Tax Reform And The Cost Of Capital

**Dale Weldeau Jorgenson, Kun-Young
Yun**

Tax Reform And The Cost Of Capital:

Tax Reform and the Cost of Capital Dale Weldeau Jorgenson, Kun-Young Yun, 1991 The cost of capital was introduced almost thirty years ago and quickly became an indispensable tool for modelling the impact of tax policy on investment behavior Within the past decade the cost of capital has assumed a central role in tax reform debates through the closely related concept of the marginal effective tax rate This book provides a comprehensive treatment of the cost of capital approach to tax policy analysis Keeping the analytical level of this work has been kept to a minimum the authors introduce complexities in a step by step fashion leading up to a representation of tax systems for capital income that is suitable for tax policy analysis The success of the cost of capital approach is due in large part to its ability to assimilate a virtually unlimited amount of descriptive detail on alternative tax policies To provide guidance to students and tax policy professionals this book contains a full implementation of the approach for the United States including an analysis of the alternative proposals that culminated in the highly influential Tax Reform Act of 1986 in the United States It also describes opportunities for further research and gives a complete and up to date bibliography to the rapidly expanding literature This is the first in a series of Lectures in Monetary and Fiscal Policy at Uppsala University in honor of Erik Lindahl **Fundamental Capital Income**

Tax Reforms Michael Stimmelmayer, 2007 Originally presented as the author's thesis doctoral Ludwig Maximilians Universität München 2007 **Tax Reform and the Cost of Capital** Dale W. Jorgenson, Ralph Landau, 2010-12-01 The tax reform movement that swept the U S Great Britain and most other industrialized nations during the last decade has focused attention on international comparisons of the cost of capital More recently international comparability has become a critical issue of tax harmonization This is a vital concern in the European Community as well as between Canada and the United States This volume provides international comparisons of the cost of different types of capital for nine major industrialized countries Australia Canada France Germany Italy Japan Sweden the United Kingdom and the United States for the period 1980 1990 In the early 1980s the introduction of tax incentives for saving and investment gradually shifted the tax base from income toward consumption By 1990 most of these special tax provisions had been reduced or repealed in order to lower tax rates and equalize the tax treatment of different forms of capital income Income was firmly reestablished as the most appropriate basis for taxation Separate chapters for each of the nine countries written by leading experts in public economics provide detailed accounts of tax policy changes over the decade Each chapter contains a quantitative description of these tax policies and summarizes this information in the form of effective tax rates The book thus serves as an indispensable reference for comparing capital income taxation in industrialized countries during a period of rapid policy change *Tax Systems and Tax Reforms in Europe* Luigi Bernardi, Paola Profeta, 2004-05-05 The last decade has seen important changes taking place in the tax regimes of many European countries A comprehensive picture of what is happening in European fiscal systems has not been easy to find until now This impressive book featuring contributions from leading scholars will be of

great interest not only to academics but also to those involved in the financial sectors across the world *CGE Models and Capital Income Tax Reforms* Doina Maria Radulescu, 2007-09-13 The book suggests a novel way how the effects of tax reforms especially in the field of capital income taxation can be measured by means of dynamic computable general equilibrium CGE models Using a model calibrated to the German economy the author evaluates and quantifies the effects of introducing a Dual Income Tax DIT in Germany This tax reform is a currently hotly debated topic in Germany and has been suggested both by the German Council of Economic Advisors GCEA and by Prof Hans Werner Sinn Thus the book is of great interest not only for the academic but also for the business world and politics Tax Reform and the Cost of Capital Dale Weldeau Jorgenson, Kun-Young Yun, 1991 The first of a set of lectures inaugurated by the University of Uppsala and given every two years in honour of the Swedish economist Erik Lindahl The lectures in this volume survey the new theoretical links between monetary theory and public finance **Transition Costs of Fundamental Tax Reform** Kevin A. Hassett, R. Glenn Hubbard, 2001 Transition costs surround debates over fundamental tax reform Calculations of transition costs have followed the setup pioneered by Alan Auerbach and Larry Kotlikoff In this volume the authors focus on the most critical transition issues from the political perspective **Investment: Tax policy and the cost of capital** Dale Weldeau Jorgenson, 1996 V 1 Capital theory and investment behavior V 2 Tax policy and the cost of capital *Small Business and Fundamental Tax Law Reform* United States. Congress. Senate. Committee on Small Business, 1998 Contract with America--savings and Investment United States. Congress. House. Committee on Ways and Means, 1996
