**The Happy Prisoner** Monica Dickens,1948      **The Happy Prisoner** Monica Dickens,1967      **The Happy Prisoner** Umberto Schramm,2025-07-17 Justice isn't just about punishment so why do our prisons act like it is When Umberto Schramm was sent to prison for a mistake he will regret for the rest of his life he expected punishment but also rehabilitation What he found instead was a system so broken that it often made prisoners more likely to reoffend not less Part diary part manifesto for change The Happy Prisoner is a searingly honest account of life behind bars from the violence and deprivation to the unexpected moments of hope Through his time inside Schramm came to a radical but vital conclusion if we truly want safer streets prisons cannot just punish they must rehabilitate And as much as it goes against our instincts only a relatively happy prisoner is one who can change grow and learn from his mistakes But in the UK an overcrowded underfunded and contradictory system is failing on every front With unflinching insight Schramm exposes the flaws at the heart of British justice and argues for a new way forward one that would cost less work better and ultimately create fewer victims of crime Challenging humane and deeply personal The Happy Prisoner forces us to ask what kind of justice system do we really want

expressed in carceral metaphors in a range of texts about imprisonment from Antiquity to the present as well as non penal situations described as confining or restrictive These imaginings coalesce into a carceral imaginary that determines the way we think about prisons just as social debates about punishment and criminals feed into the way carceral imaginary develops over time Examining not only English language prose fiction but also poetry and drama from the Middle Ages to postcolonial particularly African literature the book juxtaposes literary and non literary contexts and contrasts fictional and nonfictional representations of imprisonment and discussions about the prison as institution and experiential reality It comments on present day trends of punitivity and foregrounds the ethical dimensions of penal punishment The main argument concerns the continuity of carceral metaphors through the centuries despite historical developments that included major shifts in policy such as the invention of the penitentiary The study looks at selected carceral metaphors often from two complementary perspectives such as the home as prison or the prison as home or the factory as prison and the prison as factory The case studies present particularly relevant genres and texts that employ these metaphors often from a historical perspective that analyses development through different periods
