Canada during the mid 1990s showing the effects that the loss of 20 per cent of beds has had on health care across the country It provides very strong evidence as to who and what was responsible for bed losses that are unparalleled in the history of any other industrialized country It also provides well supported templates for saving and strengthening the entire Canadian health care system despite this attack *Who Killed the Queen* makes its arguments by means of a particularly dramatic and telling case study It investigates the life and death of the exemplary 100 year old Canadian community hospital the Queen Elizabeth of Montreal site of many national and international medical firsts which nonetheless became a typical victim of the mass closures in the mid 1990s **Social Hours with Celebrities** Mrs. Wm. Pitt Byrne, 1898 **The Strange Life of Charles Waterton, 1782-1865** Richard Aldington, 1949 From 1782 to 1865 there lived mainly at Walton Hall in the county of Yorkshire in England a man whose name was Charles Waterton He was the Last Great Eccentric Squire Waterton was also a farmer a naturalist and such a traveler as only an Englishman can be His whole life made a pattern of odd adventure some of whose highlights were his encounters with a boa constrictor which he disposed of by a punch to the jaw with a crocodile which he rode up and down the Essequibo River and with an unfortunate donkey which he first poisoned experimentally with curare

and then revived by means of a bellows Book Jacket *Charles Waterton : His Home, Habits, and Handiwork* Richard Hobson, 1866 Charles Waterton: his home, habits, and handiwork. Reminiscences of ... nearly thirty years ... With sixteen illustrations, engraved from photographs ... by S. Smith and ... W. L. Smith, etc. (Catalogue of pictures at Walton Hall, near Wakefield, as prepared by the late Mr. Waterton.) Richard HOBSON, 1867 Richard Aldington II Vivien Whelpton, 2019-01-01 The story of Richard Aldington outstanding Imagist poet and author of the bestselling war novel *Death of a Hero* 1929 takes place against the backdrop of some of the most turbulent and creative years of the twentieth century Vivien Whelpton provides a remarkably detailed and sensitive portrayal of the writer from the age of thirty eight to his death from a heart attack in 1962 The first volume *Richard Aldington Poet Soldier and Lover* described Aldington's life as a stalwart of the pre war London literary scene his experience as an infantryman on the Western Front and his postwar personal and creative crises this second volume seeks to balance the stories of Aldington's subsequent public and private lives through a careful reading of his novels poems and letters with his circle of acquaintances The ways in which Aldington's dysfunctional childhood and survivor's guilt continued to haunt him through the inter war years and beyond are masterfully untangled by an author with gifted psychological insight into her subject Volume Two covers Aldington's personal and public lives as he transformed himself from poet to novelist and from novelist to biographer and explores his debacles and triumphs particularly in the wake of his hugely controversial attack on the reputation of T E Lawrence This authoritative biography recounts the life of one of the most underrated writers of the last century **From Physick to Pharmacology** Louise Hill Curth, 2017-05-15 *From Physick to Pharmacology* addresses the important albeit neglected history of the distribution and sale of medicinal drugs in England from the sixteenth to the twenty first century The social history of early medicine and the evolution of British retailing are two areas that have attracted considerable attention from academics in recent years That said little work has been done either by medical or business historians on the actual retailing of drugs This book merges the two themes by examining the growth in the retailing of medicinal drugs since late medieval times The six academics contributing essays include both medical and business historians who provide an informed and stimulating perspective on the subject After an introduction setting out the context of drug retailing and surveying the current literature the volume is arranged in a broadly chronological order beginning with Patrick Wallis's study of apothecaries and other medical retailers in early modern London The next chapter by Louise Hill Curth looks at the way the distribution network expanded to encompass a range of other retail outlets to sell new branded pre packaged proprietary drugs Steven King then examines various other ways in which medicines were sold in the eighteenth century with a focus on itinerant traders This is followed by pieces from Hilary Marland on the rise of chemists and druggists in the nineteenth century and Stuart Anderson on twentieth century community pharmacists The final essay by Judy Slinn examines the marketing and consumption of prescription drugs from the middle of that century until the present day Taken together these essays provide a fascinating

insight into the changes and continuities of five centuries of drug retailing in England The Wharnccliffe Companion to Wakefield & District Leonard Markham,2005-11-01 Aimed at visitors and residents alike this companion to the history of Wakefield is an indispensable reference guide to the long varied and sometimes surprising story of the town Essential information on the people places and events that played key roles in the story is presented in a convenient A to Z format Famous and notorious individuals are portrayed here dramatic sometimes tragic events are remembered and familiar local myths and legends are explored The volume is a source of fascinating insights into Wakefield s past and should provide answers to frequently asked historical questions the whos wheres and whys that make up the rich history of the town
