Philosophie asiatique/Asian philosophy Guttorm Fløistad, 2012-12-06 The present publication is a continuation of two earlier series of chronicles Philosophy in the Mid Century Firenze 1958 59 and Contemporary Philosophy Firenze 1968 edited by Raymond Klibansky As with the earlier series the present surveys purport to give a survey of significant trends in contemporary philosophical discussion The need for such surveys has I believe increased rather than decreased over the last years The philosophical scene appears for various reasons rather more complex than ever before The continuing process of specialization in most branches the emergence of new schools of thought particularly in philosophical logic in the philosophy of language and in social and political philosophy the increasing attention being paid to the history of philosophy in discussions of contemporary problems as well as the increasing interest in cross cultural philosophical discussion are the most important contributory factors Surveys of the present kind are a valuable source of knowledge about

this complexity and may as such be of assistance in renewing the understanding of one's own philosophical problems. The surveys it is to be hoped may help to strengthen the Socratic element of modern philosophy, the world-wide dialogue or Kommunikationsgemeinschaft. So far six volumes have been prepared for the new series. The present surveys in Asian Philosophy Vol 7 follow the surveys in the Philosophy of Language and Philosophical Logic Vol I Philosophy of Science Vol 2 Philosophy of Action Vol 3 Philosophy of Mind Vol 4 African Philosophy Vol 5 and Medieval Philosophy Part 1 2 Vol 6

The Nature of Physical Existence Ivor Leclerc, 2014-02-04 This is Volume II of six in a collection on Epistemology. Originally published in 1972, the central concern of this book is the understanding of the nature of the universe. Its field is thus that which until the eighteenth century had been known as philosophia naturalis, the philosophy of nature. The aim of the book is to elucidate and examine the fundamental concepts in terms of which the universe is understood. *Gospel Outlines* Witness Lee, 1980
