The Springs of Creativity Heinz Westman, Robert W. Laidlaw, 2013-09 **Transforming Leadership** James MacGregor Burns, 2004 The award winning historian critically examines the role of leadership in the twenty first century outlining a program through which leaders can become agents of positive social change **The Springs of Creativity. With an Introduction to Part Three by Sir Herbert Read. [With Plates.]** Heinz WESTMANN, 1961 The Quiet Path Andrew Rudd, 2024-06-11 The Quiet Path is a book for the walker or the armchair traveller the clear sighted tourist or the bewildered wanderer Blending reflection and poetry it shows how the simple practice of walking can become a quiet path of wonder and how a brief pause in a busy day can turn into contemplation It explores how the ordinary practices of walking and noticing recognizing and writing can help us discover depth and spirituality in everything we encounter and find a deeper awareness of a Presence in all things This book is not about the big idea the motorway the A road the bypass It s about snickets byways bridleways and gentle lines across the map Every page is a signpost pointing down a quiet path ready for you to take a walk through the landscape of the heart *Th3 Simple Questions* Jean Yeager, 2015-04-17 GOODREADS REVIEW Honestly I have been in a slump for a while when it comes to reading books until I got my hands on this one let s just say this amazing book found me and I am ecstatic that it did The style of short essays or slices each with the Who am I Why am I here and What do I want format took me by surprise as it was an energizing way to read and process thought provoking concepts with each slice only being a few pages long and the analogies were artfully presented Mark Krausman Mind over Memes Diana Senechal, 2018-10-15 Too often our use of language has become lazy frivolous and even counterproductive We rely on clichés and bromides to communicate in such a way that our intentions are lost or misinterpreted In a culture of takeaways and buzzwords it requires study and cunning to keep language alive In Mind over Memes Passive Listening Toxic Talk and Other Modern Language Follies Diana Senechal examines words concepts and phrases that demand reappraisal Targeting a variety of terms the author contends that a good fit may not always be desirable delivers a takedown of the adjective toxic and argues that social justice must take its place among other justices This book also includes a critique of our modern emphasis on quick answers and immediate utility By scrutinizing words and phrases that serve contemporary fads and follies this book stands up against the excesses of language and offers engaging alternatives Drawing on literature philosophy social sciences music and technology Senechal offers a rich framework to make fresh connections between topics Combining sharp criticism lyricism and wit Mind over Memes argues for judicious and imaginative speech **ATEE Spring Conference 2020-2021** Maria Ranieri, Laura Menichetti, Stefano Cuomo, Davide Parmigiani, Marta Pellegrini, 2021-10-18 This book collects some of the works presented at ATEE Florence Spring Conference 2020 2021 The Conference originally planned for May 2020 was forcefully postponed due to the dramatic insurgence of the pandemic Despite the difficulties in this period the Organising Committee decided anyway to keep it although online and more than one year later not to disperse the huge work of authors

mainly teachers who had to face one of the hardest challenges in the last decades in a historic period where the promotion of social justice and equal opportunities through digital technologies and beyond is a key factor for democratic citizenship in our societies The Organising Committee the University of Florence and ATEE wish to warmly thank all the authors for their commitment and understanding which ensured the success of the Conference We hope this book could be not only a witness of these pandemic times but a hopeful sign for an equal and inclusive education in all countries

they support similar aesthetic judgments concerning landscapes and this suggests that the two positions might be incorporated into a broader theory of evolutionary aesthetics That theory is briefly outlined and applied to both natural landscapes and parks

Jeffrey B WEBB Watershed Redesign in the Upper Wabash River Drainage Area 1870 1970 ABSTRACT The Huntington Salamonie and Mississinewa reservoirs in northern Indiana control seasonal flooding in the Upper Wabash River drainage area They appeared in the 1960s after a long period of study and planning in response to large scale flooding in central and southern Indiana in the first half of the twentieth century Their construction disrupted the pattern of human ecology along the Wabash and its tributaries for many of the watershed's inhabitants Supporters touted the projects economic and recreational benefits while opponents experienced the change as a desecration of sacred space The projects saved millions in property damage and perhaps many human lives but at the cost of an enduring sense of place amid the advent of a new regime of scientific watershed management and state control over natural resources in the region

Winnie L M YEE Fashion Affect and Poetry in a Global City ABSTRACT Everyday life is a central theme of Hong Kong poetry Many Hong Kong poets use the quotidian as a starting point for the exploration of history and alternative imaginings That is mundane focus unlike the colonial dreamscape of Hong Kong as an economic miracle allows writers to reflect upon Hong Kong as a post colonial and global space The Hong Kong writer Natalia Chan examines the complex nature of everyday life within the space of the global and post colonial city Chan's poems deal with the essence of everydayness and use commodities to conjure up the vivacity of the urbanscape of Hong Kong Unlike the political and economic discourse that is usually used to define Hong Kong Chan's work portrays Hong Kong as a city that offers the possibility of daily recreation against the background of history In this article we will examine Chan's use of the circulation of commodities in the global world and explore the way fashion becomes a point where high and popular culture private and public domains and local and global interests clash negotiate and fertilize each other Chan's works do not conform to the economic and prosperity discourse that has repressed Hong Kong rather she guides her readers to re-experience the everydayness of routines to celebrate alternate ways of understanding the urbanscape and to open themselves to the potentialities of art and the everyday
