Groseclose,1995 The British Raj a Sanskrit based word meaning dominion or empire which has taken on a wholly Victorian flavor as a result of popular films and books actually began in piecemeal fashion when the East India Company developed settlements in Madras Calcutta and Bombay during the seventeenth century As these small enclaves grew into cities the British tried hard to give them the look and feel of the country they had left behind Barbara Groseclose examines British public statuary and church monuments in India from the standpoint of its function in regard to the British themselves Arguing that doubts and anxieties

as well as assumptions about their own place in Indian life bear strongly on the roles and achievements for which the British sought or received commemoration she analyzes the British self characterizations of victor administrator scholar and benefactor in sculptural imagery Her close scrutiny of these largely forgotten works of art reveals the crucial part they played in helping the British to explain and justify empire to themselves But the author s sense of the inherently ambivalent nature of the colonizer colonized relationship prevents this book from becoming simply a platform for the indictment of imperialists or for an insistence on the wholesale victimization of their subjects Rather Groseclose discerns in this art some of the complicated emotional undertones simultaneously shaping and destabilizing the attempted economic and intellectual domination of India BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved
