Spring James Hillman,1986-09-01 **The Dove in the Consulting Room** Greg Mogenson,2004-06-02 This provocative and original book critically engages with psychoanalysis and in particular the phenomenon of the return of hysteria to analysis from a Jungian perspective **Jung & Film II** Christopher Hauke,Luke Hockley,2011 This book tackles the broader issues of film production and consumption the audience and the place of film culture in our lives **Jung and Film II: The Return** Christopher Hauke,Luke Hockley,2012-05-23 Since Jung and Film was first published in 2001 Jungian writing on the moving image in film and television has accelerated Jung and Film II The Return provides new contributions from authors across the globe willing to tackle the broader issues of film production and consumption the audience and the place of film culture in our lives As well as chapters dealing with particular film makers such as Maya Derren and films such as Birth The Piano The Wrestler and Breaking the Wave there is also a unique chapter co written by documentary film maker Tom Hurvitz and New York Jungian analyst Margaret Klenck Other areas of discussion include the way in which psychological issues come under scrutiny in many movies the various themes that concern Jungian writers on film how Jungian ideas on psychological personality types can be applied in fresh ways to analyse a variety of characters The book also includes a glossary to help readers with Jungian words and concepts Jung and Film II is not only a welcome companion to the first volume it is an important stand alone work essential for all academics and students of analytical psychology as well as film media and cultural studies *Psychotherapy, the Alchemical Imagination and Metaphors of Substance* Alan Bleakley,2023-07-04 Alchemy is popularly viewed as a secret way of turning worthless base metal into gold and then a precursor to modern chemistry This is often taken as a metaphor for psychological development This book describes an innovative third way for both the education and exercise of an alchemical imagination that embraces both material matters and psychological insight alchemy as lyrical poetics or the intensive production of embodied metaphor Alchemy here is viewed as an immanent set of metaphor driven best practices for indwelling complex and contradictory earthly matters in a sensual artistic and humane manner Or again it describes best psychotherapeutic practice Alchemy is read not as a medium for personal growth but optimal co existence with the natural world It is an eco logical rather than ego logical project with deep aesthetic concerns education of the senses in close noticing and political intentions a democracy of worldly things The book echoes post Freudian developments in psychoanalysis that avoid the mysticism of symbol systems to work rather with everyday signs and linguistic registers such as embodied metaphors keeping the focus on known and sensed phenomena rather than abstractions **Exploring the Work of Edward S. Casey** Azucena Cruz-Pierre,Donald A. Landes,2013-10-10 An authoritative study of Casey s major themes and ideas exploring and confirming his impact and contributions to contemporary philosophy *Derek Jarman's Visionary Arts* Michael Charlesworth,2024-05-16 Derek Jarman s place in the history of film is assured by virtue of his vibrant defiant films that experiment with the very process of film making and create new forms His paintings

their excitements and their profundity are less well known Michael Charlesworth sheds light on the varied ramifications of Jarman's artistic practice from his years at Prospect Cottage Dungeness and provides the first book length study of his interest in depth psychology He draws on Jarman's paintings especially his landscapes from the 1960s and 70s his multiple series such as black and broken glass GBH Queer and Evil Queen and his last Ecstatic Landscapes 1991 3 He also showcases Jarman's excellence as a writer with respect to his memoir Kicking the Pricks In a novel approach to Jarman's cinema selecting films such as Journey to Avebury 1973 Caravaggio 1986 The Garden 1990 and Blue 1993 Charlesworth emphasizes themes and artistry rather than narrative Exploring the ways in which Jungian and post Jungian psychology were absorbed into Jarman's varied works Derek Jarman's Visionary Arts provides a fresh perspective on his painting film and writing It celebrates him as one of the major British artists of the late 20th century engaging with current debates about queer sexualities environmentalism and climate catastrophe

The Essential James Hillman James

Hillman,2013-10-31 First published in 1990 James Hillman is one of the leading figures in archetypal psychology and one of the most creative minds in psychology This anthology of his writings presents carefully selected choice passages from many of his seminal essays and work on archetypal psychology Fundamental themes in Hillman s thought form the chapters of the book poetic basis of mind psychological polytheism dreams love therapy The book is intended for the reader who wants an overview or introduction to his highly original approach an approach that draws on mythology renaissance philosophy alchemy and critical readings of Jung and Freud Like Letters in Running Water Mary Aswell Doll,2000-07 Explores ways in which fiction yields transformative insights for educational theory and practice **The Rupture of Time** Roderick Main,2004-06-02 This book identifies what the theory of synchronicity is how it relates to Jungian psychology and other branches of knowledge and what the broader cultural significance of the theory might be Women and Evil Nel Noddings,1991-05-08 Human beings love to fictionalize evil to terrorize each other with stories of defilement horror excruciating pain and divine retribution Beneath the surface of bewitchment and half sick amusement however lies the realization that evil is real and that people must find a way to face and overcome it What we require Carl Jung suggested is a morality of evil a carefully thought out plan by which to manage the evil in ourselves in others and in whatever deities we posit This book is not written from a Jungian perspective but it is nonetheless an attempt to describe a morality of evil One suspects that descriptions of evil and the so called problem of evil have been thoroughly suffused with male interests and conditioned by masculine experience This result could hardly have been avoided in a sexist culture and recognizing the truth of such a claim does not commit us to condemn every male philosopher and theologian who has written on the problem It suggests rather that we may get a clearer view of evil if we take a different standpoint The standpoint I take here will be that of women that is I will attempt to describe evil from the perspective of women s experience Books in Print Supplement,1985 Sacral Revolutions Gottfried Heuer,2013-12-16 Sacral Revolutions is a unique project reflecting the contribution that Andrew Samuels has made to the general field of psychoanalysis and Jungian analysis in both clinical and academic contexts Gottfried Heuer has brought together an international array of authors friends and colleagues of Samuels to honour his 60th Birthday As a result the collection provides a creative and cutting edge overview of a fragmented field The chapters demonstrate the profound sense of social responsibility of these analysts and academics whose concerns include the mysteries and hidden meanings in social and political life This open and engaging volume includes a previously unpublished interview with C G Jung adding to its usefulness as an essential companion for academics analysts therapists and students *Architecture and Fire* Stamatis Zografos,2019-06-12 Architecture and Fire develops a conceptual reassessment of architectural conservation through the study of the intimate relationship between architecture and fire Stamatis Zografos expands on the general agreement among many theorists that the primitive hut was erected around fire locating fire as the first memory of architecture at the very beginning of architectural evolution Following the introduction Zografos analyses the

archive and the renewed interest in the study of archives through the psychoanalysis of Jacques Derrida He moves on to explore the ambivalent nature of fire employing the conflicting philosophies of Gaston Bachelard and Henri Bergson to do so before discussing architectural conservation and the relationship between listed buildings the function of archives and the preservation of memories from the past The following chapter investigates how architecture evolves by absorbing and accommodating fire while the penultimate chapter examines the critical moment of architectural evolution the destruction of buildings by fire with a focus on the tragic disaster at London's Grenfell Tower in 2017 Zografos concludes with thoughts on Freud's drive theory He argues the practice of architectural conservation is an expression of the life drive and a simultaneous repression of the death drive which suggests controlled destruction should be an integral part of the conservation agenda Architecture and Fire is founded in new interdisciplinary research navigating across the boundaries of architecture conservation archival theory classical mythology evolutionary theory thermodynamics philosophy and psychoanalysis It will be of interest to readers working in and around these disciplines **The Other Within Us** Marilyn Pearsall, 2018-03-09 Feminist women bequeath to us a powerful critique of our society's obsession with beauty and impossible body ideals Having refused makeup high heels and short skirts in their youth these women are now entering the most stigmatized stage in a woman's life old age As she becomes the older woman the feminist's rejection of beauty standards and her ability to locate self worth is being challenged How will feminists respond to the issues raised in this phase of their lives By confronting the issues unique to older women in our culture and society these authors redress the neglect and isolation experienced within contemporary feminism and gerontology Ultimately the goal of the book is to inspire the aging woman to more easily embrace the older other within her *The Handbook of Jungian Psychology* Renos K. Papadopoulos, 2012-10-12 The field of Jungian psychology has been growing steadily over the last twenty years and awareness is increasing of its relevance to the predicaments of modern life Jung appeals not only to professionals who are looking for a more humane and creative way of working with their clients but also to academics in an increasingly wide range of disciplines This Handbook is unique in presenting a clear comprehensive and systematic exposition of the central tenets of Jung's work which has something to offer to both specialists and those seeking an introduction to the subject Internationally recognised experts in Jungian Psychology cover the central themes in three sections Theory Psychotherapy Applications Each chapter begins with an introduction locating the topic in the context of Jung's work as a whole before moving on to an investigation of contemporary developments and concluding by demonstrating how Jung's theories continue to evolve and develop through their practical therapeutic applications The Handbook of Jungian Psychology is the definitive source of authoritative information on Jungian psychology for Jungian analysts psychotherapists counsellors and related professionals It will be an invaluable aid to those involved in Jungian academic studies and related disciplines Medical and Health Care Books and Serials in Print , 1997
