A do-it-yourself course in understanding and speaking Persian featuring lessons centered around realistic everyday situations. *Modern Persian* Narguess Farzad, 2004. Persian, known locally as Farsi, is the official language of modern-day Iran and parts of Afghanistan and the central Asian republic of Tajikistan, but historically it was a more widely understood language in an area ranging from the Middle East to India. Significant populations in other Persian Gulf countries also speak Persian. The difference between Dari Persian, mainly spoken in Afghanistan, and Farsi has been compared to the difference between European and Canadian French. Persian is written in the Arabic script but it belongs to the Indo-European family of languages, so speakers of European languages should find learning Persian relatively easy to begin with. It is remarkably simple in terms of formal grammar: no gender, no noun inflection, and no irregularities in verbal conjugation. Teach Yourself Modern Persian Farsi is designed for the true beginner and self-access learner, starting from the basics of learning the Persian alphabet. By the end of the course, you'll be able to build complex sentences and communicate in a wide range of everyday situations. There's plenty of practice of each point as it is introduced, and the accompanying CDs will help you to improve your speaking and listening skills. The accompanying CDs are available separately 0340 80267 7 or in a pack with the book 0340 80266 9.
