Spooky Stuff:

Haunted Stuff Stacey Graham, 2014-08-08 Finding a one of a kind antique doll at a garage sale is a great feeling until you bring that doll home and discover it's haunted. Objects with restless spirits attached to them can quietly invade a home through auctions, antique dealers, estate sales, garage sales, and inheritance. This spooky collection examines a wide variety of haunted items from screaming skulls to demonic dolls and how they affect the owner's life. **Haunted Stuff** provides true accounts of possessed possessions often found in the strangest places. Discover chilling stories of the island of haunted dolls, the tumbling coffin, Rudolph Valentino's cursed ring, and even the Queen Mary ocean liner, one of the largest haunted items of all. Experience these true accounts that will make you look closer at the antiques on your shelf and wonder if that creepy doll just blinked.

Spookygirl: Paranormal Investigator Jill Baguchinsky, 2012-08-16 Winner of the Breakthrough Novel Award Contest. Jill Baguchinsky's quirky, creepy debut *Violet* doesn't remember much about her late mother, but she is certain of one thing: she too can see ghosts and communicate with the dead. But when Violet discovers paranormal activity in the girls' locker room, she finds herself ill-equipped for handling the school's ghostly echoes. Through Violet's own investigation and with the help of some unlikely allies, Violet discovers there is a lot she doesn't know about her special skill and more still that can stand in the way of its power. With sharp wit and determination, Violet sets out to uncover the truth behind her school's haunting to finish the investigation that led to her mother's sudden death and to learn why the only ghost she has ever wanted to see is the one that has eluded her forever.

Three Sisters James D. Doss, 2008-09-30 Colorado rancher and tribal investigator Charlie Moon is taking a night off to play some poker with his best friend Scott Parris. Granite Creek's chief of police when Scott's dispatcher cuts in with an emergency call. It seems a man was on the phone with his wife when their call was interrupted by a bloodcurdling scream and the most gruesome noises he'd ever heard. Would they mind checking it out? Arriving on scene, they discover that the man's wife, one of three daughters of a wealthy and powerful rancher, has been mauled beyond recognition. Even after her two sisters, one of whom is a popular TV psychic who on that very night's show reported seeing the real-time murder of one of her fans, turn up at the DA's office demanding answers, the smart money and forensic experts are still laying blame on a hungry bear. But once the wheels of justice are turning and the ratings for Cassandra Sees are going through the roof, the surviving sisters are awfully quick to move on in all kinds of ways. With eyebrows and suspicions raised, Charlie and his irascible aunt Daisy, a Ute shaman whose investigative talents rely heavily on help from the spirit world, set out to track down a killer. A tight plot, quick wit, and clever crimes make *Three Sisters* the twelfth installment in the popular *Charlie Moon* series the newest must-have from James D. Doss.

Freak the Mighty W. Rodman Philbrick, 2001 At the beginning of eighth grade, learning-disabled Max and his new friend Freak, whose birth defect has affected his body but not his brilliant mind, find that when they combine forces, they make a powerful team.

Initiation Peter King, 2015-08-22 Most teens feel alienated from the adult world, but Sam Kahu is more alienated than most. For a start,

his home just burned down and all his friends and family are missing presumed dead Worse he knows they are out to get him and if he doesn't successfully hide within the system he could find himself inside a UFO having his brain dissected Fortunately he has a few resources he's innately psychic and he has high technology gadgets But the most promising development is the young lesbian youth aid cop assigned to his case Because pretty soon she's going to need help and he has a strange feeling he's met her somewhere before Over six novel sized parts *Changels Genesis* tells the story of six psychic teenagers from around the world and how they were trained and equipped to become superheroes the Changels the self appointed guardian angels of global change Told by Sam it's a personal story of growth minorities true conspiracies and alien biological warfare in the early 21st century It is not suitable for readers under 13 *Changels Genesis* mixes fact and fantasy so that it's hard to tell the difference

Short Stories Are Not Real Life David R. Slavitt, 1999-03-01 In these fourteen beautifully crafted stories David R Slavitt shows his mastery of the form Elegant spare sometimes funny sometimes elegiac this collection reflects a writer in admirable control of his craft The title story complete with footnotes la The Norton Anthology of Short Fiction braids together the tidy conventions of fiction and the brutal reality of New York as a writing teacher ponders s student s sexually explicit story that may or may not be autobiographical In The Impostor a writer s brother exploits the legerdemain of fiction in a series of ever bolder impersonations Several of the stories are presented by emotionally wounded narrators disillusioned men looking for a hint of grace in a world where expectations are frequently doomed to disappointment In such a world only one thing is certain we will hurt and be hurt by the ones we love And in the vacuum left

when traditions that might have been redemptive have lost their meaning punishment gets to be a habit a way of life or at least something to hold onto The stories pivot on nuance on the half realized insight on some perfectly innocent and insignificant insight on some perfectly innocent and insignificant gesture that turns round and grows into a medium to large awkwardness We find what the divorced father futilely awaiting his daughter s visit in Hurricane Charlie calls dabblers in distress lonely decent people trying to discover where love and life went In Simple Justice a man striving for some definitive family memory compares the process to archaeology The shards that remain are pathetically small and almost grudging Thus through the faltering memory of an elderly cousin in confections a man becomes a kind of incarnation of his own father and for a moment finds himself at the vanishing point where a lost past meets an unknowable future in The long Island Train a simple anecdote becomes a metaphor for the opacity of the most apparently transparent human intentions Yet it is often these shard of tradition and memory that seem to hold our only promise of transcendence The protagonist of Grandfather for example through his reluctant participation in his grandson s bris finds a moment of reconciliation with a past that has broken loose of its moorings Even the most experimental of these pieces Instructions a list of admonitions ranging from the quotidian to the cosmic shows a deep humanity and a maturity of vision that steers adeptly between humor and despair These stories will linger in the reader s memory long after the book is closed **Progressive Atheism** J. L.

Schellenberg,2019-08-08 Progressive Atheism shows how atheism can make progress in humanity s future It presents a new way of arguing that God doesn t exist based on a portrayal of God so positive that you may sometimes wonder whether you re reading the thoughts of a believer Starting with the simple idea that our understanding of what it takes to be a good person has changed and grown over time J L Schellenberg argues that our understanding of the goodness of God must now change too Masculine images of God as haughty King or distant Father have to be replaced by God as a paragon of nonviolence and relational openness This more evolved conception of God is incredibly attractive and admirable But by the same token it has become less believable Each moral advance applied to God makes it even clearer that such a being would never create a world like ours Atheists have often approached the subject of God with disdain Progressive Atheism proves that admiration will be far more powerful **Playing to the Edge** Michael V. Hayden,2017-02-21 From the bestselling author of The

Assault on Intelligence an unprecedented high level master narrative of America s intelligence wars demonstrating in a time of new threats that espionage and the search for facts are essential to our democracy For General Michael Hayden playing to the edge means playing so close to the line that you get chalk dust on your cleats Otherwise by playing back you may protect yourself but you will be less successful in protecting America Play to the edge was Hayden s guiding principle when he ran the National Security Agency and it remained so when he ran CIA In his view many shortsighted and uninformed people are quick to criticize and this book will give them much to chew on but little easy comfort it is an unapologetic insider s look told from the perspective of the people who faced awesome responsibilities head on in the moment How did American intelligence

respond to terrorism a major war and the most sweeping technological revolution in the last 500 years What was NSA before 9 11 and how did it change in its aftermath Why did NSA begin the controversial terrorist surveillance program that included the acquisition of domestic phone records What else was set in motion during this period that formed the backdrop for the infamous Snowden revelations in 2013 As Director of CIA in the last three years of the Bush administration Hayden had to deal with the rendition detention and interrogation program as bequeathed to him by his predecessors He also had to ramp up the agency to support its role in the targeted killing program that began to dramatically increase in July 2008 This was a time of great crisis at CIA and some agency veterans have credited Hayden with actually saving the agency He himself won't go that far but he freely acknowledges that CIA helped turn the American security establishment into the most effective killing machine in the history of armed conflict For 10 years then General Michael Hayden was a participant in some of the most telling events in the annals of American national security General Hayden's goals in writing this book are simple and unwavering No apologies No excuses Just what happened And why As he writes There is a story here that deserves to be told without varnish and without spin My view is my view and others will certainly have different perspectives but this view deserves to be told to create as complete a history as possible of these turbulent times I bear no grudges or at least not many but I do want this to be a straightforward and readable history for that slice of the American population who depend on and appreciate intelligence but who do not have the time to master its many obscure characteristics
