The Making Of Adolf Hitler:

The Making of Adolf Hitler Eugene Davidson,1997 **The Making of Adolf Hitler** Eugene Davidson,1977 A biography of Hitler that examines his life and the reasons for his rise to power in Germany *The Unmaking of Adolf Hitler* Eugene Davidson,2004 The Unmaking of Adolf Hitler which includes dozens of photos from German collections covers literally every aspect of Hitler s life from his success after he came to power in 1933 to his self destruction Renowned author Eugene Davidson describes in detail Hitler s stratagems in reviving morale and undoing the inequitable treaties imposed on Germany after World War I and his shrewd moves to take advantage of the fatal miscalculations of the coalition that had been aligned against the Reich Once Hitler had brutally improved Germany s desperate state there followed mortal errors and fateful mistakes of judgment arising from his own inadequacies Compelling well researched and eminently readable The Unmaking of Adolf Hitler strives to explain how and why Hitler s empire collapsed from his own actions Available only in the USA and Canada **The Making of Adolf Hitler** Eugene Davidson (historien).),1977 **The Hitler of History** John Lukacs,2011-04-06 In this brilliant strikingly original book historian John Lukacs delves to the core of Adolf Hitler s life and mind by examining him through the lenses of his surprisingly diverse biographers Since 1945 there have been more than one hundred biographies of Hitler and countless other books on him and the Third Reich What happens when so many people reinterpret the life of a single individual Dangerously the cumulative portrait that begins to emerge can suggest the face of a mythic antihero whose crimes and errors blur behind an aura of power and conquest By reversing the process by making Hitler s biographers rather than Hitler himself the subject of inquiry Lukacs reveals the contradictions that take us back to the true Hitler of history Like an attorney Lukacs puts the biographies on trial He gives a masterly account of all the major works and of the personalities methods and careers of the biographers one cannot separate the historian from his history particularly in this arena he looks at what is still not known and probably never will be about Hitler he considers various crucial aspects of the real Hitler and he shows how different biographers have either advanced our understanding or gone off track By singling out those who have been involved in or co opted into an implicit rehabilitation of Hitler Lukacs draws powerful conclusions about Hitler s essential differences from other monsters of history such as Napoleon Mussolini and Stalin and equally important about Hitler s place in the history of this century and of the world **World War II in Literature for Youth** Patricia Hachten Wee,Robert James Wee,2004-11-10 This comprehensive volume provides a wealth of information with annotated listings of more than 3 500 titles a broad sampling of books on the war years 1939 1945 Includes both fiction and nonfiction works about all aspects of the war Professional resources for educators aligned to the educational standards for social studies technical references periodicals and electronic resources a directory of WWII museums memorials and other institutions and topics for exploration complement this excellent library and classroom resource
