Cole, 2025-12-02 States and institutions in both conventionally authoritarian and formally democratic societies overtly circumscribe freedom in any number of ways Yet there are also subtler forms by which authorities and cultural forces compromise the choices of individuals in ways that do not seem at first glance to be coercive This book brings together a distinguished set of scholars to examine covert constraints on academic political and economic freedom from a variety of angles developing surprising and timely new insights Ranging across philosophy economics law health science art and the media luminaries from different fields expose threats to freedom within avowedly liberal and democratic institutions and cultures Their incisive essays both analytical and historical emphasize how economic inequality academic orthodoxy media control racism and gender roles undermine the potential for human flourishing By considering such multifarious noncoercive threats they illuminate the vexed notion of freedom Lively

and learned this book offers a provocative and urgent understanding of the often unacknowledged forces that restrict our choices Contributors include David Bromwich Eric Foner Robert Gooding Williams Michael Ignatieff Laura Kipnis Anya Schiffrin Joseph E Stiglitz and Geoffrey R Stone In an essay and an interview with the volume editors Noam Chomsky addresses the neoliberal assault on academic freedom *Hearings, Reports and Prints of the Senate Committee on Public Works* United States. Grant,Agostino Portera,2010-09-13 By addressing intercultural and multicultural education in a global context this volume brings together the dynamic discussions and lively debate of intercultural and multicultural education taking place across the world Not content with discussion of theory or practice at the expense of the other this collection of essays embodies dialogical praxis by weaving together a variety of epistemologies ideologies historical circumstances pedagogies policy approaches curricula and personal narratives Contributors take readers to the countries schools and nongovernmental agencies where intercultural education and multicultural education either collectively or singularly are active often central concepts or practices in the daily educational undertaking and discourse of society Readers are also informed about how intercultural education and or multicultural education within a country came to be and will learn about the debates over intercultural education and or multicultural education at both the government and local level **Acts and Laws of the Commonwealth of Massachusetts** Massachusetts,1916 Acts and Resolves Passed by the General Court Massachusetts,1916 All Eyes are Upon Us Jason Sokol,2014-12-02 The Northeastern United States home to abolitionism and a refuge for blacks fleeing the Jim Crow South has had a long and celebrated history of racial equality and political liberalism After World War II the region appeared poised to continue this legacy electing black politicians and rallying behind black athletes and cultural leaders However as historian Jason Sokol reveals in *All Eyes Are Upon Us* these achievements obscured the harsh reality of a region riven by segregation and deep seated racism White fans from across Brooklyn Irish Jewish and Italian came out to support Jackie Robinson when he broke baseball s color barrier with the Dodgers in 1947 even as the city s blacks were shunted into segregated neighborhoods The African American politician Ed Brooke won a senate seat in Massachusetts in 1966 when the state was 97% white yet his political career was undone by the resistance to busing in Boston Across the Northeast over the last half century blacks have encountered housing and employment discrimination as well as racial violence But the gap between the northern ideal and the region s segregated reality left small but meaningful room for racial progress Forced to reckon with the disparity between their racial practices and their racial preaching blacks and whites forged interracial coalitions and demanded that the region live up to its promise of equal opportunity A revelatory account of the tumultuous modern history of race and politics in the Northeast *All Eyes Are Upon Us* presents the Northeast as a microcosm of America as a whole outwardly democratic inwardly conflicted but always striving to live up to its highest ideals Check List of References on City Planning Special Libraries Association,1912 City Planning ,1926 **The**
