*Spotlight on the Age of Enlightenment* Alan Blackwood,1987      **The British Library General Catalogue of Printed Books, 1986 to 1987** British Library,1988      **A Cultural History of Money in the Age of Enlightenment** Christine Desan,2021-03-11 The Enlightenment was a time of monetary turmoil and transformation in Europe Change began with a riot of experimentation including novel ideas about human agency and capacity to promote economic progress efforts to reframe divinity in terms like the providential compatible with market exchange new instruments of credit and innovative institutions such as national banks and capital markets Europeans including the settler societies in North America improvised frantically people faced the task of everyday exchange in changing media governments took up the project of creating currencies that supported their political power artists and writers raced to represent new forms of wealth and interpret the issues they raised and intellectuals struggled to conceptualize and tame patterns of monetary transformation The result was a rich debate still unsettled about the sources of value the morality of the market and the very nature of money Drawing upon a wealth of visual and textual sources *A Cultural History of Money in the Age of Enlightenment* presents essays that examine key cultural case studies of the period on the themes of technologies ideas ritual and religion the everyday art and representation interpretation and the issues of the age      *A Cultural History of Shopping in the Age of Enlightenment* Ilja Van Damme,2022-06-02 *A Cultural History of Shopping* was a Library Journal Best in Reference selection for 2022 The consumer revolution of the 18th century has been the subject of much debate among historians but it seems clear there was also a retail revolution a period of unprecedented growth in material goods was accompanied by a proliferation of retail spaces and techniques which brought new fashions and imported commodities to the homes of consumers Governments responded to a growing culture of polite and civilized behavior across society by stimulating urban renewal for leisure and shopping new pavements street lighting green promenades theatres coffee houses and adjacent shopping streets were laid out everywhere in Europe As the 18th century drew to its close shopping had become a publicly accepted and celebrated leisure pursuit gaining its proper meaning in multiple languages *A Cultural History of Shopping in the Age of Enlightenment* presents an overview of the period with themes addressing practices and processes spaces and places shoppers and identities luxury and everyday home and family visual and literary representations reputation trust and credit and governance regulation and the state      **A Cultural History of Law in the Age of Enlightenment** Rebecca Probert,John Snape,2021-03-11 The period of the Enlightenment was marked by innovation in political cultural religious and educational ideas with the aim of improving the experience of human beings in society Key to intellectual debates and day to day life were ideas about the law Many looked to Britain and to the British as exemplars of a state governed by moderate laws under a moderate constitution Britain s laws and constitution were portrayed and satirized in almost every artistic medium *A Cultural History of Law in the Age of Enlightenment* presents essays spanning the long 18th century 1680 to 1820 which

explore the place of law in a range of creative and artistic media all of which flourished in a commercial society with law at its center and enlightenment as its aim Drawing upon a wealth of visual and textual sources *A Cultural History of Law in the Age of Enlightenment* presents essays that examine key cultural case studies of the period on the themes of justice constitution codes agreements arguments property and possession wrongs and the legal profession *The World's History* Howard Spodek,2001 A true exploration of world history this text presents world history through an analysis of eight chronological turning points seen through the prisms of eight different themes origins cities empires religion trade migrations revolutions and technology Focusing throughout on three major questions What do we know How do we know it What difference does it make it helps readers make sense of the immensity of human historical experience the most significant activities accomplishments and failures throughout the world from earliest times to the present Volumes I and II cover the following turning points human origins and human cultures 5 million B C E 10 000 B C E The first cities 10 000 B C E 1000 C E Empire and Imperialism 2300 B C E 1100 C E the rise of world religions 600 B C E 1500 C E world trade 1100 1776 C E migration 1500 1750 social change 1688 1914 and exploding technologies 1914 1900s For individuals interested in a comprehensive yet manageable presentation of world history *The Cambridge History of the Age of Atlantic Revolutions: Volume 2, France, Europe, and Haiti* Wim Klooster,2023-11-09 Volume II delves into the revolutions of France Europe and Haiti with particular focus on the French Revolution and the changes it wrought The demarcation between property and power and the changes in family life religious practices and socio economic relations are explored as well as the preoccupation with violence and terror both of which were conspicuous aspects of the revolution Simultaneous movements in England Germany Hungary Ireland Italy and Poland Lithuania are also discussed The volume ends with the Haitian Revolution and its impact on neighboring countries revealing how the revolution was comprised of several smaller revolutions and how once the independent black State of Haiti was established an effort was made to fulfill the promises of freedom and equality *A Cultural History of Democracy in the Age of Empire* Tom Brooking,Todd M. Thompson,2022-12-15 This volume surveys democracy broadly as a cultural phenomenon operating in different ways across a very wide range of societies in the nineteenth century world In the long nineteenth century democracy evolved from a contested maligned conception of government with little concrete expression at the level of the state to a term widely associated with good governance throughout the diverse political cultures of the Atlantic world and beyond The geographical scope and public range of discussions about the meaning of democracy in this era were unprecedented in comparison to previous centuries These lively debates involved fundamental questions about human nature and encompassed subjects ranging from the scope of the people who would participate in self government to the importance of social and economic issues For these reasons the nineteenth century has proven the formative century in the modern history of democracy Each chapter takes a different theme as its focus sovereignty liberty and the rule of law the common good economic and social

democracy religion and the principles of political obligation citizenship and gender ethnicity race and nationalism democratic crises revolutions and civil resistance international relations and beyond the polis These ten different approaches to democracy in the nineteenth century add up to an extensive synoptic coverage of the subject     The Birth of Orientalism Urs App, 2011-06-06 Modern Orientalism is not a brainchild of nineteenth century European imperialists and colonialists but as Urs App demonstrates was born in the eighteenth century after a very long gestation period defined less by economic or political motives than by religious ideology Based on sources from a dozen languages many unavailable in English The Birth of Orientalism presents a completely new picture of this protracted genesis its underlying dynamics and the Western discovery of Asian religions from the sixteenth to the nineteenth century App documents the immense influence of Japan and China and describes how the Near Eastern cradle of civilization moved toward mother India Moreover he shows that some of India's purportedly oldest texts were products of eighteenth century European authors Though Western engagement with non Abrahamic Asian religions reaches back to antiquity and can without exaggeration be called the largest scale religiocultural encounter in history it has so far received surprisingly little attention which is why some of its major features and their role in the birth of modern Orientalism are described here for the first time The study of Asian documents had a profound impact on Europe's intellectual makeup Suddenly the Bible had much older competitors from China and India Sanskrit threatened to replace Hebrew as the world's oldest language and Judeo Christianity appeared as a local phenomenon on a dramatically expanded worldwide canvas of religions and mythologies Orientalists were called upon as arbiters in a clash that involved neither gold and spices nor colonialism and imperialism but rather such fundamental questions as where we come from and who we are questions of identity that demanded new answers as biblical authority dramatically waned     **Whitaker's Book List** ,1987     Whitaker's Books in Print ,1998     Green History Thomas S. Martin, 2000 In Western culture domination and hierarchy are evident in three principal ways the oppression of people by other people the oppression of women by men and the oppression of nature by human beings Combining perspectives from anarchist feminist and ecological movements in addressing these three tyrannies Green philosophy has the potential to constitute the basis of any post Western worldview that renounces domination and hierarchy including those that inform the writing and teaching of history Although books on historiography and historical method are legion few start from a Green or post Western perspective In Green History Tom Martin follows up his Greening of the Past with a thought provoking examination of the basic assumptions underlying Western historical thought from a Green standpoint Martin argues that Western historiography and historical method are fundamentally flawed and that our entire view of the past needs rethinking He offers a cogent critique of Western historiography and suggestions on possible directions for Green methodology narrative and focus Provocative and insightful Green History is a timely work that will engage historians interested in the future of their discipline     **The Routledge History of Loneliness** Katie Barclay, Elaine Chalus, Deborah

Simonton, 2023-02-28 The Routledge History of Loneliness takes a multidisciplinary approach to the history of a modern emotion exploring its form and development across cultures from the seventeenth century to the present Bringing together thirty scholars from various disciplines including history anthropology philosophy literature and art history the volume considers how loneliness was represented in art and literature conceptualised by philosophers and writers and described by people in their personal narratives It considers loneliness as a feeling so often defined in contrast to sociability and affective connections particularly attending to loneliness in relation to the family household and community Acknowledging that loneliness is a relatively novel term in English the book explores its precedents in ideas about solitude melancholy and nostalgia as well as how it might be considered in cross cultural perspectives With wide appeal to students and researchers in a variety of subjects including the history of emotions social sciences and literature this volume brings a critical historical perspective to an emotion with contemporary significance Chapter of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons CC BY 4.0 license

*The Memory Phenomenon in Contemporary Historical Writing* Patrick H. Hutton, 2016-07-15 In this book the author provides a comprehensive overview of the intense and sustained work on the relationship between collective memory and history retracing the royal roads pioneering scholars have traveled in their research and writing on this topic notably the politics of commemoration purposes and practices of public remembrance the changing uses of memory worked by new technologies of communication from the threshold of literacy to the digital age the immobilizing effects of trauma upon memory with particular attention to the remembered legacy of the Holocaust He follows with an analysis of the implications of this scholarship for our thinking about history itself with attention to such issues as the mnemonics of historical time and the encounter between representation and experience in historical understanding His book provides insight into the way interest in the concept of memory as opposed to long standing alternatives such as myth tradition and heritage has opened new vistas for scholarship not only in cultural history

but also in shared ventures in memory studies in related fields in the humanities and social sciences

**The Lonely Mirror** Sandra Kemp, Paola Bono, 2025-04-01 Contributing to a lively dialogue with Anglo American and French theorists The Lonely Mirror originally published in 1993 sets out to contextualize Italian feminist theory within the international debate The essays vividly illuminate the specific character of Italian feminism as a political and intellectual movement and expose the differences between the more institutionalized nature of women s studies in the United States and Britain It will be of vital interest both to general and academic readers who want to explore some of the most vibrant developments in European feminism
