Waterston Alec Lucas John A Irving A H Johnson A Vibert Douglas and Frank W Watt      **The Far Northeast** Kenneth R. Holyoke, M. Gabriel Hrynck, 2022-03-22 The Far Northeast 3000 BP to Contact is the first volume to synthesize archaeological research from across Atlantic Canada and northern New England for the period spanning from 3000 years ago to European contact. Recently, notions of the Woodland period in the broader Northeast have drawn scrutiny from experts due to increasing awareness that its hallmarks such as horticulture, village formation, mortuary ceremonialism, and the advent of various technologies appear to be less synchronous than once thought. By paying particular attention to the Far Northeast and its unique yet sometimes marginal position in Woodland discourse, this work offers a much needed in-depth look at one of the best documented cases of hunter-gatherer persistence and adaptation at the eve of European contact. Penned by academic government and cultural resource management archaeologists, the seventeen chapters in The Far Northeast 3000 BP to Contact draw on decades of research in considering this period both in terms of variability within the region and integration with broader cultural patterns in the Northeast and beyond.      Evaluative ethno-historical bibliography of the Malecite Indians Michel R. P. Herisson, 1974-01-01 This bibliography aims for complete coverage of primary sources both published and unpublished of Malecite ethnology. Published in English.
