Heroes and Heretics Abound Dave G. Roberts,2017-03-29 I know what you are probably thinking History is boring Was I right I have heard it a million times I think history can be fascinating particularly Church history Why do I think that Because how can anything with heroes and heretics be boring More than that the story of the Christian Church is your story Yes You dear reader Your story regardless of where you are from and who you are Your story regardless of your system of belief or non belief Perhaps you know very little of it No worries Before Jesus Christ ascended back to heaven he commanded

his 11 followers to go and tell others about Him and His work They did and we stand here today as a product of their obedience But how did the Church get here today Together we explore her birth growth and development Development to the point where she is worldwide and has at least 2 billion people who identify as a Christian of one kind or another Development of the practises and theology of the Church All the while striving to avoid the mistakes and embrace the joys Who was the near sighted man called the Golden Mouth Who said If there is no laughter in heaven I don t want to go there Who was probably the first person to expound what we call Grace Which of the ancient heresies could well be found in some churches today We answer those questions and more in this journey through time We also interact with some people of today who tell about their relationship with the Church Finally we also interact with some of the great minds of Church history looking at some of the prayers of the Church As the Church of today and tomorrow we can all learn something from this exciting story This book is written with you in mind Of course it is written chiefly from an English speaking Protestant European perspective as that is my background Come on in The Antiquities of the Christian Church Joseph Bingham,1856 Ten Lectures on Orthodoxy and Heresy in the Christian Church Edward Henry Hall,1883 Origines Ecclesiasticae; Or the Antiquities of the Christian Church and Other Works of Joseph Bingham Joseph Bingham,1845 **Origines Ecclesiasticæ; Or, the Antiquities of the Christian Church; and Other Works ... With a Set of Maps of Ecclesiastical Geography; to which are Now Added Several Sermons, and Other Matter, Never Before Published. The Whole Revised and Edited, Together with a Biographical Account of the Author, by His Great Grandson, the Rev. Richard Bingham** Joseph BINGHAM (M. A.),1829 The Oxford Dictionary of the Christian Church Frank Leslie Cross,Elizabeth A. Livingstone,2005 Uniquely authoritative and wide ranging in its scope The Oxford Dictionary of the Christian Church is the indispensable one volume reference work on all aspects of the Christian Church It contains over 6 000 cross referenced A Z entries and offers unrivalled coverage of all aspects of this vast and often complex subject including theology churches and denominations patristic scholarship the bible the church calendar and its organization popes archbishops saints and mystics In this revision innumerable small changes have been made to take into account shifts in scholarly opinion recent developments such as the Church of England s new prayer book Common Worship RC canonizations ecumenical advances and mergers and where possible statistics A number of existing articles have been rewritten to reflect new evidence or understanding for example the Holy Sepulchre entry and there are a few new articles Perhaps most significantly a great number of the bibliographies have been updated Established since its first appearance in 1957 as an essential resource for ordinands clergy and members of religious orders ODCC is an invaluable tool for academics teachers and students of church history and theology as well as for the general reader **Women and Ordination in the Christian Churches** Ian Jones,Kirsty Thorpe,Janet Wootton,2008-07-31 The growth of women s ordained ministry is one of the most remarkable and significant developments in the recent history of Christianity This collection of essays brings together

leading contributors from both academic and church contexts to explore Christian experiences of ordaining women in theological sociological historical and anthropological perspective Key questions include How have national denominational and ecclesial cultures shaped the different ways in which women s ordination is debated and or enacted What differences have women s ordained ministry and debates on women s ordination made in various church contexts What unfinished business remains in both congregational and wider ministry How have Christians variously conceived ordained ministry which includes both women and men How do ordained women and men work together in practice What have been the particular implications for female clergy And for male clergy What distinctive issues are raised by women s entry into senior ordained leadership positions How do episcopal and non episcopal traditions differ in this
