Statistics for Criminology and Criminal Justice Jacinta M. Gau, 2018-02-09 It is a great textbook for undergrads who are being exposed to statistics in the field for the first time and for Master s students who need a better grasp of the fundamentals of statistics before taking more advanced courses Calli M Cain University of Nebraska at Omaha A must have textbook for Instructors and students alike in the fields of Criminology and Criminal Justice The book is user friendly Bonny Mhlanga Western Illinois University An Introduction to Statistics in Criminology and Criminal Justice Statistics for Criminology and Criminal Justice Third Edition demonstrates how statistics is relevant to a student s life and future career by illustrating the logical connections between basic statistical concepts and their real world implications in criminology and criminal justice Written for students with a limited mathematical background author Jacinta Gau eases student anxiety around statistics by simplifying the overarching goal of each statistical technique and providing step by step instructions for working through the formulas and numbers Students use real data from the field to build a foundational knowledge of statistics rather than merely memorizing key terms or formulas New to the Third Edition NEW Thinking Critically feature encourages students to apply the concepts from the chapter to real life scenarios with open ended

questions that are designed to inspire students to think about the nuances of science statistics and their application to criminal justice. Additional illustrations and examples in every chapter keep students engaged with the content and offer ample opportunities for them to practice the techniques. New and updated data sets from a wide range of relevant sources such as the NCVS and UCR, BJS, LEMAS, the Census of Jails, and much more have been incorporated to give students insights into the state of criminal justice research today. New research on critical topics encourages students to discuss changes happening in the field such as the Census of Jails inmate on staff assaults in prisons and homicide rates. Practicing Statistics Whiteboard Videos available in SAGE edge walk students through statistical calculations to reinforce key concepts. Previous edition errors have been corrected by a statistician. Give your students the SAGE edge. SAGE edge offers a robust online environment featuring an impressive array of free tools and resources for review, study, and further exploration, keeping both instructors and students on the cutting edge of teaching and learning.

A Beginner's Guide to Statistics for Criminology and Criminal Justice Using R Alese Wooditch, Nicole J. Johnson, Reka Solymosi, Juanjo Medina Ariza, Samuel Langton, 2021-06-03 This book provides hands-on guidance for researchers and practitioners in criminal justice and criminology to perform statistical analyses and data visualization in the free and open-source software R. It offers a step-by-step guide for beginners to become familiar with the RStudio platform and tidyverse set of packages. This volume will help users master the fundamentals of the R programming language, providing tutorials in each chapter that lay out research questions and hypotheses centering around a real criminal justice dataset such as data from the National Survey on Drug Use and Health, National Crime Victimization Survey, Youth Risk Behavior Surveillance System, The Monitoring the Future Study, and The National Youth Survey. Users will also learn how to manipulate common sources of agency data such as calls for service (CFS) data. The end of each chapter includes exercises that reinforce the R tutorial examples designed to help master the software as well as to provide practice on statistical concepts, data analysis, and interpretation of results. The text can be used as a stand-alone guide to learning R or it can be used as a companion guide to an introductory statistics textbook such as *Basic Statistics in Criminal*
